INSTRUCTIONS TO USE TRAFFIC COUNT DATABASE SYSTEM (TCDS)

Note:
1. If you are using Internet Explorer 8, click Tools, and then click Compatibility View Settings; Check the box that says Display all Websites in Compatibility View, to access the TCDS Site.
2. This website is under construction. The data may be missing at certain locations and for certain periods.

Search by Count Location in Quick Search
Use the following steps to retrieve traffic data from TCDS:

1. Open TCDS website or http://mdt.ms2soft.com/tcds/

2. If you don’t know the Location ID of the traffic count site you are interested in, use the map on the right to locate it. You can use the Locate search bar, the Plus and Minus Icons displayed in the map, and/or your cursor, to pan, to locate and obtain site information. Click on an icon and a pop-up box will open to show you the Local ID of the traffic count site. You can also use the Tools/TCDS/TCDS Locations dropdown to help narrow down your search.

3. Get the Local, or Location, ID by clicking on the TCDS Location icons displayed in the map.
