INTRODUCTION

The Montana Motor Carrier Services Division has produced this "Getting Started" booklet for the benefit of those motor carriers who recently received their authorization to operate (their DOT number) or have their DOT number but have not received education in the transportation safety regulations pertaining to their motor carrier operations.

Our overall goal is to improve the safe transportation of passengers and goods on the State's highways, through a coordinated effort of Federal, State, and industry organizations to reduce fatalities, injuries, property damage and hazardous materials incidents. This is accomplished through the main MCSAP office located in Helena, Montana, supported by six field offices:

 Billings:
 (406) 255-0120 / 255-0121
 Bozeman/Butte:
 (406) 498-5785

 Great Falls:
 (406) 455-8326
 Helena:
 (406) 444-3300

 Kalispell:
 (406) 751-2051
 Eastern Montana:
 (406) 233-3625

Missoula: (406) 523-2689 / 523-5850

Each section contains information sheets covering highlights of the regulations. Please feel free to reproduce any or all material in this booklet and to distribute copies as needed.

It is the responsibility of motor carrier operators and drivers to know and comply with all applicable Federal Motor Carrier Safety Regulations (FMCSR). Safety compliance and safe operations translate into saved lives and property. We believe the information in this booklet, when effectively applied, will get you started on the road to compliance with the FMCSR and will contribute to safer motor carrier operations and highways.

Disclaimer

The purpose of this booklet is to provide the information and forms a motor carrier, residing in Montana, needs to get started in their quest to become compliant with the Motor Carrier Safety Regulations. This booklet is not intended to take the place of published Federal agency regulations. It only paraphrases the Federal Motor Carrier Safety Regulations published in Title 49 of the U.S. Code of Federal Regulations. The contents of this booklet may not be relied upon as a substitute for the official text. The regulations issued by the U.S. Department of Transportation and its Operating Administrations are published in the Federal Register and compiled in the U.S. Code of Federal Regulations (CFR). Copies of appropriate volumes of the CFR in book format may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, telephone#: (202) 512-1800 or at https://www.govinfo.gov/help/cfr

Montana Department of Transportation Motor Carrier Services Division 2701 Prospect Avenue PO Box 4639 Helena, MT 59604-4639 (406) 444-3300

HOW TO USE THIS BOOKLET

For your information, we have defined motor carrier operations for Interstate and Intrastate Carriers.

INTERSTATE:

Do you, the motor carrier, have a motor vehicle or a combination of motor vehicles which cross state lines (Interstate) and:

- Has a gross vehicle weight rating or gross combination weight rating of 10,001 pounds or more, whichever is greater; or
- Is designed or used to transport more than 8 passengers in interstate (including the driver) for compensation; or
- Is designed or used to transport more than 15 passengers, including the driver, and not for compensation; or
- Is used in transporting material found by the Secretary of Transportation to be hazardous in a quantity requiring placarding? Please refer the link below-

https://www.fmcsa.dot.gov/regulations/hazardous-materials/hazardous-materials-markings-labeling-and-placarding-guide-dot-chart

Interstate Federal Regulations can be accessed at: www.fmcsa.dot.gov

INTRASTATE:

Do you, the motor carrier, have a motor vehicle or a combination of motor vehicles which is Montana commerce **only** (Intrastate) and:

- Has a gross combination weight rating of 26,001 pounds or more and that is not a farm vehicle operating solely in Montana; or
- Is designed or used to transport at least 16 passengers, including driver, not for compensation; or
- Is designed or used to transport at least 9 passengers, including the driver, for compensation; or
- Is of any size and used to transport hazardous materials of a type or quantity that requires the vehicle to be marked or placarded in accordance with federal hazardous materials regulations in 49 CFR, part 172?

