

703.08, Traffic and Pedestrian Signals

Qualification Requests

Provide the Department with a completed request form and catalog cuts of proposed traffic and pedestrian signals that meet the Department's material requirements.

Material Requirements

Provide materials meeting the requirements of the Standard Specifications for Road and Bridge Construction Subsection 703.08 Traffic and Pedestrian Signals and Traffic Special Provisions for Signal-Traffic and Signal-pedestrian (countdown) modified as necessary to address corresponding supplemental specifications, or contract Special Provisions.

Qualification Procedures

Submit catalog cuts of proposed traffic and pedestrian signals to be considered. The Department will make sure the products meet the Departments specifications outlined in Subsection 703.08 Traffic and Pedestrian Signals and Traffic Special Provisions for Signal-Traffic and Signal-pedestrian (countdown). Materials not meeting the requirements will be rejected. Materials meeting the requirements will be placed on the QPL.
