MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.1)	08/21/25	MDT-Typical and MDT-Typical-Special Code Set Style When creating the typical section drawings using the Section View, need the ability to snap to specific points, e.g. lanes, shoulders, etc., for adding dimension lines and notes.	Created new MDT-Typical-Mill_Fill Code Set Style to use with creating mill/fill typical sections. Created new Link Styles: MDT-Typ-Base, MDT-Typ-Curb, MDT-Typ-Geotextile, MDT-Typ-Mill, MDT-Typ-Pave1, MDT-Typ-Subbase Bottom, MDT-Typ-Top, to enable snapping at corridor points when creating Typical Sections and placing dimension lines. For the MDT-Typical, MDT-Typical-Special, and MDT-Typical-Mill_Fill Code Set Styles, assigned corresponding MDT-Typ-* Link Style to each required Link.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\design-group.dwt (updated)	
2024.4	State Kit (v2.2.1)	08/21/25	Assembly Drawing Parameters Some of the parameters are set incorrectly in the MDT_Rural_2_Lane, MDT_Urban_2_Lane-Sidewalk, MDT_Ramp, and MDT_Rural_Divided drawing files. The MDT Civil 3D Subassembly and Assembly Guide will need to be updated for these corrections.	Edited the parameters in the Assembly Properties Construction tab in the MDT_Rural_2_Lane, MDT_Urban_2_Lane-Sidewalk, MDT_Ramp, and MDT_Rural_Divided drawings to the correct information. Updated the MDT Civil 3D Subassembly and Assembly Guide text and screen shots.	C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated)	
2024.4	State Kit (v2.2.1)	08/21/25	GuideSIGN STARTUP Variable STARTUP variable is setting to 0 when GuideSIGN is not installed.	Edited start up settings to detect a GuideSIGN folder within C:\Program Files\Transoft Solutions for setting STARTUP variable to 0 with command line startup message "STARTUP set to 0 for Transoft users.". If a GuideSIGN folder isn't found, the STARTUP variable should be set to 2 with command line startup message "STARTUP set to 2."	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Startup.VLX (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Adjust RD Notes Pages Asphalt Binder and Seal In the Basis of Plan Quantities section for the RD notes "Seal" needs to be changed to "Emulsified Asphalt Seal" to match what is on the typical sections summary sheet.	The RD-Notes block was adjusted to say Emulsified Asphalt Seal.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Notes.dwg (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Conversion of Photogrammetry template file from MicroStation to Civil 3D MicroStation template file I use for photogrammetry mapping information only and it has data fields in it. I would like the file made into a AutoCAD file.	A Photogrammetry Template file was created and added to the speed sheet folder in the speed sheet .dwt files.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTPH_FlightLog.dwt (new)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	Custom Line Style for Flight Line Need a custom line style (Flight) for aerial flight planning that can be adjusted for the scale of the flight.	Dynamic blocks were created for the 10 different flight types. Flight types are: PH-GSD-2.0 PH-GSD-2.5 PH-GSD-3.0 PH-GSD-3.5 PH-GSD-4.0 PH-GSD-4.5 PH-GSD-5.0 PH-GSD-5.5 PH-GSD-6.0 PH-GSD-12.0 Also 5 layers have been added for Photo to differentiate colors when using flight line blocks. Layers assed are: VA-FLGT-PATH-0001 VA-FLGT-PATH-0002 VA-FLGT-PATH-0003 VA-FLGT-PATH-0004 VA-FLGT-PATH-0005 MDT_PH_FLIGHT linetype was deleted from the linetypes.dwg and MDT_Linetypes.lin.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\PH-Plan.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT-LayerFilters.lft (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Linetypes\linetypes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Linetypes\MDT_Linetypes.lin (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	As-Built Components The as-built process involves adding notes reflecting construction modifications to the plans sets delivered from Design. As-built layer, pipe styles, multileader, and label styles are needed in the State Kit to support the as-built process.	Layer CN-ASBT is created with weight 0.012 and color red. Layer Filter "Construction" created to easily filter new layer. Multileader style "_MDT STD-Arial Italic .06 - Color" is created having color set to ByLayer for use with new layer CN-ASBT to display as-built labeling red. Note label style "MDT CN-As-Built" created for general as-built notes and labels using Text Style MDT Arial Bold Italic and new layer CN-ASBT and attributes with arrowhead and visible leader drag state properties. Pipe styles MDT CN-Double Line, MDT CN-Pipe Crossing Pipe, using new layer CN-ASBT and attributes are created.	C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT-LayerFilters.lft (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Drainage-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Annotation\Multileaders.dwg (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	PNEZD+Sta/Off Point Table Style - Project Explorer Need a COGO point table showing PNEZD and Sta/Off.	Created MDT PNEZD+STA OFF.xmpt Project Explorer Layout Style for points in point groups. Set precision to nearest 0.001 ft.	C:\mdoh\StateKit\Civil 3D\2024\Tools\Project Explorer\MDT PNEZD+STA OFF.xmpt (new)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	New Label Styles for ADA details ADA Detail label styles are needed for use when developing ADA details and adding labels/call outs.	Developed ADA detail label styles. Set the Leader Justification to "false" in the dragged state for all Surface and Alignment styles. General > Label Styles > Line & Curve: MDT-Grade Only-ADA, MDT-Grade Only-ADA FL Surface > Label Styles > Spot Elevations: MDT-FS, MDT-TBC FL FG, MDT-TBC FL FG - 3 in Curb, MDT-TBC - 4 in Curb, MDT-TBC FL FG - 5 in Curb, MDT-TBC FL FG - Laydown Curb, MDT-TBC FL FG - Laydown Curb Spill, MDT-TRW FS Alignment > Label Styles > Station Offset: MDTDET-C&G (Beg) MDT DET-C&G (End) MDTDET-C&G and Sidewalk (Beg) MDT DET-C&G and Sidewalk (End) MDTDET-Radius (Beg) MDTDET-Radius (End) MDT DET-Radius and C&G (Beg) MDT DET-Radius and C&G (End) MDT DET-Radius and C&G and Sidewalk (Beg) MDT DET-Radius and C&G and Sidewalk (End) MDT DET-Radius Center MDT DET-Sidewalk (Beg) MDT DET-Sidewalk (End) MDT DET-X.X' TBC Radius Center	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-AlnProfSuper-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Surface-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\design-start.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Access Control Line Types The access control line types include new r/w line, need process to place access control line symbology without a line to display on previous drawn lines. The access control symbols are too far apart, and color blue.	Removed the line drawn in lineytpes MDT_EFAC and MDT_ELAC1 so it will only draw the symbols. Created new linetypes for MDT_EFAC1 and MDT_ELAC that will draw symbols and a line. Set the default linetype for layers RR-ACCS and RR-ACC-E to "continuous". Reduced and adjusted the spacing of the text and symbol size for the access control lines. Created a lisp file to offset and set the properties of the access control lines. Created an Access Control palette with predefined attributes for each access control type. The access control linetypes offset the correct distance according to the annotation scale set in the drawing. The offset distance was slightly increased on the palette to improve the visibility of the access control line and text, e.g. 1"=200' - offset distance was changed from 5' to 7'.	State Kit File(s): C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT-layers.lft (updated) C:\mdoh\StateKit\Civil 3D\2024\Linetypes\linetypes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Linetypes\MDT_Linetypes.lin (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\RightOfWay\Palettes\20_MDT RW Access Control.atc (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	Electrical Wire Tags Labeling Wire tag block is needed for omni directional use, from points on a Triangle symbol with an internal character tag.	Two multileader styles were created. The MDT ELC-Wire Tag_Top multileader attaches the leader line to the top point of the triangle shaped tag. The MDT ELC-Wire Tag_Side multileader attaches the leader line to either side of the bottom point on the triangle symbol.	C:\mdoh\StateKit\Civil 3D\2024\Annotation\Multileaders.dwg (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Cross Section Labels - Offset Labels Corridor and feature line labels overlap on the cross sections where they exist in close proximity to each other.	"MDT XS-Elevation Offset" section label style for corridor points was created with corresponding "MDT XS-Elevation Offset" label set style with a setting that will stagger the elevation/offset corridor labels when in conflict. Use of this label style is accomplished with command CORRIDORSECTIONLABELSCONV. Additional marker and feature line styles were created along with corresponding blocks for substitution when labeling feature lines on cross sections that are in conflict with other labels. Marker styles, feature line styles, and blocks having a suffix "_RT" or "_LT" are created with an offset to the left or right for commonly labeled features that will display staggered labels.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-SampSectMass-Ref.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	R/W Layer States Layer states to support r/w processes are needed.	Created MDT Right of Way layer state to change and display the desired layer properties for r/w plan production.	C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT RightOfWay.las (new)	
2024.4	State Kit (v2.2.0)	07/18/25	Subassembly and Assembly - MDT Lane & MDT Shoulder - Unique point code names Unique point code names are needed for corridor features lines to support labeling and construction software. Using an alternate subassembly in lieu of MDT Daylight with Subbase for the assembly end condition results in a gap between the shoulder subassembly and the hinge point.	Updated MDT subassemblies to automatically (Point Code Location Suffix) append a Left (_L) and Right (_R) to each point code name. The AddSideCode value was set to Automatic in the pkt files. Updated subassemblies with option to create Custom Point Code Suffix by changing the Point Code Location Suffix value from Automatic to Custom Suffix and editing the Custom Point Code Suffix value. Refer to "MDT Civil 3D State Kit Subassembly and Assembly Guide" for further information. Updated all assembly drawings with MDT Lane and MDT Shoulder. The MDT Shoulder subassembly was updated to remove Top codes from L2 and L8 adding a Top code to L10 for default Input values. This adjustment can be repeated in the assembly properties by the user for MDT Shoulder subassemblies used prior to this update as these code changes will not update.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT ConnectSurfaceSlopeLinks.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT ConnectSurfaceSlopeLinks_1-0.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase_1-3.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Lane.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Lane_1-1.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT OffsetOnSurfaceLink.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT OffsetOnSurfaceLink_1-3.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Shoulder.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Shoulder_1-1.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink_1-3.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\assembly-start.dwt (updated) Other non-state kit files: 2024StateKit-Asm_Subasm.pdf (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	Subassembly and Assembly - MDT DaylightSubbase - Unique point code names Unique point code names are needed for corridor features lines to support labeling and construction software.	Updated MDT subassemblies to automatically (Point Code Location Suffix) append a Left (_L) and Right (_R) to each point code name. The AddSideCode value was set to Automatic in the pkt files. Updated subassemblies with option to create Custom Point Code Suffix by changing the Point Code Location Suffix value from Automatic to Custom Suffix and editing the Custom Point Code Suffix value. Updated the Geotextile Outside Edge Offset to be an editable parameter. Refer to "MDT Civil 3D State Kit Subassembly and Assembly Guide" for further information. Updated all assembly drawings with MDT Daylight with Subbase.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase_1-3.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\assembly-start.dwt (updated) Other non-state kit files: 2024StateKit-Asm_Subasm.pdf (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Subassembly and Assembly - MDT Sidewalk - Unique point code names Need to adjust point, link, and shape codes in Sidewalk.pkt to match updated MDT subassembly naming convention. Unique point code names are needed for corridor features lines to support labeling and construction software.	Updated MDT subassemblies to automatically (Point Code Location Suffix) append a Left (_L) and Right (_R) to each point code name. The AddSideCode value was set to Automatic in the pkt files. Updated subassemblies with option to create Custom Point Code Suffix by changing the Point Code Location Suffix value from Automatic to Custom Suffix and editing the Custom Point Code Suffix value. Refer to "MDT Civil 3D State Kit Subassembly and Assembly Guide" for further information. Updated point, link and shape code to match MDT subassembly naming convention. New Point Codes with (_L) and (_R) suffixes were created for each applicable point code.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Sidewalk.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Sidewalk_1-0.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\assembly-start.dwt (updated) Other non-state kit files: 2024StateKit-Asm_Subasm.pdf (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	MDT Curb & Gutter Subassembly A subassembly is needed to represent MDT curb types.	Developed new subassembly "MDT Curb & Gutter" with options for various MDT curb types. Included functionalities for targeting and dimension adjustments. "MDT Curb and Gutter" was removed from the MDT Subassemblies tool palette. MDT Urban 2 Lane - Sidewalk was updated with new "MDT Curb & Gutter" subassembly. Imported new codes into Code set styles "_MDT-Subassembly All Codes" and "MDT Corridor - Design". New Link codes - "Curb_Gutter", "Curb_Face", "Curb_Top", "Curb_Base", "Curb_Subbase", "Curb_Subbase_Bot", "Curb_Berm"; new Point Codes: Curb_Face", "Curb_Front_Gutter", "Curb_Flowline_Gutter", "Curb_Top_Front", "Curb_Top_Back", "Curb_Top_Front_Base", "Curb_Top_Back_Base", "Curb_Top_Front Subbase", "Curb_Top_Back_Subbase", "Curb_Bot_Front_Subbase", "Curb_Bot_Back Subbase", "Curb_Berm". New Shape Codes - "CurbBase", "Curb_Subbase". New Point Codes were created for each applicable point code with (_L) and (_R) suffixes. Created new Link Style "MDT Curb". Renamed Link Style "MDT Curb - Top" to "MDT 2022-Curb - Top".	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Curb & Gutter.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Electrical Detail Block (EL-ADFL2, EL-VMS, EL-RAD) Updates Need to update and add blocks to the EL-Standard Details library.	Added/updated EL-Standard Details block library. Updated: EL-ADFL2 and EL-VMS-Detail, EL-CRFB, EL-LS, and EL-LRFD New: EL-RAD and EL-Conduit_Cabinet	C:\mdoh\StateKit\Civil 3D\2024\Blocks\EL-Standard Details.dwg (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Centerline Coordinate Table Title Revisions Need to include "CENTERLINE COORDINATE TABLE" in the title of the Centerline Coordinate table and the horizontal alignment name needs to be noted in the title or under the summary frame.	Created MDT Centerline Coordinate Table.xmpp Project Explorer Preference file to prepopulate the table title. Centerline Coordinate Tables in Autodesk process documentation was updated to support this new file.	C:\mdoh\StateKit\Civil 3D\2024\Tools\Project Explorer\MDT Centerline Coordinate Table.xmpp (new)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	User Palette .atc Help Guide Path User palette help guide is linked from the "User Palette Group" "Main" palette to a path in MDT Civil 3D State Kit C:\mdoh\StateKit\Civil 3D\2022\Help folder which is not maintained for State Kit release 2024 and beyond. Files in the User folder (C:\mdoh\StateKit\Civil 3D\User) are not overwritten with State Kit updates to preserve user edits.	A script has been developed to edit the user palette help guide file path in the "C:\mdoh\StateKit\Civil 3D\User\Toolpalette\Palettes\UserMain.atc" to use a command where the path will be maintained from the State Kit bundle going forward. The MDT State Kit Updater has been updated to support this capability and similar future needs.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\Tools\ScriptRun.bat (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\Tools\UpdateUserMainAtcHelp.vbs (new) C:\mdoh\StateKit\Civil 3D\User\Toolpalette\Palettes\UserMain.atc (edited) C:\mdoh\StateKit\Civil 3D\2022\Help (deleted) C:\mdoh\StateKit\Civil 3D\2022\Help\2022StateKit-UserPalettes.pdf (deleted) C:\mdoh\StateKit\Downloads\MDTStateKit_2024\Source\FileRemoveList.txt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	MDT Ditch Block Assembly An assembly to build ditch blocks for corridor modeling is needed.	"MDT Ditch Block" assembly has been developed and placed on the "MDT Assemblies" tool palette. Refer to "MDT Civil 3D State Kit Subassembly and Assembly Guide" for further information.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\20_MDT Assemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Assembly_Ditch_Block.png (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ditch_Block.dwg (new) Other non-state kit files: 2024StateKit-Asm_Subasm.pdf (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	MDT Subassembly Design Aids Tool Palette A collection of subassembly design aids for assisting with design evaluation would be useful grouped together separately from design subassemblies.	A new "MDT Auxiliary Subassemblies" tab has been added to the "MDT Assemblies & Subassemblies" tool palette group. Included are previously deployed "MDT Connect Surface Slope Links" (with new image), new "MDT Cut Table", and new "MDT Fill Table" subassemblies. "MDT Subassemblies" palette was updated to remove "MDT Connect Surface Slope Links" per its relocation.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\30_MDT Auxiliary.atc (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Cut_TableSub.png (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Fill_TableSub.png (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Connect_Surface_Slope_Links.png (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Connect_Surface_Slope_Links_dk.png (deleted) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Cut Table.pkt C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Fill Table.pkt Other non-state kit files: 2024StateKit-Asm_Subasm.pdf (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Assembly No Display The code set styles don't allow for a no display assembly option when it's undesirable to delete an alternate assembly.	Code set style _MDT-No Display was developed with all link, point, and shape codes set with no display styles.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	GuideSIGN Version Update GuideSIGN version deployed at MDT has been updated to 2024.8.2.2.47 requiring reassessment of support paths. Duplicate support file search paths are populating for C:\Program Files\Common Files\Transoft Solutions\KTSFramework\Common\Fonts. With GuideSIGN use, frequent warnings to ignore or show proxy elements for GuideSIGN elements that aren't recognized as well as frequent Civil 3D crashing with GuideSIGN use are encountered.	SECURELOAD variable was updated from 0 to 1 in MDT_2024 profile and State Kit startup settings. All Transoft "ACAD" Support File Search Paths were removed from the MDT_2024 profile - C:\\Program Files\\Common Files\\Transoft Solutions\\KTSFramework\\Common\\Fonts All Transoft "Trusted Paths" Working Support File Search Paths were removed from the MDT_2024 profile - C:\\Program Files\\Transoft Solutions\\GuideSIGN 2024.8.2\\..., C:\\Program Files\\Common Files\\Transoft Solutions\\..., C:\\Program Files\\Transoft Solutions\\AutoTURN 11\\, C:\\Program Files\\Common Files\\Transoft Solutions\\ Startup detection added to startup settings if GuideSIGN is installed to set STARTUP variable to 0 rather than 2 with command line startup message "STARTUP set to 0 for Transoft users."	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Startup.VLX (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Resource\MDT_2024.arg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	EMG RDSUM Update Engineering Fonts are used in the Summary Frame examples.		C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_RDSUM.xlsx (Updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples*_*.pdf (Updated)	