SECTION ONE

Part 387	Minimum Levels of Financial Responsibilities (Insurance Requirements)
Part 390	General
Part 391	Driver Qualification
Part 392	Driving of Commercial Motor Vehicles
Part 395	Hours of Service
Part 396	Maintenance
Title 49 CFR	Hazardous Materials Regulations

Financial Liability Requirements Insurance Limits 49 CFR 387 and MCA 61-1-103

Financial responsibility means having insurance policies or surety bonds sufficient to satisfy the minimum public liability requirements. Public liability means liability for bodily injury, property damage and environmental restoration. Environmental restoration means restitution for the loss, damage or destruction of natural resources arising out of an accidental discharge of toxic or other environmentally harmful materials or liquids.

Requirements for Financial Responsibility

Every motor carrier of property and for-hire carrier of passengers operating commercial motor vehicles in intrastate, interstate and foreign commerce must have a minimum level of insurance coverage.

Proof

The motor carrier must have proof of the minimum level of liability insurance at the carrier's principle place of business. All vehicles operated by the motor carrier must have a current insurance card (or policy) carried in the power unit.

Proof may be shown by any of the following:

- Endorsement(s) for Motor Carrier Policies of Insurance of Public Liability under Sections 29 and 30 of the Motor Carrier Act of 1980 (Form MCS-90 issued by an insurer(s);
- A Motor Carrier Surety Bond for Public Liability under Section 30 of the Motor Carrier Act of 1980 (Form MCS-82) issued by a surety;
- A written decision, order or authorization of the Federal Motor Carrier Safety Administration authorizing a motor carrier to self-insure under CFR 387.309, provided the motor carrier maintains a satisfactory safety rating as determined by the Federal Highway Administration under part CFR 385;
- Endorsement(s) for Motor Carrier of Passengers Policies of Insurance for Public Liability under Section 18 of the Bus Regulatory Reform Act of 1982 (Form MCS-90B) issued by an insurer(s) or
- Montana certificate of self-insurance.

Montana Code Annotated

61-6-103. Insurance for intrastate, non-hazmat, private property carriers: \$25,000 because of bodily injury or death of one person; \$50,000 because of bodily injury to or death of two or more persons; \$20,000 because of injury or property damage.

Financial Liability Requirements Insurance Limits 49 CFR 387 and MCA 61-1-103

Interstate Bodily & Property

For-hire carrier, non-hazardous material

Minimum: \$750,000

Damage Liability Insurance

For-hire or Private, any amount of Hazardous Material as defined in 49 CFR 171.8 and listed in 172.101 Table of Hazardous Materials

Minimum: \$1,000,000

Hazardous Material For-hire or Private property carriers of bulk (3,500 water gal) of hazardous oil, hazardous waste or hazardous substances as defined in 49 CFR 171.8 and listed in 172.101 Table of Hazardous Materials **Minimum: \$1,000,000**

For-hire or Private, hazardous materials in bulk (3,500 water gal) or listed in 49 CFR 172.504(e), Table 1 **Minimum: \$5,000,000**

For-hire or Private, Oil listed in 49 CFR 172.101; hazardous waste and hazardous substances as defined in 49 CFR 171.8 and listed in 172.101 Table of Hazardous Materials

Minimum: \$1,000,000

Intrastate Bodily
Injury & Property
Damage Liability
Insurance

For-hire or Private property carrier of non-hazardous materials must meet the minimum requirements of 61-6-103 of the Montana Code Annotated.

For-hire or private property carriers of non-bulk hazardous materials, except those listed in 49 CFR 172.504(e), Table 1, must meet the minimum requirements of 61-6-103 of the Montana Code Annotated.

