

MONTANA DEPARTMENT OF TRANSPORTATION  
CONSTRUCTION MANAGER / GENERAL CONTRACTING SERVICES

**Attachment A: PRICE PROPOSAL - CM/GC Construction Phase Multiplier Form**

**Date:** February 15, 2024  
**Project Information:** US 93 N – Post Creek Hill  
NH 5-2(159)37  
UPN 8008000  
Call No. 403

This completed Construction Phase Multiplier Form will be included as Appendix A to the Proposal and must be submitted in a separately sealed envelope with the following label and information:

- Appendix A: CM/GC Construction Phase Multiplier
- Proposer’s identifying information
- Project identifying information

The Construction Phase Multiplier is defined as: a fee for the work expressed as a percentage of the total construction cost. The Construction Phase Multiplier includes the Contractor’s profit and the portion of home office overhead (G&A: General and Administrative Costs) allocated to the project. The fixed fee percentage will be used in project estimates and GMP proposals. The multiplier is identified as a percentage and carried out to two (2) decimal points (e.g., 00.00%). Review Section IV part D of the RFP for the Evaluation Criteria for the Construction Phase Multiplier.