Summary Frame Updates:

1) BARRIER_FENCING – Added a comment to the Deadman column (Show total only for Deadman based on the terrain). Added a comment to the Temp. Fence column (Show total only for Temp. Fence).
2) BARRIER_GRAIL_END_SECT_WIDENING – changed the column heading to GUARDRAIL END SECTION WIDENING to match bid item.
3) BARRIER_GUARDRAIL - Removed duplicate "High Tension Cable Rail" bid item columns. Added "Remove Cable Guardrail" bid item columns.
4) DRAINAGE_SUBSURFACE - Corrected Example link.
5) GRADE_BLASTING - Corrected Example link.
6) MISC_DRILL_PRESPLIT_HOLES – expanded the station column so it is the same as the other examples (4 rows at 22.5 height).
7) NOTES_APPROACHES – In the public subtotal row add 0.0 to the emulsified asphalt chfrs-2p column and filled in the tilde on private and farm field.
8) NOTES_WETLAND_DELINEATION – expanded the WETLAND AREA (acres) columns to the 17 width so words are not split.
9) SURF_OVERLAY - Moved AGG. TREAT. from Bituminous Materials.
10) SURF_OVERLAY_ADD_SURFACING - Moved AGG. TREAT. from Bituminous Materials.
11) SURF_OVERLAY_VOLUMETRIC - Moved AGG. TREAT. from Bituminous Materials.
12) SURF_OVERLAY_VOL_ADD_SURFACING - Moved AGG. TREAT. from Bituminous Materials. Corrected Example link.
13) SURF_OVERLAY_COMMERCIAL - Moved AGG. TREAT. from Bituminous Materials.
14) SURF_OVERLAY_COM_ADD_SURFACING - Moved AGG. TREAT. from Bituminous Materials.
15) SURF_RECON_SURFACING - Moved AGG. TREAT. from Bituminous Materials.
16) SURF_RECON_ADD_SURFACING - Moved AGG. TREAT. from Bituminous Materials.
17) SURF_RECON_SURFACING_CTB - Moved AGG. TREAT. from Bituminous Materials.
18) SURF_RECON_ADD_SURFACING_CTB - Moved AGG. TREAT. from Bituminous Materials.
19) SURF_TREAT_PAVE_MARKINGS – Turned bold off of "TEMPORARY STRIPING" row 17.
20) SURF_TREAT_RUMBLE_STRIPS - Corrected Example link.
21) SURF_CRACK_SEALING – Added the CRACK FILLING – MASTIC columns K and L and added the totals for pounds and linear feet. Added a comment about the Mastic measurement in the field.
22) STORM_DRAIN_PIPE - Corrected Example link.
23) STORM_DRAIN_STRUCTURES - Corrected Example link.

Example Updates:

1) All examples updated from Engineering to Arial fonts.
2) UTILITY_MANHOLES – Removed # in title since it is on specific rows.
3) UTILITY_ADJUST_WATER_VALVE_ BOX – Added foot marks and periods to REMARKS column.
4) SURF_TREAT_PAVE_MARKINGS – un-bold totals for temporary striping and final sweep and broom.
5) SURF_RECON_ADD_SURFACING_CTB (Example 1) - Moved AGG. TREAT. from Bituminous Materials. Added rows above total.

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
				5) SURF_RECON_ADD_SURFACING_CTB (Example 1) - Moved AGG. TREAT. from Bituminous Materials. Added rows above total.		
				6) SURF_RECON_ADD_SURFACING_CTB (Example 2) - Moved AGG. TREAT. from Bituminous Materials.		
				7) SURF_RECON_SURFACING_CTB (Example 2) - Moved AGG. TREAT. from Bituminous Materials. Updated how the bridge is shown at Station1303+08.86 to 1304+20.06.		
				8) SURF_RECON_SURFACING_CTB -Moved AGG. TREAT. from Bituminous Materials. Added total to hydrated lime.		
				9) SURF_RECON_ADD_SURFACING - Moved AGG. TREAT. from Bituminous Materials.		
				10) SURF_RECON_SURFACING - Moved AGG. TREAT. from Bituminous Materials.		
				11) SURF_OVERLAY_COM_ADD_SURFACING -Changed SEAL to EMULSIFIED ASPHALT.		
				12) SURF_OVERLAY_COM_ADD_SURFACING - Changed SEAL to EMULSIFIED ASPHALT. Moved AGG. TREAT. from Bituminous Materials.		
				13) SURF_OVERLAY_COMMERCIAL (Example 2) -Changed SEAL to EMULSIFIED ASPHALT.		
				14) SURF_OVERLAY_COMMERCIAL (Example 1) - Changed SEAL to EMULSIFIED ASPHALT. Moved AGG. TREAT. from Bituminous Materials. Updated to proper wording in remarks column.		
				15) SURF_OVERLAY_VOL_ADD_SURFACING - Changed SEAL to EMULSIFIED ASPHALT. Binder and emulsified asphalt rounded to tenth		
				16) SURF_OVERLAY_VOLUMETRIC - Changed SEAL to EMULSIFIED ASPHALT. Updated how the bridge is shown at Stations 661+94.00 to 663+04.00. Added a comment in the cell with "BRIDGE" - "If there is an ADD. SURF frame, this row should be there instead". Added rows above total. Binder and emulsified asphalt rounded totals to tenth.		
				17) SURF_OVERLAY_ADD_SURFACING (Example 3 – Scrub Seal) - Changed SEAL to EMULSIFIED ASPHALT. Updated scrub seal emulsion total and added tilde to shoulder gravel on row 21.		
				18) SURF_OVERLAY_ADD_SURFACING (Example 2) – Changed SEAL to EMULSIFIED ASPHALT.		
				19) SURF_OVERLAY (Example 3 -Scrub Seal) –Changed SEAL to EMULSIFIED ASPHALT. Updated to proper wording in remarks column.		
				20) SURF_OVERLAY (Example 2 – Hot In-Place Recycling) –updated how the bridge stationing is shown between 701+81.00 and 855+52.10. Changed "SEAL" to "EMULSIFIED ASPHLT". Moved AGG. TREAT. from Bituminous Materials. Updated to proper wording in remarks column		
				21) SURF_CRACK_SEALING – Added the CRACK FILLING – MASTIC columns and added the totals for pounds and linear feet. Added a comment about the Mastic measurement in the field.		
				22) STRUCTURE_RETAINING_WALL (Example 3) –Changed "#" in REMARKS to "NO.".		
				23) STRUCTURE_RETAINING_WALL (Example 2) – Changed "#" in REMARKS to "NO."		
				24) STRUCTURE_REMOVE – in the Remarks column add the words ", MDT NO." to REMARKS.		
				25) NOTES_APPROACHES and NOTES_APPROACHES_COMMERCIAL (Example 3) – New example for Grade S PMS.		
				26) NOTES_APPROACHES (Example 3) – Remove "MEASURED ON CAD" note.		
				27) NOTES_APPROACHES (Example 2) – Changed PROPOSED SURFACE text R/W to LENGTH		
				28) NOTES_APPROACHES (Example 1)– Changed heading from SEAL to EMULSIFIED ASPHALT. Changed heading from C.L. TO R/W to LENGTH.		
				29) MISC_SCALING - unsquished station and remarks rows		
				30) MISC_ITEMS (Example 2) - changed the lump sum and note symbol & to *		
				31) MISC_DRILL_PRESPLIT_HOLES – unsquished station and remarks rows		
				32) MISC_CRAK_SEAT – added 3 rows above total		
				33) GRADE_UNCL_ADDGRADING – Removed the percentage on the topsoil – topsoil quantity should be divided throughout the frame.		
				34) GRADE_SPECIAL_BORROW – added 3 rows before total.		

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
				35) GRADE_EMB_ADDGRADING – added the 3 lines before subtotal.		
				36) GRADE_BLASTING – added column for Drill Presplit holes.		
				37) EROSION_REVEGETATION – added column EROSION CONTROL BLANKET - LONG-TERM		
				38) EROSION_PERMANENT_EROSION_CONTR (Example 2) - added a period to some in the Remarks column		
				39) EROSION_GEOTEXTILE – formatted linear feet column.		
				40) DRAINAGE_SUBSURFACE - Changed frame name to TRENCH DRAIN.		
				41) DRAINAGE_IRRIGATION_STRUCTURES (Example 1) – removed the * in #4 rebar column.		
				42) DRAINAGE_CULVERT_RECAP – Changed "drainage pipe" to "DR".		
				43) DRAINAGE_CULVERT_RECAP – added 2nd Example.		
				44) DRAINAGE_CULVERTS_OPT (Example 3) - moved numbers in columns to the right. Cu yards and sq yards. Corrected title note displaying numbers and symbols to read "(INCLUDED IN CULVERT SUMMARY RECAP)".		
				45) DRAINAGE_CULVERTS_OPT (Example 2) - updated the remarks column from "Mainline" to "Drain or Irrigation or Remove". Corrected title note displaying numbers and symbols to read "(INCLUDED IN CULVERT SUMMARY RECAP)".		
				46) DRAINAGE_CULVERTS_OPT (Example 1) - corrected title note displaying numbers and symbols to read "(INCLUDED IN CULVERT SUMMARY RECAP)".		
				47) DRAINAGE_APPROACH_PIPE - Corrected title note displaying numbers and symbols to read "(INCLUDED IN CULVERT SUMMARY RECAP)".		
				48) CONC_CURB(1) – moved the # to the end of Remove Curb and Gutter to match others.		
				49) BARRIER_CONC (Example 2) - Added rows above total.		
				50) BARRIER_GRAIL_END_SECT_WIDENING – Changed pay item from SECTION WIDENING to GUARDRAIL END SECTION WIDENING.		
				51) BARRIER_FENCING (Example 6 – Farm Fence, Wildlife Friendly Fence & Fence-Panel Special Design) - Deleted		
				52) BARRIER_FENCING (Example 5 – Fence Panel – Special Design) – Added the subtotal for Eastbound and Westbound.		
				53) BARRIER_FENCING (Example 4 – Fence Panel – Special Design) - Updated the totals in the linear feet of fence and added Deadman total.		
				54) BARRIER_FENCING (Example 3 – 8' Wildlife Fence & Panels) - Changed the number of Deadman to 34 instead of 110.		
				55) BARRIER_FENCING (Example 2 – Chain Link Fence) – Removed the "1" in the Deadman column and left the total at 8. Added the word "REMARKS" to the last column. Removed the * in the heading.		
				56) BARRIER_FENCING (Example 1 – Wildlife Friendly Fence and Jack Leg Fence) – Removed the numbers in the temporary fence column and left just the total.		

