GETTING STARTED WITH AASHTOWARE CIVIL RIGHTS & LABOR™ (CRL)
AASHTOWare CRL is a web-based system that accepts contractor and subcontractor required certified payroll information allowing for verification of compliance with federal and state laws and regulations.

The system processes contractors' payrolls against the appropriate wage decision allowing for increased accuracy and timeliness.

AASHTOWare CRL software can import data from an XML file, eliminating the need to manually key it in.

Although users can manually enter the data into the system, there can be quite a lot of it, and many firms use software systems that contain most or all of what is needed already.