Interstate For-hire Carrier of Passengers Requirements Seating capacity of 15 passengers or less
Seating capacity of 16 passengers or more

Minimum: \$1,500,000

Minimum: \$5,000,000

Tow Truck Operators Requirements Class A Tow Truck-minimum manufacturer's boom or combined boom rating of 4 tons and must be mounted on a truck chassis with a minimum manufacturer's rating of 10,000 lbs. GVW

Minimum: \$300,000

Class B Tow Truck-minimum manufacturer's boom or combined boom rating of 8 tons and must be mounted on a truck chassis with a minimum manufacturer's rating of 18,000 lbs. GVW

Minimum: \$500,000

Class C Tow Truck-minimum manufacturer's boom or combined boom rating of 16 tons and must be mounted on a chassis that has a minimum manufacturer's rating of 32,000 lbs. GVW

Minimum: \$750,000

SCHEDULE OF LIMITS - PUBLIC LIABILITY

Type of carriage	Commodity transported	January 1, 1985
(1) For-hire (in interstate or foreign commerce, with a gross vehicle weight rating of 10,001 or more pounds).	Property (nonhazardous)	\$750,000
(2) For-hire and Private (in interstate, foreign, or intrastate commerce, with a gross vehicle weight rating of 10,001 or more pounds).	Hazardous substances, as defined in 49 CFR 171.8, transported in cargo tanks, portable tanks, or hopper-type vehicles with capacities in excess of 3,500 water gallons; or in bulk Division 1.1, 1.2, and 1.3 materials, Division 2.3, Hazard Zone A, or Division 6.1, Packing Group I, Hazard Zone A material; in bulk Division 2.1 or 2.2; or highway route controlled quantities of a Class 7 material, as defined in 49 CFR 173.403.	\$5,000,000
(3) For-hire and Private (in interstate or foreign commerce, in any quantity; or in intrastate commerce, in bulk only; with a gross vehicle weight rating of 10,001 or more pounds).	Oil listed in 49 CFR 172.101; hazardous waste, hazardous materials, and hazardous substances defined in 49 CFR 171.8 and listed in 49 CFR 172.101, but not mentioned in (2) above or (4) below.	\$1,000,000
(4) For-hire and Private (In interstate or foreign commerce, with a gross vehicle weight rating of less than 10,001 pounds).	Any quantity of Division 1.1, 1.2, or 1.3 material; any quantity of a Division 2.3, Hazard Zone A, or Division 6.1, Packing Group I, Hazard Zone A material; or highway route controlled quantities of a Class 7 material as defined in 49 CFR 173.403.	\$5,000,000

^{*}The schedule of limits shown does not provide coverage. The limits shown in the schedule are for information purposes only.

Title 49 CFR, Part 390 Federal Motor Carrier Safety Regulations; General

General Applicability

The Federal Motor Carrier Safety Regulations (FMCSR) applies to all employers, employees and commercial motor vehicles transporting property or passengers in interstate/intrastate commerce.

Commercial Motor Vehicle

Any self-propelled or towed vehicle used on public highways in interstate/intrastate commerce to transport passengers or property under one of the following conditions:

- Vehicles has gross vehicle weight rating (GVWR) or gross combination weight rating of 10,001 or more pounds, (interstate) or 26,001 or more pounds, (intrastate) or
- Designed or used to transport more than 8 passengers (including the driver) for compensation (interstate / intrastate); or
- Vehicle is designed to transport more than 15 passengers (including the driver) not for compensation or
- Vehicle is used in the transportation of hazardous materials in a quantity requiring placarding under the Hazardous Materials Transportation Act (HMTA) Regulations (interstate *l* intrastate).

Exceptions to General Applicability

Transportation provided by Federal, State, Local or Congressionally approved interstate agencies is exempt from the FMCSR's. Occasional non-commercial transport, school buses, ambulance services, a hearse and fire and rescue vehicle operations are also exempt.

What is an accident?

An occurrence involving a commercial motor vehicle operating on a public road which results in at least one of the following:

- A fatality.
- Bodily injury to a person who, as a result of the injury, immediately receives medical treatment away from the scene of the accident.
- Disabling damage to one or more motor vehicles, requiring the vehicle(s) to be towed or otherwise transported from the scene by a tow truck or other vehicle.

Accident Register

For a period of three years after an accident occurs, motor carriers are required to maintain an accident register containing the following information:

- Date, time, and place of accident
- Driver's name
- Number of injuries and fatalities
- Hazardous materials released if any, (other than fuel).