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	MDT Arial Italic Text Style is Set to Regular Font Style Running the "Refresh All MDT Components" or the "Add Textstyles" tools from the MDT Ribbon incorrectly changes the MDT Arial Italic text font style from Italic to Regular font style.	Edited the MDTADDTSTYLES section in the MDT2024-ToolsUtilities.lsp file to include the Arial Italic font style so it will load the Arial Italic font when the "Refresh All MDT Components" or the "Add Textstyles" tools are run from the MDT Ribbon.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-ViewFrame-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Surface-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-SampSectMass-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-QTO-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-PointSurvParc-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-ObjectLayers-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-AlnProfSuper-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Drainage-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Modeling-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTHY_Summary.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTPH_survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRD_Summary.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRW_Ownership.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SignDesignCalcs.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SpecSum.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\X-MDT-Build-SpeedSheet.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Enlarged Assembly Points Numerous point symbols display as large magenta circles when placing subassemblies.	Marker style "MDT-Basic Circle" was created with size option "Use size in absolute units, 0.1 feet" and applied in place of _MDT-Default within "MDT-Corridor-Design" code set style.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	Block for ADA Labels Based on Unrounded Values ADA labels are based on unrounded values so a note is needed.	Added note, "SLOPE PERCENTAGES ARE AUTOMATED AND BASED ON UNROUNDED VALUES. THEREFORE, THEY MAY NOT CORRESPOND TO THE DISPLAYED ELEVATIONS." to D-SheetBlocksADA block on the RD-Detail-ADA layout.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Road-Layouts.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	R/W Railroad Exhibit Legend Error The r/w railroad exhibit legend should have the easement shaded, license cross hatched, and construction permit hatched.	Edit the r/w railroad exhibit legend to display shade for the easement, cross hatch for the license, and hatch for the construction permit.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_RightOfWay-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Sheet-Ref.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	R/W DNRC Title Sheet - Engineer Stamp Need a DNRC title sheet with the engineer's stamp.	Created a layout for the DNRC title sheet and added the engineer stamp. The RW-Exhibit-Title is not used, renamed RW-Exhibit-Title to RW-Exhibit-USFS-Title and added the USFS signature block to the title sheet.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_RightOfWay-Layouts.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Linetype Symbol Size Linetype symbols for linear features are larger than plan sheet note text.	Reduced the linetype text to approximately half the current size. Increased the frequency of the text along the line since the text is smaller, less distance between the text. Deleted the MDT_RR linetype from the linetypes.dwg and MDT_Linetypes.lin. The MDT_RR linetype is a converted dgn linetype in the DGNlinetypes.dwt file.	C:\mdoh\StateKit\Civil 3D\2024\Linetypes\linetypes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Linetypes\MDT_Linetypes.lin (updated) C:\mdoh\StateKit\Civil 3D\2024\Linetypes\DGNlinetypes.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	North Arrow on Layouts Need a dynamic north arrow with view port link.	Creating sheets already had the capability to use a north arrow block in sheet templates. Replaced the north arrow on all the plan sheet templates with MDT P-NorthArrow-TRS block.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pln-Pln-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pln-Pro-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pln-layouts.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Section View Command Settings Cross section workflow default settings are desired.	Unified Section View feature settings and command settings.	C:\MDOH\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt	
2024.4	State Kit (v2.2.0)	07/18/25	MDT SSWR Pipe Styles to Existing "MDT SSWR - Pipe Crossing Pipe" and "MDT SSWR - Singe Line" pipe styles aren't named following naming convention for existing pipe styles.	"MDT SSWR - Pipe Crossing Pipe" and "MDT SSWR - Singe Line" pipe styles were renamed to "MDT SSWR E - Pipe Crossing Pipe" and "MDT SSWR E - Singe Line", respectively.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Drainage-Ref.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	MDT Assembly Daylight Hinge Point Attachment "MDT Rural 2 Lane" and "MDT Widening" assemblies have "MDT Daylight with Subbase" subassembly attachment points connected to the Edge_Subbase point rather than the Hinge point causing incorrect behavior when inslope extension values are used or in super elevation situations.	"MDT CRDR-Hinge" marker style (displayed as a white circle with white cross) was updated to display 3 times larger than other points to aid in proper selection when attaching "MDT Daylight with Subbase". "MDT Rural 2 Lane" and "MDT Widening" assemblies were updated for proper "MDT Daylight with Subbase" subassembly attachment.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg	
2024.4	State Kit (v2.2.0)	07/18/25	MDT Cut Table and MDT Fill Table Subassemblies A subassembly is needed for use as a tool to improve corridor grading efficiency.	Developed subassemblies "MDT Cut Table" and "MDT Fill Table" with cut and fill tables that can be placed on any assembly to aid designers in grading corridors. Code set styles were updated to include additional link codes: "Table_Cut_1", "Table_Cut_2", "Table_Cut_3", "Table_Cut_4", "Table_Fill_1", "Table_Fill_2", "Table_Fill_3", "Table_Fill_4", "Table_Cut_Daylight", "Table_LabelSlope". Cut and Fill tables can be displayed with "_MDT-Subassembly All Codes" and "MDT Corridor - Design" code set styles. Subassemblies are accessed from the MDT Auxiliary Subassemblies palette.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Cut Table.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Fill Table.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\30_MDT Auxiliary.atc (new) Other non-state kit files: 2024StateKit-Asm_Subasm.pdf (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	MDT Subassembly Tool Palette Commands "MDT Subassemblies" tool palette includes subassembly PKT file parameters that need to be updated with PKT updates.	"MDT Subassemblies" tool palette subassemblies were updated to use a command string to import the subassemblies into the drawing rather than having them imported on the tool palette. Commands for "CreateSubAssemblyTool" and "CreateSubFromPline" were updated to include "Macro Short Name" for the "Create From Macro" and "Create From Entities" "Subassembly Name Templates" values. The process of placing the subassemblies from the palette is identical.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Typical Cut and Fill Block Variable Note Typical end condition blocks "VARIABLE" note don't include asterisk referencing note "*SEE CROSS SECTIONS FOR DEVIATIONS". T-EndCondition-LT-CutDitch and T-EndCondition-RT-CutDitch blocks don't include "VARIABLE" note.	"T-EndCondition-LT-CutDitch" and "T-EndCondition-RT-CutDitch" blocks were updated to include "* VARIABLE" note. "T-EndCondition-LT-CutVDitch", "T-EndCondition-RT-CutVDitch", "T-EndCondition-LT-Cut", "T-EndCondition-RT-Cut", "T-EndCondition-LT-Fill", and "T-EndCondition-RT-Fill" blocks were updated to include an asterisk to display note as "* VARIABLE". Additional edits to adjust slope and "* VARIABLE" note label rotation to align with and space consistently above/below slope lines.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Typicals.dwg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.2.0)	07/18/25	GRND Points Display White GRND miscellaneous ground points display white resembling miscoded points making it hard to quickly identify miscellaneous ground points from miscoded points.	V-GRND-MISC-NODE-E and V-GRND-MISC-SYMB-E layer colors were updated from white to green (70).	C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	DGN Linetype Plotting DGN linetypes are printing as a continuous line (MDT_CANTILEVER, MDT_CATG_E, MDT_CULV_E, MDT_GUY, MDT_GATE, MDT_JERSEY_E, MDT_RR, MDT_SIGN-MULTI, MDT_SIGN-SINGLE, and MDT_TREEROW).	DGNLinetypes template reference file detached from design-start.dwt and survey-start.dwt. The DGNlinetypes will not be recoverable if purged using the MDT Tools ribbon > Component Tools > Add Linetypes or Refresh All MDT Components ribbon buttons nor by importing the MDT_linetypes.lin. They may be recovered by reattaching C:\mdoh\StateKit\Civil 3D\2024\Linetypes\DGNLinetypes.dwt as a template reference then detaching it again.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Signing Speed Sheet and Excel SISUM - Standards Updates The Sign Design Calculations and Specification and Summary templates require updating to clarify standards and support procedures.	MDTSI_SignDesignCalcs.dwt was updated to correct the viewport layer in the sheet 1 layout. MDTSI_SpecSum.dwt template notes and abbreviations updated as well as corresponding changes in the #####000SISUM001.xlsm. Alternate S1 template removed from model space.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SpecSum.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SignDesignCalcs.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\#####000SISUM001.xlsm (updated)	
2024.4	State Kit (v2.2.0)	07/18/25	Block RD-Typicals References itself When placing the RD-Typicals block library from the blocks palette, warning "Block RD-Typicals references itself" is displayed in the command prompt.	RD-Typicals library block RD-Typicals was renamed to "RD-Typical".	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Typicals.dwg (updated)	
2024.4	State Kit Updater (2024.1.0.5)	07/18/25	Running Scripts with State Kit Updates The State Kit Updater allows for running scripts with state kit installations and requires a State Kit Updater update.	The State Kit Updater was updated to read an MDT Civil 3D State Kit delivered file at C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\Tools\ScriptRun.bat allowing for scripts to be managed with MDT Civil 3D State Kit updates.	MDT StateKit Updater V2024.1.0.5.msi (updated) Installed Files Updated: C:\Program Files\MDT\MDT StateKit Updater\MDT StateKit Updater.exe State Kit Files Updated: C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\Tools\ScriptRun.bat (new)	
2024.4	State Kit (v2.1.1)	04/22/25	SISUM Excel Sign and Image Update 1 sign name and image for spreadsheet needed to be updated.	Changed name and image in spreadsheet.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\#####000SISUM001.xlsm (updated)	
2024.4	State Kit (v2.1.1)	04/22/25	Signing Spec/Sum Note Incorrect note about quantities on summary page of speed sheet template.	Corrected note in drawing template.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SpecSum.dwt (updated)	
2024.4	State Kit (v2.1.1)	03/21/25	SISUM Excel Update Too many notes are going into the remarks column when using the Excel SISUM files.	An action column was added to the spreadsheet.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\#####000SISUM001.xlsm (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.1)	03/21/25	QMG/EMG with Bentley Uninstall The Quantity Manager used within the Bentley Workspace and the Excel Manager used within the State Kit encounter a Microsoft Visual Basic for Applications Compile error "Can't find project or library" when running the Quantity Manager/MDT Excel Manager without MicroStation installed.	The MDT Excel Manager was updated to disconnect Bentley MicroStation DGN 8.9 Object Library from the references for the VBA project. This will need to be repeated for all EMG MDT 2024: v01.00.00 files created prior to this update. All QMG MDT 2020: v02.10.00 and earlier files will need to be updated to use the latest template - https://www.mdt.mt.gov/other/webdata/external/esdc/library/Support-UpdateEMBaseFile.pdf.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\00000000XXEMG001.xlsm (updated)	
2024.4	State Kit (v2.1.1)	03/21/25	Edit command in Lisp file to point to Notepad MDTLICENSE lisp command displays black text on a black background, can't read it. This is dependent on Windows default app mode color settings. Displays text corectly when the default app mode is set to "dark". The "Copyright 2021-2024 by MONTANA DEPARTMENT OF TRANSPORTATION" in the MDT_CADD_EULA.txt file needs updated to 2025.	Changed command in Lisp file to point to Notepad instead of the Autodesk window. Updated the copyright date in the MDT_CADD_EULA.txt file to 2025.	C:\mdoh\Bundle-Source_2024\MDT2024-ToolsUtilities.lsp (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT_CADD_EULA.txt (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated)	
2024.4	State Kit (v2.1.1)	03/21/25	Dynamic Section View - Code Set Styles Display circles are showing in the section view of the Section Editor.	Changed the feature line style "MDT-No Display" section crossing marker style to "MDT-No Markers"	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\survey-group.dwt (updated)	
2024.4	State Kit (v2.1.1)	03/21/25	Update Highways Engineer Stamp for Dave Holien The Highways Engineer stamp and PE number needs to be updated for Dave Holien, the new Highways Engineer.	Updated the C-MDT_SEAL_BLOCK block and layout files.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Sheet-Ref.dwt - C-MDT_SEAL_BLOCK (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Electrical-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Signing-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Utilities-Layouts.dwt (updated)	
2024.4	State Kit (v2.1.1)	03/21/25	Link MDT Support Button to New Page MDT Support button on ribbon needs to be linked up to new support request page.	Changed the path to the internal/external link. https://montana.servicenowservices.com/citizen?id=sc_cat_item&sys_id=13ac75551bc1091049e0ed3ce54bcb3d	C:\mdoh\Bundle-Source_2024\MDT2024-ToolsUtilities.lsp (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated)	
2024.4	State Kit (v2.1.1)	03/21/25	MDTLICENSE Lisp File MDTLICENSE lisp command displays black text on a black background, can't read it. This is dependent on Windows default app mode color settings. Displays text if default app mode is set to "dark".	Changed command in Lisp file to point to Notepad instead of the Autodesk window. The "Copyright 2021-2024 by MONTANA DEPARTMENT OF TRANSPORTATION" in the MDT_CADD_EULA.txt file needs updated to 2025.	C:\mdoh\Bundle-Source_2024\MDT2024-ToolsUtilities.lsp (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT_CADD_EULA.txt (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Survey Block Annotation Priority: MEDIUM Survey blocks aren't annotative, and some vary in size when processed from csv.	Renamed blocks to group the blocks, V_*, VL_*. Revised survey blocks to annotative and edited the blocks to correct size and scale. Adjusted point styles "Use drawing scale" value to scale points to the correct size.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-PointSurvParc-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\10_MDT-PointBlocks.dwg (new-updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	Point Blocks as Components Priority: HIGH, Complexity: MODERATE Point blocks need to be split as separate components so they may be inserted into drawings without reference attachment.	Created new 10_MDT-PointBlocks.dwg file and inserted the point blocks from _MDT-PointSurvParc-Ref.dwt file. Deleted the point blocks in _MDT-PointSurvParc-Ref.dwt file. Attached the 10_MDT-PointBlock.dwg as a Reference Template to the _MDT-PointSurvParc-Ref.dwt file.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\10_MDT-PointBlocks.dwg (new) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ _MDT-PointSurvParc-Ref.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Survey database enhancements Priority: HIGH, Complexity: MODERATE Enhancements to the survey database such as survey queries, point description keys, and figure prefix databases are requested to create efficiencies in road design workflows, namely the cross sections process.	Added Description Key Sets and Survey Figure Styles to MDT-PointSurvParc-Ref.dwt file. Survey queries were created to specific figures and points for projections on cross sections Users will use the MDT Figure Prefix Database when importing survey data for cross sections and will need to add the survey query files in the survey database from the Tools folder. Before importing queries, the user will need to set the default Description Key Sets to MDT V-description Keys_XS in the cross sections. To set the default, right click on Point > Description Key Sets> and select Properties. The default description key needs to be at the top of the list.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ _MDT-PointSurvParc-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Survey\MDT Figure Prefix Database.fdb_xdef (updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-BarrierFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-DrainageFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-DTMFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-MiscFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-NaturalFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-RoadFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-StructureFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-SurveyFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-UtilityFeatures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-XSFigures.qml (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\Survey Queries\MDT-XSPoints.qml (new)	
2024.4	State Kit (v2.1.0)	01/31/25	MDT Survey-(Control Abstract) point table style update Priority: LOW, Complexity: SIMPLE Header in the control abstract table for the Point Name/Number column needs to have the backslash changed to a forward slash to read correctly.	Changed the slash in the heading for Point Name/Number column to be a forward slash instead of a backslash.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-PointSurvParc-Ref.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Survey Description Key Maintenance Button Priority: MEDIUM Description keys are not a feature that can be referenced through templates. Updates of description keys in existing files would require a series of manual steps and accessing unfamiliar state kit files.	Added tools on the MDT Ribbon to add Description Key Sets to existing drawings. The tools are on the MDT Tools tab under MDT Components. Additionally, edited MDT Components menu behavior to have a static image to access tools via the pulldown only.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\en-US\MDTDKS.csv (deleted) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\20_MDT-DKSSU.dwg (new) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\21_MDT-DKSXS.dwg (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\MDT-Ribbon.cuix (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\en-US\MDT V-Description Keys_SU.csv (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\en-US\MDT V-Description Keys_XS.csv (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\images\Tool_Box16.png (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\images\Tool_Box32.png (new)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	Earthwork Block, Layer, and Styles Priority: HIGH Layer, block, styles, and settings are needed in the State Kit for creating material lists, producing volume reports, adding earthwork values to cross sections, and plotting mass haul diagrams.	Added layer (C-MASS-VIEW), block (XSC_Mass_Haul_Layout_Aid), styles (MDT-Quantity Takeoff, MDT-Mass Haul Line, MDT-Mass Haul View), and style sheet (_MDT_Earthwork.xsl) for creating material lists, producing volume reports, adding earthwork values to cross sections, and plotting mass haul diagrams.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-XS.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-SampSectMass-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\ProgramData\Autodesk\C3D 2024\enu\Data\Quantities Report Style Sheets\xsl_MDT_Earthwork.xsl (new) C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT-LayerFilters.lft (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-QTO-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-ObjectLayers-Ref.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Plan Sheet Plot Date Priority: LOW Plan sheets have a date and time in the bottom right corner. Upon plotting, the date doesn't update. The field is set to "Save Date".☐	The border block was updated to use the "Plot Date" field rather than the "Save Date" field.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ _MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Electrical-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Geometrics-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Hydraulics-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _RightOfWay-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Signing-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Standard-Detail-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Survey-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Utilities-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pln-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pln-Pln-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pln-Pro-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Pro-Pro-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\XS-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\X-MDT-Build-SpeedSheet.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTHY_Summary.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRD_Summary.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRW_Ownership.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SignDesignCalcs.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SpecSum.dwt (new)	
2024.4	State Kit (v2.1.0)	01/31/25	R/W Layer filter State Kit Request Priority: LOW, Complexity: SIMPLE R/W needs layer filters to aid with sorting layers.	R/W needs layer filters to aid with sorting layers.	C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT-LayerFilters.lft (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	R/W Title Sheet Federal Aid Project No. Priority: MEDIUM, Complexity: SIMPLE The R/W title sheet project information title block doesn't include "Federal Aid Project" or "State Aid Project" text when applying sheet set manager custom properties.	The C-ProjectHeading block was updated to include visibility states for FEDERAL AID PROJECT and STATE AID PROJECT funding and added the text funding note ahead of the 01_FED_AID_NO field.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ _MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _RightOfWay-Layouts.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	Utility Title Sheet Federal Aid Project No. Priority: MEDIUM, Complexity: SIMPLE The Utility title sheet project information title block doesn't include "Federal Aid Project" or "State Aid Project" text when applying sheet set manager custom properties.	The C-ProjectHeading block was updated to include visibility states for FEDERAL AID PROJECT and STATE AID PROJECT funding and added the text ahead of the 01_FED_AID_NO field.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ _MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _RightOfWay-Layouts.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Speed Sheet Template Priority: MEDIUM Speed sheets will be developed and will need similar layout for summary frame view frames.	A template known as a speed sheet is introduced for creating functional area speed sheets. Additionally, layer adjustments to use MDT Civil 3D State Kit layers and remove stray objects was completed for MDTSI_SpecSum.dwt and MDTSI_SignDesignCalcs.dwt along with Notes and Abbreviations being placed in MDTSI_SpecSum.dwt.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\X-MDT-Build-SpeedSheet.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SpecSum.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SignDesignCalcs.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Plan Set Development Expediency-Road Design Summary Priority: MEDIUM Preparing summary sheet files with quantity frames in the layout requires extra steps to set text size for OLE objects as well as limits use by potential downstream processes. Quantity frames in the model requires repetitive work setting up viewports without any automation.	A template known as a speed sheet is introduced for creating Road Design summary files.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRD_Summary.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Road-Layouts.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Plan Set Development Expediency-R/W Ownership Priority: MEDIUM Preparing ownership sheet files with ownership frame in the layout limits use by downstream processes. Ownership frames in the model supported by the MDT Excel Manager tool requires repetitive work setting up viewports without any automation.	A template known as a speed sheet is introduced for creating Right of Way Ownership files. This replaces the RW-Ownership layout formerly inserted into drawing file with the MDT Sheet Layouts tool.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRW_Ownership.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _RightOfWay-Layouts.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	MDT Slope to Surface Link viewing not adjusting correctly with slope parameter change Priority: MEDIUM On MDT Slope to Surface Link the parameters are not visually adjusting to be represented on the subassembly to the correct slopes in the parameter. When using in a model the slopes are correct to the parameters, but the visual does not change on the subassembly from 2:1 slope.	Adjusted the MDTSlopetoSurfaceLink display to the same value as in the cut and fill slope parameters on the subassembly settings.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink_1-2.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	MDTSlopeToSurface Link Subassembly Parameter Intercept Ref Priority: MEDIUM N/A	Added a parameter reference in the assembly properties to link for number of intersects when targeting a surface. Parameter reference version was updated to 1.1. Updated version of MDT SlopeToSurfaceLink to 1.3. All code set styles for all the assemblies were updated.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Parameter Reference.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT Parameter Reference_1-0.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink_1-2.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\20_MDT Assemblies.atc (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Spiral Curve Delta Labeling Priority: HIGH MDT ALGN-Design Spiral Curve label style is using the "Spiral_PI Included Angle" for the Text.2 component rather than the "Delta Angle" property resulting in a delta value being 180^ exaggerated. The LT and RT curve labels appear to be out of alignment with the curve delta data text line.	Changed the text line 2 parameter in MDT ALGN-Design Spiral Curve, MDT ALGN-Existing Spiral Curve, and MDT ALGN-Site Spiral Curve spiral curve alignment labels to read the "Delta Angle" and read correctly when labeling a spiral curve. Adjusted component 5 and 6 for all 3 MDT-ALGN spiral curve labels to have a y offset of -.02" to align labels.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-AlnProfSuper-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Update A.A.D.T. on C-ProjectDesignData block Priority: LOW, Complexity: SIMPLE Design data block should show A.A.D.T. instead of A.D.T.	Changed A.D.T. to A.A.D.T. to reflect traffic counts provided by Traffic Safety.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Electrical-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Signing-Layouts.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Block Layers and Fonts: RD-Notes Priority: LOW, Complexity: SIMPLE Text is not on correct State Kit layers GS-TEXT and GS-TITL, but all text is using Arial font.	Adjusted notes blocks layers to be on the correct layers. Titles on GS-TITL and body of notes on GS-TEXT	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Notes.dwg (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Block Layers and Fonts: RD-Typicals Priority: LOW, Complexity: SIMPLE Block layers don't follow layer naming convention or use Arial font.	MDT Arial Italic text style was updated to be correct and have "Italic" for the font style. Created a new file and inserted the RD-Typicals.dwg, then was able to delete the Legend text style.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Typicals.dwg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	Change Drawing Unit Angle Type to Surveyor's Units (bearings) Priority: MEDIUM Drawing Units Angle Type default is set to Decimal Degrees. The Surveyor Units (bearings) setting is more applicable for design.	Changed the Drawing Units Angle Type to Surveyor's Units with the precision set to N 0d00'00" E.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\x-mdt-build.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\assembly-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTHY_Summary.dwt (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRD_Summary.dwt (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRW_Ownership.dwt (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SignDesignCalcs.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTSI_SpecSum.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\X-MDT-Build-SpeedSheet.dwt (new-updated)	
