## Memorandum

To: Distribution

From: Paul Ferry, P.E.  
Highways Engineer

Date: April 23, 2014

Subject: 11" x 17" Plans

Due to a number of problems that have occurred resulting from the use of 8½" x 11" plan sheets, all plans will now be developed on 11" x 17" sheets. This change will apply to all designs started as of April 28, 2014. If you have the time to change the plan sheet size for designs that have already been started, we recommend that you make these changes. However, it is not required.

If you have questions concerning this information, please contact Paul Ferry.
