zero deaths
zero serious injuries

Memorandum

To: e-Distribution
see below

From: Damian Krings, P.E. **DMK**
Acting Highways Engineer

Date: September 17, 2020

Subject: Finished Grade Control and Bridge Survey

Among the changes to the December 2020 version of the MDT Specifications, Finished Grade Control and Bridge Survey will no longer be measured separately for payment but will be incidental to other items. For all projects let to contract on or after December 17, 2020, ensure that any quantities or language referencing these two items as bid or measured for payment is removed from all project specific plans, special provisions, and estimates. The associated bid items will be made obsolete, and the Road Design Manual will be modified to reflect this change.

Contact Damian Krings with any questions to this guidance.