2024.4	State Kit (v2.1.0)	01/31/25	VMS Detail in EL Standards Priority: MEDIUM VMS Detail block needs to be updated.	Updated the EL-VMS-Detail block in the EL-Standard Details.dwg file.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\EL-Standard Details.dwg (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Electrical Blocks (Beacon, Luminaire, Weigh Station Detail) Priority: MEDIUM, Complexity: SIMPLE New beacon, luminaire, and weigh station standard detail blocks needed for electrical design.	Added/updated EL-Detail and EL-Plan block libraries. EL-Detail: EL-CRFB (Circular Rapid Flashing Beacon), EL-RRFB (Rectangular Rapid Flashing Beacon), EL-LS (Luminaire Standards), EL-Foundation, EL-Decorative-LS, EL-WS EL-Plan: MDT RRFB_Symbol (Rectangular Rapid Flashing Beacon Symbol)	C:\mdoh\StateKit\Civil 3D\2024\Blocks\EL-Plan.dwg C:\mdoh\StateKit\Civil 3D\2024\Blocks\EL-Standard Details.dwg	
2024.4	State Kit (v2.1.0)	01/31/25	Excel Manager Automation Priority: HIGH, Complexity: MODERATE The Excel Manager supported with the Bentley toolset will need "Place" functionality to work in Civil 3D and comment indicators are displaying in Civil 3D despite being turned off during placement.	The Excel Manager tool has been enhanced to support multiple libraries, Civil 3D placement, and suppression of comment indicator activation upon workbook open/close events.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\00000000XXEMG001.xlsm (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_HYHDS-HYIDS.xlsx (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_RDSUM.xlsx (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_RWOWN.xlsx (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples*.pdf (new)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	RDSUM/RDQMG Updates-Seeding, Asphalt Cement, Guardrail Priority: MEDIUM, Complexity: SIMPLE Road Design management requested updates to summary frames and examples.	Seeding frame: update note on row 2: to read: "# FOR INFORMATION ONLY - INCLUDED IN THE COST OF SEEDING AREA NO.1 & SEEDING AREA NO. 3." Also changing the # to be in the bid item cell M6 and place tilde in total cell M30. Update comment in M30 to not include sod. Asphalt cement name changed to asphalt binder in all surfacing frames. Update examples to 58H-34. Update guardrail comment cell K6 regarding box beam guardrail length callout stations as well as needing 18' section attached to any terminal	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\GRADE_TOPSOIL_SEEDING (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_OVERLAY (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_OVERLAY_ADD_SURFACING (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_OVERLAY_COM_ADD_SURFACING (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_OVERLAY_COMMERCIAL (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_OVERLAY_VOL_ADD_SURFACING (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_OVERLAY_VOLUMETRIC (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_RECON_ADD_SURFACING (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_RECON_ADD_SURFACING_CTB (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_RECON_SURFACING (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\SURF_RECON_SURFACING_CTB (new-updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Excel Manager Initiation Priority: MEDIUM, Complexity: MODERATE The Excel Manager and Excel SISUM Template are inconvenient to open from the file path in File Explorer.	"MDT Excel" panel with "MDT Excel Tools" selections "MDT Excel Manager" and "Excel SISUM Template" were added to the MDT Tools ribbon.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\00000000XXEMG001.xlsm (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\MDT-Ribbon.cuix (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\images\MDT_ExcelTools16.png (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\images\MDT_ExcelTools32.png (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager####000SISUM001.xlsx (deleted) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager####000SISUM001.xlsm (new)	
2024.4	State Kit (v2.1.0)	01/31/25	Generic Pole Survey Block Priority: HIGH, Complexity: SIMPLE A generic pole block is needed for photogrammetry surveys.	Created block GP (Generic Pole) for photogrammetry survey use. For DI surveys, miscellaneous non-dtm point (MISCP) feature code will be used with resulting MND symbol. Generic Pole XS block created for cross sections.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-PointSurvParc-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\10_MDT-PointBlocks.dwg (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\20_MDT-DKSSU.dwg (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\21_MDT-DKSXS.dwg (new-updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Erosion Control Construction Limit Legend Priority: MEDIUM The construction limits legend is missing from the Erosion and Sediment Control BMP's sheet.☐	The construction limits legend was added to the lower right corner of the Erosion and Sediment Control BMP's notes sheet.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Notes.dwg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	Change "Asphalt Cement" to "Asphalt Binder" in Road Plans Priority: MEDIUM, Complexity: SIMPLE "Asphalt Cement" is being changed to "Asphalt Binder" in the road plans.	Changed "Asphalt Cement" to "Asphalt Binder" in the Basis of Plan Quantities, Approaches Notes, Mailboxes and Mailbox Turnout note, and Typical Section Quantities.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Notes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Typicals.dwg (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Color and Grayscale CTB Files Priority: MEDIUM, Complexity: SIMPLE MDT - Grayscale.ctb, MDT - Color.ctb, and MDT - AllColor.ctb are carried over from the 2021 pre-release state kit. These CTB (plot style table) files have no identified function.	Deleted MDT - Grayscale.ctb, MDT - Color.ctb, and MDT - AllColor.ctb plot styles. MDT - Standards.ctb honors layer colors assigned with a True Color value to support color plotting needs. MDT - Standards.ctb also allows for any colors applied to layers ending with a 1, 3, or 5 to be plotted in varying greyscale tones.	C:\mdoh\StateKit\Civil 3D\2024\Plotting\Plot Styles\MDT - AllColor.ctb (deleted) C:\mdoh\StateKit\Civil 3D\2024\Plotting\Plot Styles\MDT - Color.ctb (deleted) C:\mdoh\StateKit\Civil 3D\2024\Plotting\Plot Styles\MDT - Grayscale.ctb (deleted)	
2024.4	State Kit (v2.1.0)	01/31/25	Excel Tools-Road Design QMG Priority: HIGH, Complexity: MODERATE Excel is used for summary sheet data to be inserted into drawing files. Need a location and delivery method for template(s) within or separate from the State Kit.	A FramesLibrary_RDSUM.xlsx file was created containing summary frame template for use with the refurbished Excel Manager tool enhanced to support multiple libraries and Civil 3D placement. The delivery point will be solely within the MDT Civil 3D State Kit. The Excel Manager tool and supporting files for Bentley will continue to be accessed from the Bentley workspace. All other access points via the internet/intranet are removed.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_RDSUM.xlsx (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\00000000XXEMG001.xlsm (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples*.pdf (new)	
2024.4	State Kit (v2.1.0)	01/31/25	Block Layers and Fonts: HY-Details [Hydraulic Detail Block Layer Use] Priority: LOW, Complexity: MODERATE Block layers don't follow layer naming convention or use Arial font.	Hydraulic detail block content updated to use new X-DETL layers, state kit dimension styles, text styles, and new MDT STD-Detail table style. Hydraulic Data Summary Sheet block (H-HDSE) was removed. The HDS now has its own layout and uses an OLE link and an Excel spreadsheet. New layers: X-DETL-DIMS X-DETL-LINE-BOLD X-DETL-LINE-FINE X-DETL-LINE-MEDM X-DETL-NPLT X-DETL-PATT-SCRN X-DETL-TEXT	C:\mdoh\StateKit\Civil 3D\2022\Blocks\HY-Details.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2024\Annotation\Tables.dwg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.1.0)	01/31/25	HY Sheet Layouts Updates: Excel Table Point Priority: MEDIUM, Complexity: MODERATE The hydraulic and irrigation summary frame as copied from Excel needs to be placed at a consistent location in Civil 3D summary sheet. Preparing hydraulic and irrigation summary sheet files with quantity frames in the layout requires extra steps to set text size for OLE objects as well as limits use by potential downstream processes. Quantity frames in the model requires repetitive work setting up viewports without any automation.	A template known as a speed sheet is introduced for creating hydraulic and irrigation summary files. The speed sheet template includes a line with an end point on no plot layer "X-MISC-NPLT" to move pasted hydraulic summary frame OLE objects to.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTHY_Summary.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ _Hydraulics-Layouts.dwt (updated)	
2024.4	State Kit (v2.1.0)	01/31/25	Excel Tools-R/W Ownership Priority: HIGH, Complexity: MODERATE Excel is used for ownership table data to be inserted into drawing files. Need a location and delivery method for template(s) within or separate from the State Kit.	A FramesLibrary_RWOWN.xlsx file was created containing ownership table template for use with the refurbished Excel Manager tool enhanced to support multiple libraries and Civil 3D placement.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_RWOWN.xlsx (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\00000000XXEMG001.xlsm (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\Ownership.pdf (new)	
2024.4	State Kit (v2.1.0)	01/31/25	Excel Tools-HY Summary Enhancements Priority: MEDIUM, Complexity: MODERATE Excel is used for hydraulic and irrigation summary data to be inserted into drawing files. To insert the linked OLE objects, manual selection, copying from Excel, and pasting the OLE object into Civil 3D is required.	A FramesLibrary_HYSUM.xlsx file was created containing summary frame template for use with the refurbished Excel Manager tool enhanced to support multiple libraries and Civil 3D placement.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Hydraulics\HydraulicDataSummary_IrrigationDataSummary.xlsx (Deleted) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Libraries\FramesLibrary_HYHDS-HYIDS.xlsx (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\HydraulicDataSummary.pdf (new) C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\Examples\IrrigationDataSummary.pdf (new)	
2024.4	State Kit (v2.1.0)	01/31/25	MSOLESCALE System Variable Priority: MEDIUM, Complexity: SIMPLE MSOLESCALE system variable is set to 1 making OLE insertions in the model oversized for 1:1 scale view frames.	The MSOLESCALE system variable is stored within the drawing file. The MSOLESCALE value was set in each speed sheet template developed to accommodate each MDT Excel template: MDTHY_Summary.dwt - 0.5, MDTRD_Summary.dwt - 0.5, MDTRW_Ownership.dwt - 1.0, MDTSI_SpecSum.dwt - 0.5. Editing the MSOLESCALE value has only an effect on the OLE object being placed so may require edits for placing extraordinarily large OLE objects to fit within the sheet boundaries.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTHY_Summary.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRD_Summary.dwt (new) C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\Speed Sheet\MDTRW_Ownership.dwt (new)	
2024.4	State Kit (v2.0.1)	11/26/24	Subassembly and Assembly Guide Tool Palette Link Priority: HIGH, Complexity: SIMPLE The MDT Civil 3D Subassembly and Assembly Guide on the MDT Subassemblies and MDT Assemblies tool palettes is linked to the Civil 3D 2022 version of the guide.	The MDT Subassemblies and MDT Assemblies tool palettes were updated to correctly link the Civil 3D 2024 version of the MDT Civil 3D Subassembly and Assembly Guide.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\20_MDT Assemblies.atc (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0.1)	11/26/24	Update the Subassembly, MDT OffsetOnSurfaceLink.pkt Priority: HIGH, Complexity: SIMPLE There is an issue of finding a point on the surface within a given offset in the MDT OffsetOnSurfaceLink.pkt subassembly.	The MDT OffsetOnSurfaceLink subassembly was updated (version 1.3) to incorporate the distance being measured from the baseline rather than the insertion point and tested by the Assembly / Subassembly Development team.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT OffsetOnSurfaceLink.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT OffsetOnSurfaceLink_1-2.pkt (new)	
2024.4	State Kit (v2.0.1)	11/26/24	Edit T-TablesQtyStaLabel typical block for clarity Priority: LOW, Complexity: SIMPLE Aggregate treatment column is not bituminous material and needs to be its own separate column.	The T-TablesQtyStaLabel typical block was revised so that the Aggregate treatment column is its own column and not grouped up in the bituminous material section of the quantities table.	C:\mdoh\StateKit\Civil 3D\2024\Blocks\RD-Typicals.dwg (updated)	
2024.4	State Kit (v2.0.1)	11/26/24	R/W Block & Palette Updates Priority: MEDIUM, Complexity: SIMPLE Annotation labels are being used to place the railroad r/w tie notes in the r/w drawings. The RW-RRTIE block should be removed from the r/w palette.	The RW-RRTIE was already removed from the RW-Plan.dwg file. Deleted the RW-RRTIE from the r/w palette.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\RightOfWay\Palettes\10_MDT RW BLOCKS.atc (updated)	
2024.4	State Kit (v2.0.1)	11/26/24	Subassembly Daylight Alternative with Subbase Option Priority: HIGH, Complexity: SIMPLE MDT DaylightSubbase (a/k/a DaylightWithSubbase) subassembly includes the subbase preventing the ability to choose another end condition while preserving the subbase.	MDT DaylightWithSubbase subassembly was updated to add a "Subbase Only" build option that allows the designer to address special areas that need specific daylight designs by using an alternative subassembly for the end condition.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase_1-2.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightWithSubbase.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated)	
2024.4	State Kit (v2.0.1)	11/26/24	MDT Rural 2 Lane Assembly Hinge Connection Priority: HIGH, Complexity: SIMPLE MDT Rural 2 Lane assembly is not interacting with the hinge point on the right in a super elevation scenario.	MDT Daylight Subbase subassembly moved to attach to the hinge point for proper interaction.	C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated)	
2024.4	State Kit (v2.0.1)	11/26/24	MDT DaylightSubbase Subassembly Reverse Slopes Priority: HIGH, Complexity: SIMPLE The daylight subbase subassembly is causing fill slopes to reverse. Forced catch functionality isn't fully functional, and multi-intercept options are not functional.	1. The surface slopes were edited to take in consideration for reverse condition. 2. Removed forced catch in lieu of other methods allowing for the no daylight selection. 3. Multi-intercept functionality restored when unable to resolve will defer defer to normal intercept.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase_1-2.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightWithSubbase.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0.1)	11/26/24	MDT DaylightSubbase PKT vs DaylightWithSubbase Subassembly Name Priority: MEDIUM, Complexity: SIMPLE A naming conflict exists with the MDT daylight and subbase subassembly where the PKT file name is MDT DaylightSubbase.pkt and the Subassembly Name is DaylightWithSubbase causing confusion when applied where various names are referenced in different locations from the Prospector for the same subassembly.	A new PKT file has been created with the file name "MDT DaylightWithSubbase.pkt" and Subassembly Name "MDTDaylightWithSubbase" which has been applied to the MDT Subassemblies palette and in delivered assembly drawings accessed from the MDT Assemblies palette. The previous MDT DaylightSubbase.pkt having conflicting naming is released with critical version 1.3 updates to support projects already using the subassembly.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightWithSubbase.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated)	
2024.4	State Kit (v2.0.1)	11/26/24	MDT Daylight Subbase Standard Slope Conditions Priority: MEDIUM, Complexity: SIMPLE MDT Daylight Subbase subassembly Fill Slope 2 default value is 5:1 and Cut Slope 1 default value is 6:1. These slope conditions do not follow MDT standard design criteria so users will have excessive updates to make.	MDT Daylight Subbase subassembly Fill Slope 2 default value was updated to 6:1 and Cut Slope 1 default value was updated to 5:1. Default cut/fill conditions were edited to match the arterial level/rolling baseline criteria.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase_1-2.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightWithSubbase.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated)	
2024.4	State Kit (v2.0.1)	11/26/24	MDT DaylightSubbase Subassembly Forced Catch Offset Priority: MEDIUM, Complexity: SIMPLE A forced catch feature is needed for the MDT Daylight Subbase Subassembly.	A forced catch target feature was added to the MDT Daylight Subbase Subassembly. A target (polyline or alignment) can be used in the drawing to force a cut or fill slope in appropriate areas for design.	C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase.pkt (updated) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightSubbase_1-2.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT DaylightWithSubbase.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Widening.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2024\Assemblies\MDT_Ramp.dwg (updated)	
2024.4	State Kit (v2.0)	08/30/24	R/W Layout Updates-Title Sheet View Port [R/W Layout Updates-View Port] Priority: MEDIUM A viewport for design model is needed to reference map from road design on the r/w title sheets.	Created a viewport on layer GS-VPRT in the RW-Title, RW-Exhibit-Title, and RW-Exhibit-Railroad-Title layout tabs for r/w to reference the project map from road design.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_RightOfWay-Layouts.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	Autosave Options Priority: LOW Use of autosave potentially causes crashes.	To speed up autosave operations, the ISAVEPERCENT variable is set to 50 creating a larger drawing that is less compressed.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Resource\MDT_2024.arg (updated) Other non-state kit files: 2022StateKit-Gen.docx (updated)	
2024.4	State Kit (v2.0)	08/30/24	Plan Set Development Expediency-Sign Design Calc Sheets Priority: MEDIUM, Complexity: MODERATE Preparing sign design calculation sheet files with calculations in the model requires repetitive work setting up viewports without any automation.	A template known as a speed sheet is introduced for creating Sign Design Calculation files.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\SpeedSheet\#####000SISDC000.dwt (new)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Excel Tools-Signing Spec/Sum Priority: HIGH, Complexity: MODERATE Excel is used for specification and summary table data to be inserted into drawing files. A distribution method is needed to accommodate user access and application within specification and summary files created from speed sheet templates.	The signing specification and summary excel template is added to the state kit to be used in conjunction with the specification and summary speed sheet template.	C:\mdoh\StateKit\Civil 3D\2024\Tools\ExcelManager\ ####000SISUM001.xlsx (new)	
2024.4	State Kit (v2.0)	08/30/24	Plan Set Development Expediency-Signing Spec/Sum Priority: MEDIUM, Complexity: MODERATE Preparing signing specification and summary sheet files with calculation data in the model requires repetitive work setting up viewports without any automation.	A template known as a speed sheet is introduced for creating Signing Specification and Summary sheet files to be used in conjunction with the Specification and Summary Excel workbook.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-Dwg\SpeedSheet\MDTSI_SpecSum.dwt (new)	
2024.4	State Kit (v2.0)	08/30/24	Solution for R/W Break CSV File Priority: MEDIUM Need to create r/w break csv file with point, northing, easting, description (Sta./Offset).	Created Civil 3D Project Explorer coodinates file to support the r/w break file with point number, northing, easting, station, offset & description. Created a r/w layout style in the C:\mdoh\StateKit\Civil 3D\2024\Tools\Project Explorer\MDT RWBreakPoints.xmpt. The process is documented in the R/W Break Coordinates section workflow.	C:\mdoh\StateKit\Civil 3D\2024\Tools\Project Explorer\MDT RWBreakPoints.xmpt (new)	
2024.4	State Kit (v2.0)	08/30/24	Proposed Layers Printing Grey Priority: MEDIUM The layers c-road-pvmt and c-swlk are printing grayscale because the layer colors are assigned 253 and 252 in the State Kit.	The colors for layers c-road-pvmt and c-swlk were changed to color 9 and 8 respectively.	C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT-layers.lft (updated)	
2024.4	State Kit (v2.0)	08/30/24	Ribbon Tabs "Fall Off-Screen" Priority: HIGH, Complexity: SIMPLE Ribbon tabs fall "off-screen" into drop down menu requiring additional effort to access tools. MDT custom ribbon tabs may not appear "on-screen" by default.	Create a new "Ribbon Tabs" section with how to add/remove ribbon tabs to the UI category of the "MDT Civil 3D State Kit Overview" document. MDT CIVIL 3D USER INTERFACE (UI) > MDT CIVIL 3D USER INTERFACE SETTINGS > CIVIL 3D WORKSPACES > Ribbon Tabs	2024StateKit-Gen.docx (updated) https://www.mdt.mt.gov/other/webdata/external/ESDC/library/2024StateKit-Gen.pdf (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Sheet Set Manager Settings Priority: HIGH, Complexity: SIMPLE New sheet set manager behavior in 2024.If a DST file is opened from a cloud location the "Sheet Set Manager for Web" will open instead of what Autodesk is now calling the "Legacy" Sheet Set Manager. The SSM for Web is also set to open by default for local files.As of 03/24/2024 SSM for Web currently has unresolved bugs and issues that affect functionality.Should the default SSM open behavior in the State Kit be set to something else?	Recommend turning off all SSM window and DST auto-open features and disabling SSM for Web due because of unresolved bugs and issues. Users can open sheet sets on demand. Inform users SSM for Web may not work correctly. Add small SSMDETECTMODE note in Sheet Set section of 2024StateKit-Gen.docx. Recommended settings: SSMDETECTMODE (set to = 0) Always displays the legacy Sheet Set Manager SSMAUTOOPEN (set to = 0) Does not open the Sheet Set Manager automatically SSLOCATE (set to = 0) Does not open a drawing's sheet set with the drawing Set these variables in startup routine. (MDT2024-StartupSettings.lsp)	C:\MDOH\Bundle-Source_2024\MDT2024-Startup.VLX (updated)	
2024.4	State Kit (v2.0)	08/30/24	Change system variable for OLEFRAME Priority: MEDIUM, Complexity: SIMPLE OLEFRAME variable currently set to <1> but should be set to <2>.	Set system variable for OLEFRAME to <2> in bundle startup code. Add (setvar "OLEFRAME" 2) to C:MDTSysVars function in MDT2024-StartupSettings.lsp and "Make" MDT2024-Startup.VLX	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Startup.VLX (updated) MDT2024-StartupSettings.lsp (updated)	
2024.4	State Kit (v2.0)	08/30/24	Alignment Feature Settings Priority: MEDIUM, Complexity: SIMPLE An alignment feature setting default value needs to be corrected.	Set default "% on Tangent for Tangent-Curve" value to 70% in "start" templates. Toolspace > Settings tab > Alignment > Feature Settings > Superelevation Options	C:\MDOH\StateKit\Civil 3D\2024\Templates_Start-Dwg\design-start.dwt (updated) C:\MDOH\StateKit\Civil 3D\2024\Templates_Start-Dwg\survey-start.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	R/W Sheet SPC Note Priority: LOW, Complexity: MODERATE Limited space is available for the state plane coordinate note on r/w sheets. The sheet border sheet description area (upper right) will allow a consistent location requiring removal of the text field for r/w sheets.	Added the state plane coordinate note on r/w sheets in the sheet border sheet description area (upper right).	C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_RightOfWay-Layouts.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Layers for Surface Styles Priority: HIGH, Complexity: SIMPLE The contours in the styles are set to "0" layer with a color override this hinders any ability to control plot weight. The styles also have overrides on Linetype and Lineweight for some component types.	Changed color, Linetype, and Lineweight overrides to Bylayer to provide users with control of drawing displays and plots for all surface styles except MDT-Datum, MDT-SubExc, and MDT-Top. Assigned a layer to each Component Type. The following new layers were created: C-SURF-GRID C-SURF-DRCT C-SURF-ELEV C-SURF-SLPE C-SURF-SLPA V-SURF-GRID V-SURF-DRCT V-SURF-ELEV V-SURF-SLPE V-SURF-SLPA	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Surface-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT-layers.lft (updated)	
2024.4	State Kit (v2.0)	08/30/24	Electrical Layer Colors Priority: MEDIUM The colors for E-CNDT-E and E-DEVC-SYMB-E are currently too dark.	The colors for E-CNDT-E and E-DEVC-SYMB-E were updated from 91 and 101 to 95 and 115 respectively.	C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Change Layer Attributes-R/W Priority: MEDIUM R/W layer attributes need to be updated to match r/w standards.	The layer colors, linetypes, and lineweights were revised to match the r/w standards. Adjustments or additions were made to the layers listed below: RR-ACCS RR-ACCS-E RR-ACCS-TABL RR-ESMT-LABL-T RR-ESMT-T RR-LICN RR-LICN-LABL RR-LORW-LABL RR-PRCL-BNDY RR-PRCL-DNRC-LABL RR-PRCL-IDEN RR-PRCL-NFSL RR-PRCL-STLD RR-RAIL-LABL	C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT-layers.lft (updated)	
2024.4	State Kit (v2.0)	08/30/24	Storing/Running Automation Tools in State Kit Priority: LOW, Complexity: SIMPLE Need file locations, content/runtime framework, supporting files, default settings, and documentation to store/run automation tools in State Kit.- Action Recorder files (.actm)- AutoCAD scripts (.scr)- AutoLISP routines (.lsp/.vlx)	The following locations have been created/will be used for Automation Tools: 1. C:\MDOH\StateKit\Civil 3D\2024\Tools* a) For general State Kit "stand-alone" tools 2. C:\MDOH\StateKit\Civil 3D\2024\Tools\Actions Recordings a) For State Kit Actions Recordings 3. C:\ProgramData\Autodesk\Application Plugins\MDTSK2024.bundle\Content\Tools a)For tools needed by bundle processes 4. C:\MDOH\StateKit\Civil 3D\User\Tools a) For User tools	C:\MDOH\StateKit\Civil 3D\2024\Tools* (updated) C:\MDOH\StateKit\Civil 3D\2024\Tools\Actions Recordings (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\Tools (updated) C:\MDOH\StateKit\Civil 3D\User\Tools (updated)	
2024.4	State Kit (v2.0)	08/30/24	Move State Kit content out of Autodesk default locations (Part 3) Priority: MEDIUM, Complexity: MODERATE Consider consultant's installation/config and avoid stomping on any files in default Autodesk files or folders.Candidates for moving:- Survey database settings- Subassemblies- Corridor Design Standards (Design Criteria File)	Move State Kit content out of Autodesk default locations and into C:\MDOH locations (where possible). C:\MDOH\StateKit\Civil 3D\2024\Survey C:\MDOH\StateKit\Civil 3D\2024\Subassemblies C:\MDOH\StateKit\Civil 3D\2024\Data\Corridor Design Standards	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Resource\MDT_2024.arg (updated) C:\MDOH\StateKit\Civil 3D\2024\Survey\MDT Figure Prefix Database.fdb_xdef (updated) C:\MDOH\StateKit\Civil 3D\2024\Survey\MDT Linework.f2f_xdef (updated) C:\MDOH\StateKit\Civil 3D\2024\Survey\MDT Survey User Settings.usr_set (updated) C:\MDOH\StateKit\Civil 3D\2024\Subassemblies*.pkt (updated) C:\MDOH\StateKit\Civil 3D\2024\Data\Corridor Design Standards__Montana DOT Design Standards.xml (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks

2024.4	State Kit (v2.0)	08/30/24	AutoCAD Profile Settings - Action Recorder
			Priority: HIGH, Complexity: SIMPLE
			The 2024 State Kit will leverage Actions Recordings (action macros).The Action Recorder UI does not allow a user to browse to a location on-the-fly to run or save action macros. These filepaths need to be pre-set in the AutoCAD profile.
				Set the "Actions Recording File Location" (save location) to the State Kit User\Tools folder. This will allow users to save their own macros where they will be safe from State Kit updates.
				
				Set two paths for "Additional Actions Reading File Locations" (run locations). Set one path to the State Kit User\Tools folder and create a new path to a State Kit Tools\Actions Recordings directory. This will allow users to run their own macros and also run "official" State Kit macros.
				
				Small edits needed in MDT_2024.arg file before 2.0.0 release.
				
				1. Create the directory "C:\MDOH\StateKit\Civil 3D\2024\Tools\Actions Recordings" in the State Kit.
				
				2. Set profile filepaths as shown below…
				 Action Recorder Settings
				  >Actions Recording File Location
				    -C:\MDOH\StateKit\Civil 3D\User\Tools
				  >Additional Actions Reading File Locations
				    -C:\MDOH\StateKit\Civil 3D\2024\Tools\Actions Recordings
				    -C:\MDOH\StateKit\Civil 3D\User\Tools
					C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Resource\MDT_2024.arg (updated)
					
					C:\MDOH\StateKit\Civil 3D\2024\Tools\Actions Recordings\ (folder) (updated)	

2024.4	State Kit (v2.0)	08/30/24	Assembly "start" Template Priority: HIGH, Complexity: SIMPLE An assembly "start" Template with state kit styles is needed to build assembly drawings to create assembly DWG files.	Assembly-start.dwt was created as a start template when developing assembly drawings.	C:\mdoh\StateKit\Civil 3D\2024\Assemblies\assembly-start.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	MDT SlopeToSurfaceLink Subassembly Priority: MEDIUM, Complexity: SIMPLE Need basic cut and fill link subassembly to define a daylight point on a surface. A daylight foreslope link between the insertion point and the daylight point is created.	Created new subassembly MDT SlopeToSurfaceLink and documentation – see MDT Civil 3D Subassembly and Assembly guide.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\AcTpCatalog.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Slope_to_Surface_Link_dk.png (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Slope_to_Surface_Link.png (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT SlopeToSurfaceLink_1-0.pkt (new) Other non-state kit files: 2022StateKit-Asm_Subasm.pdf (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	_MDT-Subassembly All Codes Label Scaling Priority: MEDIUM, Complexity: SIMPLE Labels don't scale for _MDT-Subassembly All Codes code set style.	Text not scaling is intended behavior. The Shape label style "_MDT-Subassembly Shape Code" was updated to reference the TextHeight expression preventing text height from scaling. Marker style "MDT-Subassembly" created and applied to "_MDT-Subassembly All Codes" to prevent the point marker symbol from scaling. Marker and Link label style updates were made and applied to "_MDT-Subassembly All Codes" code set style to avoid overlapping codes: 1) Renamed "_MDT-Subassembly Point Code" to "_MDT-Subassembly Point Code 45" 2) Created "_MDT-Subassembly Point Code LT". "_MDT-Subassembly Point Code RT", and "_MDT-Subassembly Point Code 90" 3) Created "_MDT-Subassembly Link Code CTR".	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	MDT OffsetOnSurfaceLink Subassembly Priority: MEDIUM, Complexity: SIMPLE Need an subassembly that can acquire an offset point on a surface from an subassembly's attachment point.	Created new subassembly MDT OffsetOnSurfaceLink and documentation – see MDT Civil 3D Subassembly and Assembly guide	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT OffsetOnSurfaceLink.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT OffsetOnSurfaceLink_1-0.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\AcTpCatalog.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Offset_on_Surface_Link.png (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Offset_on_Surface_Link_dk.png (new) Other non-state kit files: 2022StateKit-Asm_Subasm.pdf (updated)	
2024.4	State Kit (v2.0)	08/30/24	MDT ConnectSurfaceSlopeLinks Subassembly Priority: MEDIUM, Complexity: SIMPLE Need to create a preliminary or setup surface derived from targeting and sampling an existing surface at offset locations on the right and or left side or that may be used to attach other subassemblies on as a final corridor.	Created new subassembly MDT ConnectSurfaceSlopeLinks and documentation – see MDT Civil 3D Subassembly and Assembly guide.	C:\mdoh\StateKit\Civil 3D\2024\Subassemblies\MDT ConnectSurfaceSlopeLinks.pkt (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\AcTpCatalog.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Connect_Surface_Slope_Links.png (new) C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Images\MDT_Connect_Surface_Slope_Links_dk.png (new) Other non-state kit files: 2022StateKit-Asm_Subasm.pdf (updated)	
2024.4	State Kit (v2.0)	08/30/24	Pipe Slopes and Lengths Priority: MEDIUM, Complexity: SIMPLE Pipe slope and length management tool allows more possibility for pipe profile adjustments.	New tool "Move Pipe Along Profile" added to adjust the pipe length and location in the profile view courtesy of Alaska DOT. Tool button Move Pipe Along Profile added to Pipe Network pulldown within the MDT Modeling panel of the MDT Design ribbon tab supporting command MDTPipeAlongProfile command.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Startup.VLX (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\MDT2024-Tools.VLX (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Content\DOT24.dll (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\MDT-Ribbon.cuix (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\mdt-ribbon.mnr (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\mdt-ribbon_light.mnr (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Start Templates Units and Zone Default Coordinate System Priority: HIGH MDT Start Templates within Civil 3D are defaulted to NSRS11MTIF. This system realization corresponds to NAD-83(2011). This does not align with all project surveys.	Civil 3D Coordinate System MDT Start Templates within Civil 3D have been defaulted to not have a coordinate system. It will be the project manager's responsibility to ensure that the survey read-me file is in congruence with the drawing settings set in Civil 3D. The designer will set the coordinates from the information in the survey read-me file for the project UPN to match. It's important to note that if a project is ongoing, certain file types can be projected to an incorrect location if the coordinate system is not congruent with the imported file's coordinate system metadata. These files include GIS file types, TIFF orthomosaics, and point clouds. Reference the survey read me TXT file (XXXXXXXXSURME001.txt) for the coordinate system used with the project control. The drawing file coordinate system setting may be reviewed in the file's drawing settings - Command EDITDRAWINGSETTINGS > Units and Zone. Added a "Set Coordinate System" button to the Start tab on the MDT Tool Palette. Added "Drawing Settings" panel to the MDT Design tab on the MDT ribbon.	C:\mdoh\StateKit\Civil 3D\2024\Annotation\ * .dwg C:\mdoh\StateKit\Civil 3D\2024\Blocks\ * .dwg C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg C:\mdoh\StateKit\Civil 3D\2024\Linetypes\DGNlinetypes.dwt C:\mdoh\StateKit\Civil 3D\2024\Linetypes\linetypes.dwg C:\mdoh\StateKit\Civil 3D\2024\Templates\ _Start-Dwg\ * -start.dwt C:\mdoh\StateKit\Civil 3D\2024\Templates\ _Start-Dwg\x-mdt-build.dwt C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ * -Ref.dwt C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\ * -group.dwt C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\ * -Layouts.dwt C:\mdoh\StateKit\Civil 3D\2024\Assemblies\assembly-start.dwt C:\mdoh\StateKit\Civil 3D\2024\Toolpalette\Start\Palettes\10_MDT Start.atc C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Menu\MDT-Ribbon.cuix	
2024.4	State Kit (v2.0)	08/30/24	Update MDT_SSM.dst settings for clarity Priority: MEDIUM, Complexity: SIMPLE MDT_SSM.dst example sheet set contains two properties with the same placeholder of PROJECT DESC, even though they have different meanings.	Replaced the placeholder value for Project name in the Project Control section from "PROJECT DESC" to "PROJECT LOCATION NAME" and 02_PROJECT_DESC in the Sheet Set Custom Properties from "PROJECT DESC" to "PROJECT TYPE" to match the wording in the Electronic As-Built system.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets\Sheet Sets\MDT_SSM.dst (updated)	
2024.4	State Kit (v2.0)	08/30/24	Custom Hatch (.pat) File Location Priority: MEDIUM, Complexity: SIMPLE Need a home for custom hatch patterns added to the State Kit.	1. Create C:\MDOH\StateKit\Civil 3D\2024\Hatch 2. Add folder path to MDT_2024 profile (Support File Search Path) 3. Move path up in the list just below the C:\mdoh\statekit\civil 3d\2024\linetypes entry.	C:\MDOH\StateKit\Civil 3D\2024\Hatch (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2024.bundle\Resource\MDT_2024.arg (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Subassembly storage in User folder Priority: MEDIUM, Complexity: SIMPLE Need a home for User subassemblies.	1. Create C:\MDOH\StateKit\Civil 3D\User\Subassemblies directory. 2. Create empty "Subassembly" tool palette and add to User palette group. 3. Update help doc.	C:\MDOH\StateKit\Civil 3D\User\Subassemblies (updated) C:\MDOH\StateKit\Civil 3D\User\Toolpalette\AcTpCatalog.atc (updated) C:\MDOH\StateKit\Civil 3D\User\Toolpalette\Palettes\UserSubassemblies.atc (updated) C:\MDOH\StateKit\Civil 3D\2024\Help\StateKit-UserPalettes.pdf (updated)	
2024.4	State Kit (v2.0)	08/30/24	Update C-ProjectHeading title sheet block Priority: LOW, Complexity: SIMPLE C-ProjectHeading block on title sheet needs to be updated.	Added "COUNTY" to the fourth line of the block following the #### SSM field. Combined all fields into one MTEXT item and set justification to top center so that the project type description, if two lines, will cascade down with the remaining fields following.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Electrical-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_RightOfWay-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Signing-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Sheets_Utilities-Layouts.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	Create new code set style for showing special borrow on cross sections Priority: MEDIUM, Complexity: SIMPLE Code set style needed to show special borrow on cross sections.	Created new code set style called MDT-Section-Plan Special. The style was created as a copy of the MDT-Section-Plan code set style and includes the MDT-Special Borrow shape style set for the SubBase shape. This shape style will show the SubBase as hatched.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	Edit shape styles for use in profiles Priority: MEDIUM, Complexity: SIMPLE Existing shape styles need to have profile view direction turned on for enhancements to design process.	Set the Shape Border Line and Shape Area Fill components to visible in the MDT-Cut Material, MDT-Fill Material, and MDT-Special Borrow shape styles. Set color for Shape Area Fill to 82 and hatch pattern to ANSI31 in the Profile View Direction for the MDT-Special Borrow shape style.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-General-Ref.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	Label Styles: Bearings Precision Priority: LOW, Complexity: SIMPLE The bearings shown on the plans are not rounding to the nearest second.	Updated precision to the nearest second for all bearing label styles. Adjusted font height in all line label styles to be the default 0.0600" to match the other labels in the State Kit. Deleted MDT Bearing Only style.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (update) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-AlnProfSuper-Ref.dwt (updated)	
2024.4	State Kit (v2.0)	08/30/24	Regular Font in MDT Arial Italic Priority: HIGH, Complexity: SIMPLE MDT Arial Italic text style is presenting with non-italicized font in some instances.	Text styles on all templates were updated to have italicized font on all MDT-Arial-Italic styles.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-AlnProfSuper-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Surface-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-General-Ref.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2024.4	State Kit (v2.0)	08/30/24	Erosion Control Surface Styles Priority: MEDIUM, Complexity: SIMPLE Erosion control surface styles need to display grey scale.	This was addressed with the "Layers for Surface Styles" request. A layer was created for each surface style Component Type. Changed the color, Linetype, and Lineweight to Bylayer in the existing contour surface styles to provide users with control of drawing displays and plots. The default layer color assigned to the existing contour and proposed layers will print as grey scale.	C:\mdoh\StateKit\Civil 3D\2024\Templates\Reference_MDT-Surface-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2024\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT-layers.lft (updated)	
2022.2.6	State Kit (v1.25)	06/10/24	Edit MDT Alignments.xmpa Font Heights Priority: LOW, Complexity: SIMPLE Revise font heights in MDT Alignments.xmpa style to match heights established in State Kit.	Edit MDT Alignments.xmpa Project Explorer style so that the font heights are the following in paper space: • Title Row: 0.120 • Header Row: 0.100 • Data Row: 0.060 Additionally, edit the cell margins to the following: • Horizontal Cell Margins: 0.025 • Vertical Cell Margins: 0.000	C:\mdoh\StateKit\Civil 3D\2022\Tools\Project Explorer\MDT Alignments.xmpa (updated)	
2022.2.6	State Kit (v1.25)	06/10/24	Convert Corridor Feature Lines Priority: HIGH, Complexity: MODERATE Command/procedure needed to convert corridor created feature lines into 3D polylines and place them on specific layers. The names of the layers should be the names of the point codes from the subassembly that the feature lines were created from.	1. Create drawing template for feature line export. 2. Add MDTCFLLAYER lisp routine to MDT2022Tools.VLX 3. Add tool button to MDT Tools tool palette.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Tools.VLX (updated) C:\mdoh\StateKit\Civil 3D\2022\Toolpalette\Tools\Palettes\10-MDT Tools.atc (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Misc\cfl-misc.dwt (new)	
2022.2.6	State Kit (v1.25)	06/10/24	Create block for begin and end project labels for PLP sheets Priority: MEDIUM, Complexity: SIMPLE A block is needed for the beginning and end of a project for plan and profile sheets.	Created blocks for begin and end project. Include field link to SSM for project number to save designer time and errors from hand entering in data. Created blocks for begin and end connection to PTW. Created new RD-Plan.dwg block library.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-Plan.dwg (New)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.6	State Kit (v1.25)	06/10/24	Profile View Band Styles Priority: MEDIUM, Complexity: SIMPLE Profile view band styles (Profile Data subset) need to be updated so that the full major station is shown (i.e., reads as 250+00 rather than the current 250)	Updated the PLN Profile Sta Index and PLN Profile Sta No Decimal profile view band styles so that the "+00" shows on the style. Created a band set that users can import so they don't have to import each one individually. Minimum display output set to 3 digits. Changed major tick display level from 0 to C-GRID-MAJR for both styles. Renamed styles to MDT PROF-Plan Profile Sta Index and MDT PROF-Plan Profile Sta No Decimal. Create new Band Set called MDT PROF-Plan. Deleted PLN P-P Pro View styles to prevent further use by users. Deleted Empty Band - Bottom, Empty Band - Top, MDT Empty Band - Top, MDT Stations, Stations Create New Profile Data Band Styles: MDT PROF - Empty Band - Top, MDT PROF-Plan Profile Sta Index, MDT PROF-Plan Profile Sta No Decimal, MDT PROF-Stations	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-AlnProfSuper-Ref.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.6	State Kit (v1.25)	06/10/24	Profile view styles for split profiles Priority: MEDIUM, Complexity: SIMPLE Profile view styles need to be developed and added to the state kit for a split profile.	1) Create MDT PROF-Plan Profile View style for plan and profile sheet production with the components outlined in the last 3 major bullets. 2) Create a left, middle, right, and no-display style. - Left style (MDT PROF-Plan (Split LT)) will have elevations offset to the left of both axes, as well as the title of the parent alignment. - Middle style (MDT PROF-Plan (Split Middle)) will have elevations offset to the right of the left axis and offset to the left of the right axis. - Right style (MDT PROF-Plan (Split RT)) will have elevations offset to the right of the left axis and to the right of the right axis. - Fonts and all visual elements need to be turned off for the no-display style (_MDT-No Display). 3) Change all fonts on all styles so that they are Arial Italic. 4) Change major grid interval spacing from 500' to 100'. 5) Change colors on the display components for all styles to the following: - Grid Horizontal Major - BYLAYER - Grid Horizontal Minor - 214,214,214 - Grid Vertical Major - BYLAYER - Grid Vertical Minor - 214,214,214 6) Delete PLN P-P Pro View styles to prevent further use by users 7) No anticipated conflicts for consultants.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-AlnProfSuper-Ref.dwt (updated)	
2022.2.6	State Kit (v1.25)	06/10/24	Update MDT Daylight.pkt and the associated documentation Priority: HIGH, Complexity: SIMPLE Daylight end condition needed in cut situations to daylight the slope to existing ground.	A daylight function was added to the cut end condition in the MDT Daylight subassembly.	C:\mdoh\StateKit\Civil 3D\2022\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) C:\ProgramData\Autodesk\C3D 2022\enu\Imported Tools\MDT MDT Daylight\ \ *. * (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Ramp.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Rural_2_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Rural_4_Lane.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Rural_Divided.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Widening.dwg (updated) Other non-state kit files: 2022StateKit-Asm_Subasm.docx (updated) MDT Daylight.pkt (updated)	
2022.2.6	State Kit (v1.25)	06/10/24	Update default swath widths for sample line groups Priority: MEDIUM, Complexity: SIMPLE Default swath widths need to be updated to 140.000' to support cross sections process and so that the section views will be centered within the layouts.	Edit command settings for CreateSampleLines. Change Left and Right Swath Widths from 125.000' to 140.000'.	C:\mdoh\StateKit\Civil 3D\2024\Templates_Start-dwg\design-start.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.6	State Kit (v1.25)	06/10/24	Match line edits Priority: LOW, Complexity: SIMPLE Match line and match line label styles need updates to display within plan view.	Created MDT-Plan ML match line style. Changed color to 253 to match profile view style grid color. Created MDT-Left Side and MDT-Right Side label styles with MDT Arial Italic text style and adjust x offset so that the labels fall within the view frame/viewport for plan sheets. Text height set to 0.06. Color for font set to white. Deleted PLN Left Side and PLN Right Side label styles and deleted PLN Plan ML match line style.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-ViewFrame-Ref.dwt (updated)	
2022.2.6	State Kit (v1.24 Amended)	04/15/24	Interim Director Larry Flynn Priority: HIGH, Complexity: SIMPLE Transportation director Malcolm "Mack" Long has retired requiring updated plan set title sheet seal.	The director Malcolm "Mack" Long and title were removed entirely from the plan set title sheet seal.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Blocks\SU-Cadastral Notes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _Electrical-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _Signing-Layouts.dwt (updated)	
2022.2.5	State Kit (v1.24)	02/03/24	Alignment Geometry Abbreviations Priority: HIGH, Complexity: SIMPLE Alignment Geometry Point Text Alignment End and Alignment Beginning abbreviations are not updated to BOA and EOA.	Drawing setting abbreviation updates were made to the Alignment Geometry Point Text "Alignment End" value to be EOA and "Alignment Beginning" value to be BOA. This will be effective in new drawings only. For drawings already created, a user may make the same Drawing Settings updates. Update MDT Alignments.xmpt Project Explorer Layout Style so that the BP and EP lines are replaced with BOA and EOA.	C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Tools\Project Explorer\MDT Alignments.xmpt (updated)	
2022.2.5	State Kit (v1.24)	02/03/24	Autodesk Part Catalog File Priority: HIGH, Complexity: SIMPLE The Civil 3D installed default Autodesk Part Catalog (APC) resource file for pipes is being overwritten with state kit updates. This was previously seeded with MDT content and overwritten with each state kit update. With state kit 1.23, the MDT pipe network content was redeveloped and located in a standalone location. The default APC file was reset to exclude custom MDT content. To avoid overwriting Autodesk managed resource files, the APC file needs to be removed from the state kit package.	US Imperial Pipes.apc file deleted from state kit package.	C:\ProgramData\Autodesk\C3D 2022\enu\Pipes Catalog\US Imperial Pipes\US Imperial Pipes.apc (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.5	State Kit (v1.24)	02/03/24	Culvert PTW Priority: HIGH, Complexity: SIMPLE Currently the PTW code is used while collecting culvert information. The PTW is a linestring command and tries to tie the other PTWs which creates unwanted linework. A new code will be used to collect these points as a spot shot so they won't have the ability to chain together or be part of the surface. The new code is CPTW.	The new CPTW code is added to the state kit MDT Description Keys description key set with new layer V-CLVT-CPTW-NODE-E.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-PointSurvParc-Ref.dwt (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\Assets\MDTDKS.csv (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated)	
2022.2.5	State Kit (v1.24)	02/03/24	Small Linetype Text Priority: HIGH, Complexity: SIMPLE Linetype text is appearing too small after state kit update 1.23.	The paper text height for text style MDT Arial Italic is set to .06. The paper pext height was edited to 0.0 in reference templates and resource files to agree with the linetypes.dwg. MDTADDTSTYLES code was updated to set MDT Arial Italic text styles to default with 0 as the paper text height. The paper text height must be 0 so annotation scale can be honored and linetype text appears the proper size. This update is expected to be effective in all existing drawings without further action after state kit update. Using "Add MDT Textstyles" from the MDT Tools tool palette would resolve any remaining issues.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Linetypes\linetypes.dwg (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Tools.VLX (updated)	