Motor Carriers are also required to maintain copies of all accident reports required by state or other governmental entities or insures for a period of one year after an accident occurs.

Vehicle Identification

Every commercial motor vehicle operated by a motor carrier in interstate/intrastate commerce must be marked on both sides of the vehicle with the following:

- Name of motor carrier, or trade name
- The motor carrier's identification number proceeded by USDOT for interstate carriers and followed by MT for intrastate carriers.

Title 49 CFR, Part 390 Federal Motor Carrier Safety Regulations; General

Vehicle Identification (continued)

• All markings must be in contrasting colors from the surface they are affixed to and must be visible from 50 feet with the vehicle stationary.

Relief from Regulations During Emergencies

Relief from Parts 390-399 of the FMCSR's may be granted during declared emergencies to any motor carrier who provides emergency assistance. See definitions for applicability https://www.ecfr.gov/cgi-bin/retrieveECFR?gp=l&ty=HTML&h=L&mc=true&=PART&n=pt49.5.390#se49.5.390 123

For **Intrastate carriers**, contact the Montana Motor Carrier Safety Assistance Program (MCSAP) at (406) 444-3300. A.R.M.18.8.1502.

For **Interstate carriers**, contact the Montana Federal Motor Carrier Safety Administration (FMCSA) at (406) 449-5304. 49 CFR 390.19.

(This page intentionally left blank)

Title 49 CFR, Part 391 Federal Motor Carrier Safety Regulations; General

Who is subject?

A carrier based in Montana is subject to the rules for driver qualifications if it operates vehicles that are:

- Over 26,000 pounds GVWR operating in commerce (intrastate) or
- Over 10,000 pounds GVWR operating in commerce (interstate) or
- Any size vehicle transporting hazardous material of a type or quantity that requires the vehicle to be placarded or
- Capable of hauling 8-15 or more passengers including the driver.

Requirements

Under Part 391, a driver operating in interstate/intrastate commerce must:

- Be physically qualified under 49 CFR 391.41;
- Be 18 years old for intrastate transportation.
- Be 21 years old for interstate transportation, or when hauling hazardous materials;
- Speak and read English well enough to do the job;
- Have a driver's license that is valid for the type of vehicle driven;
- Be able to drive the vehicle safely;
- Know how to properly load and secure cargo;
- Not be disqualified from driving a commercial motor vehicle.

Medical Requirements ForNon-CDL

A driver is required to have in possession a current valid medical certificate showing that he or she is physically qualified to drive a commercial motor vehicle 10,001 -26,000 lbs. Details for medical examinations are found in 49 CFR, 391.43. U.S.DOT medical certificate forms are available from a registered physician or private sources.

Certificate Renewal

A medical certificate must be renewed every two years. Some medical conditions may require more frequent recertification. Intrastate medical certifications are different than interstate certifications. Contact the Help Desk at: (406) 444-3244 for additional information on intrastate medical certification.

Skills Performance Evaluation (SPE)

Under certain circumstances, a driver may be granted a Skills Performance Evaluation (SPE) from the following physical qualification requirements: vision, insulin-dependent diabetes, deaf and hard of hearing, and limb impairment. An application requesting an SPE for intrastate drivers must be submitted to the Montana Driver's License Division. A request for an SPE for interstate drivers must be submitted to the Division Administrator, FMCSA. The medical examiner's certificate and the SPE document must be carried in the commercial vehicle at all times while being operated.

Driver Qualification File (DQ)

Part 391.51 - A carrier must maintain a driver qualification file for each of its drivers. The file is to be kept at the carrier's principal place of business for as long as the driver is employed by the carrier and for three years after the driver leaves the carrier's employ. Owner operators should note that as the owner/driver you must have a complete driver file.

Title 49 CFR, Part 391 Federal Motor Carrier Safety Regulations; General

New Driver Investigation

Part 391.23- Each carrier shall investigate the drivers within 30 days of the date the driver's employment begins.

