The Montana Department of Transportation (MDT), in partnership with Park County and the Federal Highway Administration (FHWA), is developing a corridor planning study of U.S. Highway 89 to determine potential needs. The study will examine the highway in Park County from reference post 0.0 at the Yellowstone National Park boundary in Gardner, MT., north to reference post 52.5 south of Livingston, MT.

The Paradise Valley Corridor Planning Study is a pre-environmental study that allows for earlier planning-level coordination with the public, stakeholders, and environmental resource agencies. The study will help ensure a smooth and efficient transition from transportation planning to future project development/environmental review, if any, based on need and funding availability. The Paradise Valley Corridor Planning Study is a planning-level study and is not a design or construction project.

The meeting is open to the public and the public is urged to attend. MDT attempts to provide accommodations for any known disability that may interfere with a person's participation in any department service, program or activity. For reasonable accommodations to participate in this meeting, please contact Jeff Key at (406) 447-5000 at least two days before the meeting.
