 - Sam Lawton – Project Manager
 - Audrey Wennink – Senior Analyst

Purpose of Transportation Safety Plan

The City of Shelby, MT is seeking a multimodal Community Transportation Safety Plan that will document the area's transportation safety issues and identify a comprehensive suite of strategies that will improve safety, save lives, and reduce crashes and injuries.

Plan Development Process

- **Establish TSAC**
- **Collect and review data**
- **Establish Goals and Objectives**
- **Identify Safety Emphasis Areas**
- **Identify strategies to address emphasis areas**
- **Define performance measures and means of monitoring progress**
- **Assign implementation responsibilities**
- **Review and finalize plan**

Work Plan and Time Line (proposed)

Kickoff Meeting	August 18, 2010
Request Available Data	Within 2 weeks
TSAC Mission Memo	Month 1
Results of Data Analysis	Month 2
Half-day TSAC Meeting	Month 3
Safety Summit	Month 4
Draft and Final Plan	Month 5
Presentation of Final Plan to TSAC	Month 6

Transportation Safety Advisory Committee (TSAC)

TSAC Mission (Proposed)

To review and provide guidance on the development of the Community Safety Transportation Plan and on-going participation to monitor and provide direction on plan implementation.

TSAC Roles and Responsibilities

- **Attend committee meetings and the Transportation Safety Summit**
- **Review available data; identify data needs**
- **Determine priority safety emphasis areas**
- **Develop mission statement, goals, and measurable objectives**
- **Review and finalize strategies and action steps**
- **Identify lead agencies to facilitate implementation**
- **Approve and submit final plan to City of Shelby for adoption**
- **Support the Community Transportation Safety Plan**

“ The 4 E’s of Safety”

Engineering
Enforcement
Education
Emergency Response