- (1) An inquiry, within 30 days of the date the driver's employment begins, to each State where the driver held or holds a motor vehicle operator's license or permit during the preceding 3 years, to obtain that driver's motor vehicle record covering that driver's prior 3-year driving history.
- (2) An investigation of the driver's safety performance history with Department of Transportation regulated employers during the preceding three years.

A Carrier can use the link below to be compliant with the above regulations.

https://www.psp.fmcsa.dot.gov/psp/home

Annual inquiry and review of driving record

A driving record for CDL holders or prospective CDL holders can be obtained on-line: <u>Driving Records - MT Motor Vehicle Division</u>

Two ways to access a Commercial Driving Record on-line:

- "Individuals" requires records to be requested for each individual
- "Businesses" Set up an account as a Register User multiple records can be obtained in a single request

DRIVER QUALIFICATION FILE CHECKLIST

Every motor carrier must have a driver qualification (DQ) file for each regularly employed driver. The file must include the following:

A.	Driver's Application for Employment (49 CFR 391.21). A person will not be allowed to drive a commercial motor vehicle unless he/she has completed and signed an application for employment.
В.	Inquiry to Previous Employers -3- year (49 CFR 391.23(a) (2) & (c), and 391.53). This investigation must be conducted within 30 days of the date that his/her employment begins. Investigations shall include information concerning out-of-service violations, misuse of controlled substance or alcohol and accident history.
C.	Inquiry to State Agencies - 3 years (49 CFR 391.23(a) (1) & (b). The driver's driving record (MVR) for the preceding three years.
D.	Driver's Road Examination and Certificate (49 CFR 391.31). A copy of the license or certificate which the motor carrier accepted as equivalent to the driver's road test pursuant to Section 391.33.
E.	Medical Examiner's Certificate (49CFR 391.43). Driver must be issued a Medical Examiner's Certificate. Drivers of none-CDL CMV drivers must pose card at all times while operating CMV, be renewed every two years. (or before it expires)
F.	Carrier verified Medical Examiner is Registered with National Registry
G.	Annual Review of Driving Record (49 CFR 391.25). At least once every 12 months a motor carrier must review the driving record of each driver.
Н.	Annual Driver's Certificate of Violations (49 CFR 391.27). At least once every 12 months, a motor carrier must require each driver that it employs to prepare and furnish it with a list of all violations of motor vehicle traffic laws and ordinances during the previous 12 months.
Additi	onal required documentation may be maintained in the DQ file:
I. J.	Alcohol and Controlled Substance Test Results (49 CFR 382.401). (These records must be maintained in a confidential and secure location with controlled access) Inquiries for Alcohol and Controlled Substances information from previous employers for 3 years (49 CFR 382.413). This investigation must be made within 30 days of the date that his/her employment begins. (Investigations shall include requirements of CFR Part 40.25).
K.	Full query in the Drug & Alcohol Clearing house

Title 49 CFR, Part 392 Driving of Commercial Motor Vehicles

GENERAL: Every motor carrier, its officers, agents, representatives and employees responsible for the management, maintenance, operations or driving of commercial motor vehicles, or the hiring, supervising, training, assigning or dispatching of drivers shall be instructed and comply with these rules governing the driving of commercial motor vehicles.

Every commercial motor vehicle must be operated in accordance with the laws, ordinances and regulations of the jurisdiction in which it is being operated. However, if a regulation of the Federal Motor Carrier Safety Administration imposes a higher stand of care than that law, ordinance or regulation, the Federal Motor Carrier Safety Administration must be complied with.

All regulations pertaining to ill or fatigues drivers, drugs and other substances, and alcohol prohibitions must be complied with. All drivers must be satisfied the vehicles being operated are in safe condition and all cargo is properly secured. A vehicle providing transportation requiring operating authority must not be operated without securing the proper authority or beyond the scope of that authority.