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.5	State Kit (v1.24)	02/03/24	Start Templates Units and Zone Default Coordinate System Priority: HIGH NAD83 Montana State Planes, International Foot (MT83IF) is selected as the coordinate system in drawing start templates. This does not align with the NAD83 (2011) adjustment for which is applied with current survey practice.	Civil 3D Coordinate System MDT Start Templates within Civil 3D have been defaulted to NSRS11MTIF. This system realization corresponds to NAD-83(2011). This is the realization of NAD-83 for most of MDT's ongoing Preconstruction projects; however, it is possible that the control was set in a different realization. It will be the project manager's responsibility to ensure that the survey read-me file is in congruence with the drawing settings set in Civil 3D. If the survey read-me file for the project UPN is not NAD-83(2011), it will be necessary to change the realization in the drawing settings to match. It's important to note that if a project is ongoing, certain file types can be projected to an incorrect location if the coordinate system is not congruent with the imported file's coordinate system metadata. These files include GIS file types, TIFF orthomosaics, and point clouds. Reference the survey read me TXT file (XXXXXXXXSURME001.txt) for the coordinate system used with the project control. The drawing file coordinate system setting may be reviewed in the file's drawing settings - Command EDITDRAWINGSETTINGS > Units and Zone. 2022.2.5	State Kit (v1.24)	02/03/24	Update MDT-Typical code set style Priority: HIGH, Complexity: SIMPLE	- Edit MDT-Typical style as described in steps below. Then create a copy and name it	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Plotting\Plot Styles\MDT - Standard.ctb (updated)	
2022.2.5	State Kit (v1.24)	02/03/24	Add dynamic blocks to electrical standard details Priority: MEDIUM, Complexity: SIMPLE Need to add the following electrical standard detail blocks: EL-Service, VMS-Detail, VMS-Reference.	EL-Service, VMS-Detail, and VMS-Reference standard detail blocks added to EL-Standard Details.dwg.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\EL-Standard Details.dwg (updated)	
2022.2.5	State Kit (v1.24)	02/03/24	Electrical VMS Blocks Priority: MEDIUM, Complexity: SIMPLE New VMS blocks required to support electrical standard details.	New dynamic block "VMS" added.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\EL-Plan.dwg (updated)	
2022.2.5	State Kit (v1.24)	02/03/24	Missing Multileader MDT STD-Arial .06 Priority: LOW, Complexity: SIMPLE The design-start.dwt template is missing the MDT STD-Arial .06 multileader style.	The design-start.dwt template was updated to include the MDT STD-Arial .06 multileader style. This can be added to any file previously created using the MDT Tools palette button "Add MDT Multileader Styles" or "Add/Refresh ALL MDT Drawing Components".	C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\design-start.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.5	State Kit (v1.23.1)	12/18/23	Update Profile Tool Priority: HIGH, Complexity: SIMPLE The MDT profile needs to be reset on demand to correct errors caused by profile corruption.	Add MDTRESETPROFILE command. Add "Reset MDT State Kit Profile" tool button to the MDT Tools tool palette.	C:\MDOH\Bundle-Build\MDT2022Tools.VLX (updated) C:\MDOH\StateKit\Civil 3D\2022\Toolpalette\Tools\Palettes\10-MDT Tools.atc (updated) Other non-state kit files: 2022StateKit-Gen.docx (updated)	
2022.2.5	State Kit (v1.23.1)	12/18/23	Waterway Flowline Direction Priority: HIGH, Complexity: SIMPLE Waterway flowlines surveyed with feature codes FL and FLU are presenting in Civil 3D in the opposite direction intended.	Flow arrow direction was reversed for linetypes MDT_FLOW_UP and MDT_FLOW_DOWN. Add MDT Linetypes needs to be applied to update linetypes in any existing drawings making use of these linetypes.	C:\mdoh\StateKit\Civil 3D\2022\Linetypes\linetypes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Linetypes\MDT_Linetypes.lin (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-General-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_RightOfWay-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Utilities-Layouts.dwt (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Add existing Layer to the Survey/Photo filter Priority: LOW, Complexity: SIMPLE Layer V-UTIL-POLE-SYMB-E is needed in the Survey Photo > Photo Nodes-Symbols layer filter.	Layer V-UTIL-POLE-SYMB-E was added to the Survey Photo > Photo Nodes-Symbols layer filter.	C:\mdoh\StateKit\Civil 3D\2022\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT-LayerFilters.lft (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Add updated StateKit Subassembly (MDT Curb and Gutter) Priority: MEDIUM, Complexity: MODERATE MDT Curb and Gutter width isn't adjustable.□	The MDT Curb and Gutter subassembly was modified to add a Curb Width parameter. Also modified to include Front Gutter Offset parameter to allow vertical offset at the attachment point and Pave1 Depth to facilitate matching lane base and subbase depth.	C:\ProgramData\Autodesk\C3D 2022\enu\Imported Tools\MDT Curb and Gutter*.* (updated) C:\mdoh\StateKit\Civil 3D\2022\Assemblies\MDT_Urban_2_Lane-Sidewalk.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated) Other non-state kit files: 2022StateKit-Asm_Subasm.docx (updated) MDT Curb and Gutter.pkt (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Autodesk Civil 3D Layouts/Sheets for Hydraulics Priority: MEDIUM, Complexity: MODERATE Updates needed for HY-Summary, HY-Detail-STD, HY-Detail-HDS layouts.	HDS Notes, Exceedance Probability table and "Hydraulic Data Summary" sheet description added to HY-Detail-HDS layout. HY-Summary layout removed. "DETAIL" title added to the top of HY-Detail-STD layout. Irrigation Summary layout HY-Detail-IDS added.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Hydraulics-Layouts.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.5	State Kit (v1.23)	12/14/23	EL Standard Drawings Update Priority: LOW, Complexity: SIMPLE Electrical detail drawings for 2A & 3A Signal Standards and 10-A Luminaire Standards require updates.	Updated 2A & 3A Signal Standards (added ring stiffening & note for CJP detail, changed luminaire and luminaire mast arm wall thickness to 10 ga., added elevator plumbizers for all mast arm connections). Updated 10-A Luminaire Standards (anchor bolt pre-tensioning "per Standard Specs," changed wall thickness to 10 ga.) Minor formatting & spelling corrections to several drawings.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\EL-Standard Details.dwg (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Excel - HY Summary Priority: MEDIUM, Complexity: MODERATE Excel Hydraulic data summary and irrigation data summary frames are used for plan development. Accessibility to templates for Civil 3D use is needed.	Hydraulic data summary / irrigation data summary Excel file is included in the state kit for distribution for plan development.	C:\mdoh\StateKit\Civil 3D\2022\Tools\Excel Manager\Hydraulics\HydraulicDataSummary_IrrigationDataSummary.xlsx (new)	
2022.2.5	State Kit (v1.23 / v1.24)	12/14/23 02/23/24	Link for MDT Civil 3D Subassembly and Assembly Guide Priority: HIGH, Complexity: SIMPLE The MDT Civil 3D Subassembly and Assembly Guide source link file name requires updates.	The tool palette MDT Civil 3D Subassembly and Assembly Guide link is updated on the tool palette and within MDT Civil 3D State Kit Overview to https://www.mdt.mt.gov/other/webdata/external/ESDC/library/2022StateKit-Asm_Subasm.pdf.	C:\mdoh\StateKit\Civil 3D\2022\Toolpalette\Content\Palettes\10_MDT Content.atc (updated v1.23) C:\mdoh\StateKit\Civil 3D\2022\Toolpalette\Subassemblies\Palettes\10_MDT Subassemblies.atc (updated v1.24) C:\mdoh\StateKit\Civil 3D\2022\Toolpalette\Subassemblies\Palettes\20_MDT Assemblies.atc (updated v1.24)	
2022.2.5	State Kit (v1.23)	12/14/23	MDT C3D Styles Coordination-Dimension Styles Priority: MEDIUM "MDT Leader Dimension" dimension style landing distance and landing gap are too large.	The landing gap was set to 0.03 for MDT STD dimension styles and landing distance was shortened to .10 for all multileader styles. MDT STD-Arial Italic .06 multileader style was added.	C:\mdoh\StateKit\Civil 3D\2022\Annotation\Dimensions.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Annotation\Multileaders.dwg (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	MDT State Kit EULAs & WisDOT licensing Priority: HIGH, Complexity: MODERATE WisDOT (Wisconsin Department of Transportation) content will be implemented in the MDT State Kit under an MIT license. Two licenses currently exist: The "MT_CADD_UPDATER_EULA.rtf" and the "MT_CADD_EULA.txt". The "End-User License Agreement" is displayed during the installation of the MDT State Kit Updater and it is clear that it applies to the updater (the license must be accepted in order to install the updater), but it is unclear whether the license and copyright then apply to the actual State Kit content and code download during updates, because no language is included in the ZIP file.	Retain existing MDT EULA language as it applies to the State Kit content upon installation. Integrate the WisDOT required MIT license and copyright into the MDT license text and update the Updater. Create a separate licensing text file with MDT EULA and WisDOT MIT license/copyright to include with the ZIP file.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT_CADD_EULA.txt See files on request "Release 2024.0.0.3 - MDT State Kit Updater"	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.5	State Kit (v1.23)	12/14/23	Missing Annotation Styles Priority: HIGH, Complexity: SIMPLE Using Add MDT Textstyles, Add MDT Dimension Styles, and Add MDT Multileader Styles doesn't add all MDT styles.	All styles were restored to the appropriate annotation resource files.	C:\mdoh\StateKit\Civil 3D\2022\Annotation\Dimensions.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Annotation\Multileaders.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Annotation\Textstyles.dwg (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Tools.VLX (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Move State Kit content out of Autodesk default locations (Part 2) Priority: HIGH, Complexity: MODERATE Consider consultant's installation/config and avoid stomping on any files in default Autodesk files or folders for pipe network.	MDT Pipe catalogs moved to: C:\MDOH\StateKit\Civil 3D\2022\Drainage and default catalog reset in <<MDT>> profile.	See "Pipe Network and Structures".	
2022.2.5	State Kit (v1.23)	12/14/23	Multileader Leader Line Heavy w/Blocks Priority: HIGH, Complexity: SIMPLE Multileader style MDT STD-Arial .06 leader line inherits heavy weight when applied to blocks.	Updated MDT STD-Arial .06 multileader style weights from ByBlock to weight .005.	C:\mdoh\StateKit\Civil 3D\2022\Annotation\Multileaders.dwg (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Pipe Network and Structures Priority: MEDIUM, Complexity: COMPLEX Pipe network structures are not performing as expected. 1) Manholes aren't centered where two pipes would intersect, rather offset some distance. 2) Existing vs. proposed structure and pipe styles don't exist. 3) Type III & type VI inlet storm drain part rim elevation discrepancy with the topmost limits of the modeled part. 4) Manhole Structures Type 1, Type 3, and Type III and Type VI Inlet aren't functional. 5) Pipe network and structures are locked and have to be copied.	Pipe network and structures catalog built out using out-of-the-box base parts. Existing and proposed parts lists, pipe styles, and structure styles developed replacing previously developed styles. All newly developed content is named with an MDT prefix including an E for existing.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Drainage-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Drainage\MDT-Pipes Catalog\ **All Files** (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Resource\MDT_2022.arg (updated) C:\ProgramData\Autodesk\C3D 2022\enu\Pipes Catalog\MDT Drainage Catalog\ **All Files** (deleted) C:\ProgramData\Autodesk\C3D 2022\enu\Pipes Catalog\MDTAeccCircularConcretePipe_Imperial.xml (deleted) C:\ProgramData\Autodesk\C3D 2022\enu\Pipes Catalog\MDTAeccCircularConcretePipe_Imperial.dwg (deleted) C:\ProgramData\Autodesk\C3D 2022\enu\Pipes Catalog\US Imperial Pipes\Circular Pipes\MDT* (deleted) C:\ProgramData\Autodesk\C3D 2022\enu\Pipes Catalog\US Imperial Pipes\US Imperial Pipes.apc (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	R/W Block Attributes & Parameters Priority: HIGH, Complexity: SIMPLE Using RW-Plan blocks CORTIE, TRACT, and NFSLREC requires exploding block to edit each instance or to resize border to fit unique information.	RW-Plan blocks CORTIE, TRACT, and NFSLREC were edited to have multiline attributes and linear parameter/stretch actions for adjusting the width. System variable ATTIPE set to On.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\RW-Plan.dwg (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Settings.VLX (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	RECOVERYMODE System Variable Priority: LOW, Complexity: SIMPLE _Recover.dwg files are appearing with project files.	Set RECOVERYMODEto "0" in MDTSettings.lsp Build MDTSettings.VLX	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Settings.VLX (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	RR-RWAY layer color Priority: LOW, Complexity: SIMPLE ByLayer color for layer RR-RWAY is hard to see on black background.	ByLayer color for layer RR-RWAY is updated to majenta (index color 6).	C:\mdoh\StateKit\Civil 3D\2022\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.5	State Kit (v1.23)	12/14/23	Sheet Layout Text Styles Priority: LOW, Complexity: MODERATE Text style updates are needed in layouts.	MDT text styles with defined height were removed from all layouts as well as reference and start templates. Remaining standard MDT textstyles are MDT Arial, MDT Arial Italic, and MDT Arial Bold Italic. Defined height textstyles remain in block libraries and will be removed with future updates. MDT Textstyles tool palette contains tools for textstyle application with heights defined.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-Notes.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Electrical-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Geometrics-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Hydraulics-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_RightOfWay-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Signing-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Standard-Detail-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Survey-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Utilities-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\PageSetups-ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\Pln-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\Pln-Pln-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\Pln-Pro-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\Pro-Pro-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\XS-layouts.dwt (updated)	
2022.2.5	State Kit (v1.23)	12/14/23	Utility to Clear Temp Priority: MEDIUM, Complexity: SIMPLE A variety of software performance issues present are resolved by clearing the temp files (C:\MDOH\StateKit\Civil 3D\Temp and %TEMP%). Users need to be able to do this.	Created batch file. Users may access the shortcut "Clear Temp Files.lnk" from C:\MDOH\StateKit\Civil 3D\2022\Tools\ as needed. This shortcut existed previously. If users had moved the shortcut from Tools to their Desktop they will need to copy the shortcut over again. If it's run from the tools folder users don't have to change anything. Using this shortcut to remove temporary files is recommended frequently and especially after a Civil 3D crash.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\Tools\cleartemp.bat (updated) C:\MDOH\StateKit\Civil 3D\2022\Tools\Clear Temp Files.lnk (updated)	
2022.2.5	State Kit Updater (v2024.0.0.3)	12/14/23	MDT State Kit Updater Priority: HIGH, Complexity: SIMPLE 1. Need to add MIT (WisDOT) licensing info for `WisDOT.Extensions.dll`.2. Updater documentation is formatted incorrectly and needs content edits.3. Need to add ability to install a 2024 State Kit for testing.4. All references to the words State Kit in User interface should have a space between words: "State Kit", not "StateKit".5. Bug exists leaving empty state kit folders where all content is deleted with state kit updates.	Added MIT (WisDOT) licensing info. The "MDT StateKit Updater User's Guide" & "MDT StateKit Updater Operational Guide" were updated. Font and formatting errors were corrected. Updated INI file to include a 2024 State Kit install (future release) as an option. Edit UI to show space between the words State & Kit. ("State Kit", not "StateKit") Updated to correct empty remnant folders.	MDT StateKit Updater.msi (updated) Installed Files Updated: C:\Program Files\MDT\MDT StateKit Updater\MDT_CADD_EULA.rtf (updated) C:\Program Files\MDT\MDT StateKit Updater\MDT StateKit Updater Operational Guide.pdf (updated) C:\Program Files\MDT\MDT StateKit Updater\MDT StateKit Updater User's Guide.pdf (updated) C:\Program Files\MDT\MDT StateKit Updater\MDT StateKit Updater.exe (updated) C:\Program Files\MDT\MDT StateKit Updater\StandardDesktopConfiguration.ini (updated)	
2022.2.2	State Kit (v1.22.1)	09/06/23	Survey Figure Style Priority: HIGH / Complexity: SIMPLE MDT Standard survey figure style is created without needed display settings when importing csv in survey database.	MDT-Survey Figure figure style and marker style created with figure line display settings to use the ByLayer linetype. MDT-Survey Figure set in the figure prefix database.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-PointSurvParc-Ref.dwt (updated) C:\ProgramData\Autodesk\C3D 2022\enu\Survey\MDT Figure Prefix Database.fdb_xdef (updated)	
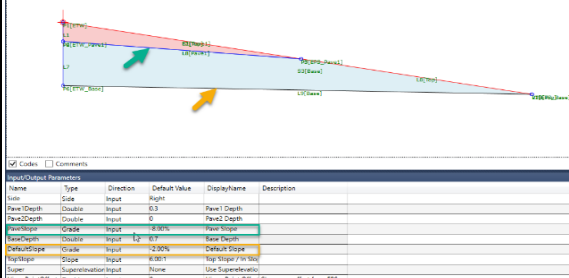

