

710.04, Anti-Graffiti Coating-Permanent

Qualification Requests

On the laboratory test report that is sent in with the request, the test data must show that the material is in compliance with requirements for Anti-Graffiti Coating-Permanent.

Qualification Procedures

The requirements for test reports that are received for QPL prequalification are as follows.

- ◆ The producer will submit test reports showing the product meets the Anti-Graffiti Coating-Permanent specifications.
- ◆ MDT will ensure that the product meets the testing requirements on the web page. The material will be rejected if MDT's requirements are not meet.

Material Requirements

Anti-Graffiti Coating-Permanent must meet the requirements listed in the Standard Specifications for Road and Bridge Construction subsection "710.04 Anti-Graffiti Coating-Permanent", the Supplemental specifications to Montana Standard Specifications subsection 710.04, or contract Special Provisions.
