

## **702.01, Bituminous Materials Medium Curing Liquid Asphalt (MC-70)**

### **Qualification Requests**

On the laboratory test report that is sent in with the request, the test data must show that the material is in compliance with the material requirements.

### **Qualification samples**

The requirements for samples that are received for QPL prequalification are as follows.

- ◆ The producer will submit a minimum of two 1 quart samples for each type of Medium Curing Liquid Asphalt to be considered along with test results from an independent laboratory.
- ◆ MDT will test each sample according to the tests outlined in subsection "702.01 Medium Curing Liquid Asphalt (MC)". The material will be rejected if the material does not meet the requirements.

### **Material Requirements**

Requirements may be found in the Standard Specifications for Road and Bridge Construction subsection 702.01 Medium Curing liquid Asphalt (MC), the Supplemental specifications to Montana Standard Specifications subsection 702.01 Medium Curing Liquid Asphalt (MC) or contract Special Provisions.