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	"DGN" Linetype Fixes (DGN Line Type Description: MDT_JERSEY_E) (Line Type Descriptions: MDT_JERSEY_E) Priority: LOW / Complexity: SIMPLE 1) "MDT_JERSEY_E " linetype has erroneous name and description. 2) The "DGN" linetypes description convention is different from the rest of the MDT linetype descriptions. 3) Detaching and reattaching _MDT-DgnLineType-Ref.dwt from the reference templates caused some "DGN" linetypes to become corrupted in the group and start templates.	1. Simplified workflow below. 2. Extract DGN Linetypes from _MDT-DgnLineType-Ref.dwt 3. Create New DGN Linetypes drawing 4. Edit LISP routine to include DGN Linetypes 5. Remove DGN Linetypes from _MDT-AlnProfSuper-Ref.dwt 6. Remove DGN Linetypes from _MDT-General-Ref.dwt 7. Remove DGN Linetypes from survey-group.dwt 8. Remove DGN Linetypes from design-group.dwt 9. Remove DGN Linetypes from survey-start.dwt 10. Remove DGN Linetypes from design-start.dwt 11. Update layers.dwg 12. Add DGN Linetypes back to _MDT-AlnProfSuper-Ref.dwt 13. Add DGN Linetypes back to _MDT-General-Ref.dwt 14. Filter DGN Linetypes up to survey-group.dwt 15. Filter DGN Linetypes up to design-group.dwt 16. Fix DGN Linetypes in survey-start.dwt 17. Fix DGN Linetypes in design-start.dwt 18. Build VLX File with edited MDTADDLTYPES command	C:\MDOH\StateKit\Civil 3D\2022\Layers\layers.dwg (updated) C:\MDOH\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-AlnProfSuper-Ref.dwt (new) C:\MDOH\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) C:\MDOH\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt (updated) C:\MDOH\StateKit\Civil 3D\2022\Templates\Reference\survey-group.dwt (updated) C:\MDOH\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\design-start.dwt (updated) C:\MDOH\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\survey-start.dwt (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Tools.VLX (updated) C:\MDOH\StateKit\Civil 3D\2022\Linetypes\DGNlinetypes.dwt (new) C:\MDOH\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-DgnLineType-Ref.dwt (deleted)	
2022.2.2	State Kit (v1.22)	08/29/23	Add/Edit default filepaths in <<MDT>> Profile (ALIASEDIT command default filepath) Priority: HIGH / Complexity: SIMPLE Typing the ALIASEDIT command does not open a .pgp file, causing the user to have to browse to choose a file. A profile filepath edit is needed. An MDT AutoCAD Temp directory has been added in C:\MDOH\StateKit\Civil 3D\Temp. An MDT Ribbon .cuix file has been added in C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Menu MDT User folders have been added. Profile filepaths need to be edited/added to reflect these actions.	1. Add %APPDATA%\autodesk\c3d 2022\enu\support to the top of the list in the Support File Search Path. 2. Add C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Menu to Support File Search Path. Move next to other MDTSK2022.bundle entries. 3. In Automatic Save File Location, Temporary Drawing File Location, Print Spooler File Location, and Temporary External Reference File Location, replace existing entries with C:\MDOH\StateKit\Civil 3D\Temp 4. Add C:\MDOH\StateKit\Civil 3D\User\Tools to Trusted Locations and Additional Actions Reading File Locations 5. Export profile to C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Resource\MDT_2022.arg 6. Compare latest MDT_2022.arg to oldest MDT_2022.arg on BIM 360. Record the differences. 7. Add differences/changes from latest MDT_2022.arg to MDTStateKit_Reg.txt	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Resource\MDT_2022.arg (updated) MDTStateKit_Reg.txt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	Alignment Label Styles - Curve Priority: MEDIUM / Complexity: SIMPLE Alignment curve label styles text alignment updates needed.	For styles "MDT ALGN-Design Simple Curve", "MDT ALGN-Existing Simple Curve", and "MDT ALGN-Site Simple Curve": 1. The anchor point for the component "LeftText" and "RightText" was updated to "Middle Right" and their text attachment to"Middle Left". 2. The border gap of the component "RightText" for all three styles was updated to 0.0125". 3. The component "Radius" was split into separate components for R, T, L, and E so the borders of each are respective to each line. 4. The attachment and Y Offset for the component "PI Text" of all three styles was set to "Top Left" and 0.0" respectively to allow dragging the label close to the edge of a viewport.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-AlnProfSuper-Ref.dwt (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Assembly Style in assembly drawings Priority: MEDIUM / Complexity: SIMPLE The assembly/code set style in the assembly drawings is Set to "Standard". An "MDT" code set style for design display needs to be created and applied to each assembly.	The following updates were made to all assembly drawings: 1. Create "MDT-Design" assembly style in _MDT-Modeling-Ref.dwt. 2. Copy "MDT-Design" assembly style into each assembly drawing and apply to each assembly 3.Copy "MDT-Corridor-Design" code set style from _MDT-General-Ref.dwt into each assembly drawing and apply to each assembly 4. Set "MDT-Design" assembly style and "MDT-Corridor-Design" code set style as default styles for Assembly feature settings and command settings 5. Set "MDT-Design" assembly style and "MDT-Corridor-Design" code set style as default styles for Assembly feature settings and command settings in design-start.dwt	C:\MDOH\StateKit\Civil 3D\2022\Assemblies\ *.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt (updated) C:\MDOH\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\design-start.dwt (updated)	

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks

2022.2.2	State Kit (v1.22)	08/29/23	Assembly Surfacing on High/Low Side of Super
			Priority: HIGH / Complexity: SIMPLE
			Bottom CAC and bottom subsurface slopes of surfacing shoulder inslope follow lane slope on the low side of the super.
				Modify the MDT Shoulder subassembly by adding a separate slope parameter for the paving slopes Pave1 and Pave 2. The base slope will still use the Default Slope parameter and targets while the new Pave Slope parameter will be use to assign a parameter reference value from the lane subassembly.

