MOUNTAIN SEARCH PILOT CLINIC

FOR ALL PILOTS INTERESTED IN LEARNING SEARCH AND RESCUE TECHNIQUES.

An intensive 3-day session for pilots registered with the MDT Aeronautics Division. This clinic prepares our volunteers for Air Search and Rescue missions. Pilots wanting to volunteer for air search and rescue may do so on the back of the MT pilot registration cards.

Watch for the current flyer. It will be uploaded to our website by the end of July, and is mailed to all Montana registered pilots.