EQUIPMENT, INSPECTION AND USE: No commercial motor vehicle shall be driven unless the driver is satisfied the following parts and accessories are in good working order, nor shall any driver fail to use or make use of such parts and accessories when needed:

- Service brakes, including trailer brake connections Parking brake
- Steering mechanism Lighting devices and reflectors Tires Horn
- Windshield wiper or wipers• Rear-vision mirror or mirrors• Coupling devices

DRIVING OF VEHICLES: Extreme caution in the operation of a commercial motor vehicle shall be exercised when hazardous conditions, such as those caused by snow, ice, sleet, fog, mist, rain, dust, or smoke, adversely affect visibility or traction. Chains are required to be in use when signs are posted in Montana.

PROHIBITED PRACTICES:

- Written permission from the motor carrier is **required** for passengers to ride on a commercial motor vehicle. This permission must designate the name of the passenger, the points where the transportation is to begin & end and the date upon which such authority expires.
- No loaded bus shall be towed or pushed;
- No driver shall use a radar detector in a commercial motor vehicle or operate a commercial motor vehicle that is equipped with or contains any radar detector.
- No person shall ride within the closed container of a commercial motor vehicle unless there is a means to exit from the inside.
- No motor carrier shall allow or require its drivers to engage in texting while driving.
- No driver shall use a hand-held mobile telephone while driving a CMV.

For additional information go to Subpart A, General:

https://www.ecfr.gov/current/title-49/subtitle-B/chapter-III/subchapter-B/part-392/subpart-A

Title 49 CFR, Part 392 Driving of Commercial Motor Vehicles

Illness or Fatigue

No driver is permitted to operate a motor vehicle when his/her ability and/or alertness is impaired by fatigue, illness, or any other cause that makes it unsafe to begin (or continue) to drive the vehicle.

Drugs

No driver may be on duty and possess, be under the influence of or use:

- Any schedule I drug or other substance listed in Appendix D;
- Any amphetamine or formulation of any amphetamine (including pep pills and bennies).
- Narcotics or derivatives.
- Any other substance that makes driving unsafe.

Alcohol

A driver is forbidden to consume or be under the influences of alcohol within four hours of going on duty, while on duty, or while driving. A driver is forbidden to possess an alcoholic beverage while on duty unless it is a manifested part of the shipment.

Safe Loading

No one may drive or require anyone to drive a commercial motor vehicle unless the cargo is properly loaded and secured.

Railroad Crossing/Stopping

Motor vehicles transporting a placarded hazardous materials and buses transporting passengers are forbidden to cross railroad tracks without first stopping and looking both ways. Additionally, the driver must not shift gears while crossing the tracks.

Seat Belts

A driver must not drive before correctly restraining him/herself, if the vehicle is equipped with seat belt assemblies.

Emergency Signals for Stopped Vehicles

A vehicle stopped upon a highway must activate the vehicle's hazard warning flashers at once. The driver must leave the flashers on until warning devices are activated. The flashers must again be used while the warning devices are being picked up and before the vehicle moves on.

Placement of warning devices

The warning devices must be placed as follows (except where special rules apply):

- One warning device must be placed on the traffic side of the vehicle, within ten feet, in the direction of approaching traffic.
- A second device must be placed facing approaching traffic approximately 100 feet away in the center of the lane or shoulder where the vehicle is stopped.
- The third device must be placed about 100 feet away from the stopped vehicle, in the direction away from approaching traffic.

Radar Detectors

Radar detectors shall not be used by a driver in a commercial vehicle:

- A driver shall not operate any commercial motor vehicle that is equipped with a radar detector.
- Motor carriers shall not require or permit a driver to violate the radar

Title 49 CFR, Part 395 Property Carrying Hours-of-Service

Who is subject to the hours of service rules?

A carrier engaged in commerce within Montana if it is using:

- A vehicle or a vehicle combination with a gross vehicle weight rating over 10,000 lbs.(interstate) or over 26,000 lbs (intrastate);
- Transporting hazardous materials of a type or quantity that requires the vehicle to be placarded.

