HOUSE BILL NO. 145

As Enacted by the Eighth Legislative Assembly of the State of Montana

Section 54. Any ten, or a majority, of the freeholders of a road district, taxable therein for road purposes, may petition in writing the board of county commissioners to alter or discontinue any highway or to lay out a new highway therein. When a highway is petitioned for upon the dividing line between two counties, the same course must be pursued as in other cases, except that a copy of the petition must be presented to the board of county commissioners of each county, who must appoint viewers to act jointly, and report to their respective boards the action of such viewers.

Section 55. The petition must set forth and describe particularly the highway to be abandoned, discontinued, altered or constructed, and if the same is to be altered, laid out or constructed, the general route thereof, over what lands, who are the owners thereof, whether such of them as can be found consent thereto, and if not the probable cost of the right of way where such consent is not had, the necessity for, and advantages of the proposed road.

Section 58. The road viewers must be disinterested citizens of the county, but not petitioners.

Section 73. Highways must be laid out and opened when practicable upon subdivision or section lines; provided, however, that the section shall not be construed to prevent roads being laid out on diagonal lines when public purposes shall be best subserved thereby.

Section 74. Upon a petition for that purpose by a majority of the freeholders or the owners residing upon any highway, when it can be done without material damage, the board of county commissioners may change such highway to subdivision or section lines and lay out and open the same thereon; provided, however, that those interested in making such change must bear all the expense and cost thereof.