2022.2.2	State Kit (v1.22)	08/29/23	Bentley Layer Translator-Electrical Priority: HIGH / Complexity: SIMPLE Files converted from DGN to DWG are not appropriately mapping Bentley levels to new Civil3D layer names for Electrical Data**.**	In Civil 3D the layer translator tool is found under the Manage tab in the CAD standard panel. (The Layer translator allows you to quickly and easily map the layer that you are bringing in from an outside source and then give it all the properties that you are accustomed to in your layers.) We have taken the custom data from the Bentley workspace regarding Electrical and developed a layer translator that maps targeted levels appropriately to the Civil 3D layers.	C:\mdoh\StateKit\Civil 3D\2022\Tools\Layer Translators\MDT Electrical.dws (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Bentley Layer Translator-Hydraulics Priority: MEDIUM / Complexity: MODERATE Files converted from DGN to DWG are not appropriately mapping Bentley levels to new Civil3D layer names for Hydraulics data.	In Civil 3D the layer translator tool is found under the Manage tab in the CAD standard panel. (The Layer translator allows you to quickly and easily map the layer that you are bringing in from an outside source and then give it all the properties that you are accustomed to in your layers.) We have taken the custom data from the Bentley workspace regarding Hydraulics and developed a layer translator that maps targeted levels appropriately to the Civil 3D layers.	C:\mdoh\StateKit\Civil 3D\2022\Tools\Layer Translators\MDT Hydraulics.dws (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	Bentley Layer Translator-R/W & Environmental Priority: HIGH / Complexity: SIMPLE Files converted from DGN to DWG are not appropriately mapping Bentley levels to new Civil 3D layer names for R/W and Environmental data.	In Civil 3D the layer translator tool is found under the Manage tab in the CAD standard panel. (The Layer translator allows you to quickly and easily map the layer that you are bringing in from an outside source and then give it all the properties that you are accustomed to in your layers.) We have taken the custom data from the Bentley workspace regarding R/W and Environmental and developed a layer translator that maps this data appropriately to the Civil 3D layer.	C:\mdoh\StateKit\Civil 3D\2022\Tools\Layer Translators\MDT Environmental.dws (updated) C:\mdoh\StateKit\Civil 3D\2022\Tools\Layer Translators\MDT RightofWay.dws (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Block and Layout Edits for Control and Lin&LevData Layouts Priority: MEDIUM / Complexity: MODERATE Linear data needs to be removed from the N-LinearAndLevelData block.	1. Remove Linear Data from N-LinearAndLevelData block so that only Bearing Source and Level Datum Source remain, then change the block name to N-LevelData. 2. Add N-LevelData block to _MDT-Sheet-Ref.dwt. 3. Add new N-LevelData block to RD-Control-Diagram Layout within _Road-Layouts.dwt. 4. Delete one RD-Lin&LevData and rename the remaining RD-Lin&LevData to RD-Notes-Misc from _Road-Layouts.dwt. 5. Delete line for Linear & Level Data in N-TOC-Urban and N-TOC-Rural blocks. Move "& Level Data" to Control Diagram line so that it reads as "CONTROL DIAGRAM & LEVEL DATA."	C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _Road-Layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Sheet-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-Notes.dwg (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Block Layers and Fonts: RD-XS Priority: LOW / Complexity: COMPLEX Block layers don't follow layer naming convention or use Arial font.	RD-XS blocks were renamed and updated to use layer 0 and applicable color and linetype. All fonts were updated to use supported Arial text styles. Blocks applied for cross section marker styles were relocated to _MDT-General-Ref.dwt and those applied for cross section point styles were relocated to _MDT-Point-Ref.dwt.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-PointSurvParc-Ref.dwt (new) (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) (updated) C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-XS.dwg (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Code Sets-Cross Section Display Priority: HIGH / Complexity: MODERATE Code Set Styles are needed to support cross section display.	Updated cross section code set style with new naming. Updated marker and link label style naming and new subgrade elevation marker label style to support section view offset/elevation and slope labeling.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Code Sets-Design Display Priority: HIGH / Complexity: MODERATE Code Set Styles are needed to support design display processes.	Build out template for each potential breakline in a subassembly, assign a style with each associated breakline. "MDT-Corridor-Design" code set style created and set as default.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\survey-start.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	Code Sets-Plan Display Priority: HIGH / Complexity: MODERATE Code Set Styles are needed to support plan display processes.	Code Set Styles created: MDT-Corridor-Plan and MDT-Corridor-Const Limits	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Cross Section Blocks/Feature Line Styles Priority: MEDIUM / Complexity: MODERATE The cross section blocks and utility feature line styles are not in the state kit.	1. Cross section linear feature marker blocks are relocated to _MDT-General-Ref.dwt and applied within marker styles for all existing features requiring cross section identification including utility features. This supports projection of survey figures and 3D polylines. 2. Feature line styles with section marker styles applied are developed to support projection of features. Cross section point feature blocks are relocated to _MDT-PointSurvParc-Ref.dwt with *_XS point styles for projection of cogo points on cross sections. 3. Select blocks remain within block library RD-XS.dwg for use on cross sections.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-PointSurvParc-Ref.dwt (new) (updated) C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-XS.dwg (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Cross section subgrade labels at critical points Priority: MEDIUM / Complexity: SIMPLE Elevation/offset labels for subgrade points on the cross sections are desired.	MDT-Elevation Offset label style was assigned for the EPS_Base and MDT-Subgrade Elevation for the Crown_Base points with new MDT-X Section code set style.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new)	
2022.2.2	State Kit (v1.22)	08/29/23	Drawing Settings Abbreviations Priority: MEDIUM / Complexity: SIMPLE Drawing Settings Abbreviations need to be customized for MDT standards.	Drawing Settings Abbreviations reviewed and updated for Alignment Beginning (BOA), Alignment End (EOA), Left (LT), and Right (RT). Further updates will be reviewed as required.	C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\survey-start.dwt (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Grading Criteria Sets Priority: LOW / Complexity: SIMPLE Excessive Standard grading criteria exist in the MDT Basic Set grading criteria set within the state kit.	The numerous Standard grading criteria were purged from each reference template and dwg source file.	C:\mdoh\StateKit\Civil 3D\2022\Templates\ Start-Dwg\ *.* (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ *.* (updated) C:\mdoh\StateKit\Civil 3D\2022\Annotation\ *.* (updated) C:\mdoh\StateKit\Civil 3D\2022\Blocks\ *.* (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\ *.* (updated) C:\mdoh\StateKit\Civil 3D\2022\Linetypes\ *.* (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	GuideSIGN and Geotechnical Modeler Tools Priority: HIGH / Complexity: MODERATE GuideSIGN and Geotechnical Modeler ribbon tabs aren't present or disappear following state kit update.	MDT Civil 3D profile was recreated with GuideSIGN, AutoTURN, and Geotechnical Modeler installed and activated.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Resource\MDT_2022.arg (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	MDT C3D Styles Coordination-Profile Styles Priority: HIGH / Complexity: MODERATE Need Profile Styles for cross sections to support MDT processes.	Profile and corresponding styles updated with new naming and additional profile options - curb flow line, edge of pavement, top back of curb. Revised profile label sets correcting vertical curve data drag states.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-AlnProfSuper-Ref.dwt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	MDT C3D Styles Coordination-Section and Section View Styles/Command Settings Priority: HIGH / Complexity: MODERATE Need Section and Section View Styles for cross sections to support MDT processes.	1. Sample Line and corresponding styles updated with new naming. 2. Section and corresponding styles updated with new naming. 3. New section view and corresponding styles developed supporting 70' offset width for 1"=10' scale and 140' offset width for 1"=20' scale. 4. New styles have MDT- prefix. Previous styles were removed. 5. Layout MDT_XS_40 for 1"=40' cross sections will not be supported at this time and was deleted. 6. Layer updates to add C-ROAD-CLZN and delete C-XSEC-CLZN, C-XSEC-FLAG, C-XSEC-STRM, C-XSEC-STRM-E, C-XSEC-UTIL, C-XSEC-SSWR, C-XSEC-CLVT, and C-XSEC-CLVT-E. 7. Layout template file path updated to C:\MDOH\StateKit\Civil 3D\2022\Templates\Sheets\XS-layouts.dwt|MDT_XS_20. Updated command settings are expected to save with project drawing files and need to be manually updated for use with these updated styles in drawings created prior to this update.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-SampSectMass-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-PointSurvParc-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Point-Ref.dwt (deleted) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\XS-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-XS.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\layers.dwg (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\Layers.xlsx (updated) C:\mdoh\StateKit\Civil 3D\2022\Layers\MDT All Layers (Standard).las (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Resource\MDT_2022.arg	
2022.2.2	State Kit (v1.22)	08/29/23	Microsoft .NET Core 3.1 Security Issue Priority: HIGH / Complexity: MODERATE Microsoft .NET Core 3.1 component removed to address security issues. System variables require changes to support blocks palette functionality and background publishing. Microsoft .NET Core 3.1 Security Issue cont.	It was determined that changing these system variables globally in the State Kit might have a negative effect on external consultant machines. It was also determined that issues between MDT security requirements and consultant default settings might arise in the future. So a mechanism was devised for the State Kit to run different blocks of startup code depending on	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Settings.VLX (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Move State Kit content out of Autodesk default locations (Part 1) Priority: LOW / Complexity: MODERATE Consider consultant's installation/config to avoid stomping on any files or moving default Autodesk files or folders. Candidates for moving: 1) Layer Standards/Translators, 2) Temp files	1. MDT Layer Standards/Translators to: C:\MDOH\StateKit\Civil 3D\2022\Tools\Layer Translators 2. Temp to: C:\MDOH\StateKit\Civil 3D\Temp. Edit MDTStatekit.txt to add folder from updater. Create tool to delete temp files. Add/Edit filepaths in the <<MDT>> profile.	C:\MDOH\StateKit\Civil 3D\2022\Tools\Layer Translators C:\MDOH\StateKit\Civil 3D\Temp (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Tools.VLX (updated) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\Tools\cleartemp.bat (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Resource\MDT_2022.arg (updated) C:\MDOH\StateKit\Civil 3D\2022\Tools\Clear Temp Files.lnk (new) C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDTStatekit.txt (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	Multiple County Default Sheet Set Template and Properties and Names in the Border (Checked/Reviewed/Designed By Block Size) Priority: LOW / Complexity: MODERATE Sheet Set Manager doesn't allow for county to be displayed differently on each sheet when multiple counties apply. MDT Border doesn't allow for any characters more than an individual's initials to represent the designer/reviewer/checker.	1. Listing multiple counties in the border on each sheet is advised where appropriate. Otherwise, values can be manually changed in the new border overriding the sheet set manager to apply a unique entry on each sheet. 2. Update MDT title block/border to fit majority of first initial and last names. Change the order of the fields to the following:DESIGNED BYREVIEWED BYCHECKED BY 3. Apply title block edits within _MDT-Sheet-Ref.dwt. 4. Consume changes within all applicable layout sheet template files. (All sheet files except RightOfWay-Layouts.dwt, Standard-Detail-Layouts.dwt, Survey-Layouts.dwt, and PageSetups-ref.dwt.) 5. Users may need to attribute sync and update already-created files with new block to avoid conflicting border styles in a plan set. Review support guide "MDT Title Block Names and Dates Update". Set the following system variables in startup routine: AeccRefTemplateAutoUpdate 2 CMDDIA 1 FILEDIA 1 SECURELOAD 0 APPAUTOLOAD 14 LARGEOBJECTSUPPORT 1 PICKFIRST 1 PSTYLEPOLICY 1 RECOVERYMODE 0 XREFNOTIFY 1 XREFTYPE 1 ANNOAUTOSCALE 4 COORDS 1 Set the following drawing variables in startup routine: UCSFOLLOW 0 MSLTSCALE 1 PLINEGEN 1 PROXYGRAPHICS 1 PROXYSHOW 1 PROXYNOTICE 1 PDFSHX 0	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\Content\MDT2022Settings.VLX (updated)	

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.22)	08/29/23	R/W Exhibit Legend Tract Conveyed Shade Priority: LOW / Complexity: SIMPLE The RW-Legend-Exhibit block in the lower right corner of the r/w exhibits sheets, has a grayscale block for the "Tract Conveyed" that plots black.	Shading for RW-Legend-Exhibit block was updated from color 8 to color 252 to plot grey rather than black.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Sheet-Ref.dwt C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _RightOfWay-Layouts.dwt	
2022.2.2	State Kit (v1.22)	08/29/23	R/W Sheet Layout Viewport Clip Lines Priority: MEDIUM / Complexity: MODERATE R/W sheets view port area doesn't allow for space to include sheet notes.	Viewport added to Sheets_RightOfWay-Layouts.dwt with narrowed limits allowing space above and below view port for notes to be added in the sheet layout. MDT_PlanRW* layouts removed from Pln-layouts.dwt.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\Pln-layouts.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _RightOfWay-Layouts.dwt (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	RD Title Surfacing Source Note Priority: MEDIUM / Complexity: SIMPLE Surfacing source note missing from title sheet layout.	Add Surfacing Source note to title sheet.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets\ _Road-Layouts.dwt (updated)	
2022.2.2	State Kit (v1.22)	08/29/23	Reduce user confusion when selecting Civil 3D styles Priority: HIGH / Complexity: SIMPLE Need to reduce user confusion when selecting Civil 3D styles: 1. Need to be able to identify which specific Civil 3D styles are used for MDT processes. 2. Need to remove unnecessary styles 3. Need to set default styles where possible 4. Need to make sure unnecessary styles are not "leaking through" the reference templates to the group templates	The following updates were made to all "styles" reference templates: 1. Create new reference templates and delete _MDT-Full-Ref.dwt to facilitate intended style referencing. 2. Rename 2022 developed styles with MDT prefix to identify styles created for MDT processes. 3. Leave undeveloped styles from 2021 intact to identify what still needs to be reviewed. 4. Delete all "Basic" and "MDT Standard" styles. 5. Rename all reference template "Standard" styles to "MDT-Default" and set to default where "MDT" styles DO NOT exist. 6. Where "MDT" styles DO exist, set an appropriate "MDT" style to default. 7. Exclude all "Standard" styles (where possible) from referencing through the templates. 8. Set reference template defaults to avoid bringing unwanted styles forward (where possible).	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-AlnProfSuper-Ref.dwt (updated) C:\MDOH\StateKit\Civil 3D\2022\Linetypes\DGNlinetypes.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-ObjectLayers-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Surface-Ref.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\survey-group.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\design-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\ _Start-Dwg\survey-start.dwt (updated) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Full-Ref.dwt (deleted) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Point-Ref.dwt (deleted) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Drainage-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-General-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-Modeling-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-PointSurvParc-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-QTO-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-SampSectMass-Ref.dwt (new) C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\ _MDT-ViewFrame-Ref.dwt (new)	
2022.2.2	State Kit (v1.22)	08/29/23	Subassembly Code Labeling Priority: HIGH / Complexity: SIMPLE A method to identify subassembly codes is needed.	_MDT-Subassembly All Codes code set style and corresponding label styles developed to display subassemblies with point, link, and shape code name labels. 2022.2.2	State Kit (v1.21)	04/21/23	Alignment Coordinate Table (Centerline Coordinate Table) Priority: HIGH / Complexity: SIMPLE Alignment table style needed for centerline alignment coordinate table.	Project explorer alignment settings and coordinate table files were developed to support creation of an alignment table with curve descriptions.	C:\mdoh\StateKit\Civil 3D\2022\Tools\Project Explorer\MDT Alignments.xmpt	New File
					C:\mdoh\StateKit\Civil 3D\2022\Tools\Project Explorer\MDT Alignments.xmpa	New File
2022.2.2	State Kit (v1.21)	04/21/23	Apparent R/W Plan Notes Priority: HIGH / Complexity: SIMPLE A new process for apparent r/w requires notes on r/w and road plan sheets.	Block RW-EXRWNote created for placement on r/w plan sheets and N-ApparentRW block created for placement on road plan notes sheet. Block RW-EXRWNote added to RW-Title, RW-Plan, RW-Ownership, and RW-Exhibit layouts.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-Notes.dwg	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_RightOfWay-Layouts.dwt	Updated
2022.2.2	State Kit (v1.21)	04/21/23	Blank Start Template Layout Name Priority: LOW / Complexity: SIMPLE A layout must exist in every file. It isn't clear that "Layout1" can be deleted from a project design file if additional layouts are added.	"Layout1" was renamed to "MDT-TMP" (Montana Department of Transportation-Temporary).	C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\design-start.dwt	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\survey-start.dwt	Updated

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.21)	04/21/23	Block Drawings Insertion Units Value (Block Library INSUNITS) Priority: HIGH / Complexity: SIMPLE Drawing insertion units value is set to feet in EL-Plan, HY-Details, RD-Notes, RD-Typicals, RD-XS, and RW-Plan block libraries.	Update -block drawings to be INSUNITS = 0	C:\MDOH\StateKit\Civil 3D\2022\Blocks\EL-Plan.dwg	Updated
					C:\MDOH\StateKit\Civil 3D\2022\Blocks\HY-Details.dwg	Updated
					C:\MDOH\StateKit\Civil 3D\2022\Blocks\RD-Notes.dwg	Updated
					C:\MDOH\StateKit\Civil 3D\2022\Blocks\RD-Typicals.dwg	Updated
					C:\MDOH\StateKit\Civil 3D\2022\Blocks\RD-XS.dwg	Updated
					C:\MDOH\StateKit\Civil 3D\2022\Blocks\RW-Plan.dwg	Updated
2022.2.2	State Kit (v1.21)	04/21/23	Bundle README file Priority: HIGH / Complexity: SIMPLE MDTSK2022.bundle folder is increasing in number of files and complexity. There is a need to add a "read me" file to the Package Contents.	Created README.md file for MDTSK2022.bundle folder.	C:\ProgramData\Autodesk\ApplicationPlugins\MDTSK2022.bundle\ README.md	New File
2022.2.2	State Kit (v1.21)	04/21/23	Change default layer for Corridor from 0 to C-CRDR Priority: MEDIUM / Complexity: SIMPLE Corridors currently default to layer 0 when creating them or creating data references to one.	Layer C-CRDR with -* suffix was added as the object layer for the Corridor object.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-ObjectLayers-Ref.dwt	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\design-start.dwt	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\survey-start.dwt	Updated
2022.2.2	State Kit (v1.21)	04/21/23	Colors 7, 8, 9 Plotting Priority: MEDIUM / Complexity: SIMPLE Colors 7, 8, and 9 are plotting with color as displayed instead of black, inconsistent with the other primary colors.	MDT - Standard.ctb was updated to plot colors 7, 8, and 9 as black.	C:\mdoh\StateKit\Civil 3D\2022\Plotting\Plot Styles\MDT - Standard.ctb	Updated
2022.2.2	State Kit (v1.21)	04/21/23	Control Point Layers/Label Style Priority: HIGH / Complexity: SIMPLE Control points need to be used to develop the control traverse without text displayed.	Label style for Control points created. The new label style MDT Point-Survey (Control) has been added.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Point-Ref.dwt	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\survey-group.dwt	Updated

2022.2.2	State Kit (v1.21)	04/21/23	R/W Layout Updates Priority: MEDIUM / Complexity: MODERATE R/W sheet layouts need additional standard data added or made available to add.	State plane coordinate, r/w retracement, access control, and ASCII files note blocks created. State plane coordinates, r/w retracement, access control, ASCII files, plan/exhibit sheet notes, exhibit legend, exhibit stamp, and exhibit parcel/sheet notes added to layouts. FHWA/MDT Approval fields added for all layouts. R/W-Exhibit-Railroad-Title layout added.		Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt	
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_RightOfWay-Layouts.dwt	Updated

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
				Construction limit cut/fill line styles added to the legend and project length added to the title sheet project information.		
2022.2.2	State Kit (v1.21)	04/21/23	RD Notes Layout Blocks Priority: MEDIUM RD-Notes.dwg block library doesn't contain all notes blocks.	The additional road plan notes blocks have been added to the block library RD-Notes.dwg and notes blocks updated to use layer GS-NOTE and GS-TITL, as appropriate. Block insertion points were edited to facilitate consistent placement on the RD-Notes layout using the node object snap or alternate object snaps. New layer GS-ANNO was added to facilitate future needs and GS-TITL description was updated to better reflect it's use.	C:\mdoh\StateKit\Civil 3D\2022\Blocks\RD-Notes.dwg	Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Road-Layouts.dwt	Updated

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
			files for thumbnails and icons. . When palette tools are created, four thumbnail images (small and large versions for both dark and light UI interfaces) are created for each tool. Creating custom icons for tools also adds to the overall quantity of image files.It is likely that the State Kit could end up with a collection of thousands of images over time. Current Autodesk/State Kit folder structure stores these images in several locations making them difficult to maintain. This can lead to duplicates and unnecessary files. The large quantity of images can lead to slower loading, startup, and installation time.	folder.		
2022.2.2	State Kit (v1.21)	04/21/23	Tool Palette Resources Priority: MEDIUM / Complexity: SIMPLE Tool Palette resources are not complete. Links need to be updated on MDT Content Tool Palette tab.	Add links to MDT Content Tool Palette tab.	C:\MDOH\StateKit\Civil 3D\2022\Toolpalette\Subassemblies\Palettes\10_MDT Content.atc	Updated
2022.2.2	State Kit (v1.21)	04/21/23	Typical Layout Border State Priority: MEDIUM / Complexity: SIMPLE Horizontal split is required for typical sheets.	Set "Split Horizontal" visibility state in RD-Typical template.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_MDT-RoadLayouts.dwt	Updated
2022.2.2	State Kit (v1.21)	04/21/23	Utility Label Styles Priority: MEDIUM / Complexity: SIMPLE Label style is needed for annotating utilities.	Alignment station offset label style "MDT UTIL-Station and Offset" developed.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-AlnProf-ref.dwt C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\design-group.dwt C:\mdoh\StateKit\Civil 3D\2022\Templates_Start-Dwg\design-start.dwt	Updated Updated Updated
2022.2.2	State Kit (v1.21)	04/21/23	Utility Plan Title Sheet Legend Priority: HIGH / Complexity: SIMPLE Utility plan title sheet legend requires utility features to be included.	Block RW-Legend-Plan updated, UT-Legend-Plan created and updated/located in RW-Title and UT-Title layouts. Also removed the engineer seal from UT-Title layouts.	C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_RightOfWay-Layouts.dwt C:\mdoh\StateKit\Civil 3D\2022\Templates\Sheets_Utilities-Layouts.dwt	Updated Updated Updated

MDT Civil 3D State Kit Updates

Civil 3D Version	Component (Version)	Date	Issue	Solution	Files and Directories	Remarks
2022.2.2	State Kit (v1.21)	04/21/23	Viewport Layer No Plot Priority: HIGH / Complexity: SIMPLE View port frames are plotted.	Layers GS-VFRM and GS-VPRT were updated to not be plottable.		Updated
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference\MDT-ObjectLayers.dwt	
					C:\mdoh\StateKit\Civil 3D\2022\Templates\Reference_MDT-Sheet-Ref.dwt	Updated
