

PROPOSED DRAFT
June 2016

603.04.3 Granular Bedding, Bedding, and Foundation Material

Bedding material is measured by the cubic yard (m³) in place for pipes greater than 48-inch (1.2 m) diameter, and for all sizes of storm drain trunklines and laterals. Include the cost of bedding material for pipes 48-inch (1.2 m) diameter or less in the cost of the pipe. Foundation material is measured by the cubic yard (m³) in place.

Deleted: M

701.04.3 Granular Bedding Material

Furnish granular bedding material in accordance with either of the following:

1. Table 701-4 No.2; or
2. ¾-inch material in accordance with Table 701-16, but only that which is retained on the No 4 sieve or larger.

Deleted: **603.04.5 Granular Bedding Material for Storm Drains¶**
Granular Bedding material is measured by the cubic yard (m³) in place for storm drain trunklines and laterals

Deleted: Table

Deleted: 701-4 No. 2.

REASON: Allow the course material from plant mix crushing operations as well as coarse concrete aggregate. Material may be more readily available in certain areas.