Definitions

"On duty time" is all time a driver spends performing work, or being ready to work, until being relieved by the carrier of all responsibility. "On duty" time also includes any compensated work performed by the driver for a non-motor carrier entity.

"Driving time" is all time spent at the driving controls of a commercial motor vehicle in operation.

"Off duty" means the driver has been relieved of all responsibilities, not being compensated by the carrier.

"Record of duty status" is the tracking of work hours by means of a graph, grid, log or an Electronic logging device.

"Time record" is a timecard or other record showing the time the driver reports for duty each day, total hours the driver is on duty each day, time the driver is released from duty each day, and total time for preceding days if the driver is used for first time or intermittently. **See Short-haul note.**

A motor carrier may not permit or require a driver to drive after:

11 hours driving time following 10 consecutive hours off duty; being on duty 14 hours following 10 consecutive hours off duty; being on duty 60 hours in a 7-day period; being on duty 70 hours in any period of 8 consecutive days if the carrier operates every day of the week. Any 7 or 8-day period may restart after 34 consecutive hours off duty.

Time spent by a driver in a compensated non-motor carrier position is considered on duty time and must be included in the 14 and 60/70 hour rules. (Example: a part time position delivering pizza.)

Calculation of the 14-hour limit includes all time <u>except</u> any off-duty time of at least 10 consecutive hours or longer or any sleeper-berth time of at least 7 consecutive hours or longer. The driver must show a 30 minute break before the 8th hour of driving.

What record keeping is required?

Electronic logging device is a device or technology that automatically records a driver's driving time and facilitates the accurate recording of the driver's hours of service.

Date &Time

Title 49 CFR, Part 395

Property Carrying Hours-of-Service

What your Electronic logging (ELD) device must record/retain

- Geographic location information which includes Longitude and latitude, Nearby city, compass direction and distance from city.
- Engine hours which includes Engine power up/shut down.
- Vehicle miles
- Driver identification
- Vehicle identification
- Motor Carrier identification
- Driver login/logout.
- Duty status changes which includes Personal use or yard moves
- Certification of driver's daily record.
- 60-minute intervals when the vehicle is in motion.
- Malfunction of diagnostic events.

Carriers can access FMCSA web site to view self-certified Manufactures of ELDs

https://www.fmcsa.dot.gov/hours-service/elds/equipment-registration

Exceptions to ELD

- 150 air-mile radius drivers may continue to use timecards as allowed by 395.1(e)(1).
- 150 air-mile radius non-CDL property drivers may continue to use timecards as allowed by 395.1(e)(2).
- Using paper RODS not more than eight days in any thirty-day period.
- Drive away-tow away operations.
- Driving vehicles manufactured before model year 2000.

Supporting Documents retention

Regulations state carrier must retain documents associated with driver activity each day. The records must be maintained for at least 6 months. The following is a list of the types of documents you must maintain.

- Bills of lading, itineraries, schedules, or equivalent, with origin and destination of each trip.
- Dispatch records, trip records, or equivalent.
- Expense receipts related to on-duty (not driving) periods.
- Electronic mobile communication records.
- Payroll records, settlement sheets, or equivalent

Short-haul operations CDL drivers: (ELD Exception)

Drivers are exempt from electronic logging device if all of the following requirements are met:

- Operates within 150 air-mile radius (172.06 miles) of the normal work reporting location.
- Returns to the same work reporting location and is relieved of duties within 14 hours (over 14 hours requires a logbook entry).

Title 49 CFR, Part 395 Property Carrying Hours-of-Service

Short-haul operations CDL drivers: (ELD Exception) (Continued)

150 air-mile provision for non-CDL drivers (ELD Exception)

- Does not exceed 11 hours driving.
- Ten consecutive hours off duty separate each 14 hours on duty
- Carrier maintains for a period of 6 months, true and accurate time records showing; start and ending times, total hours worked, total time for preceding seven days if driver is used for the first time or intermittently

Non-CDL drivers are exempt from keeping logbooks if all of the following requirements are met:

- Operates within 150 air-mile radius (172.06 miles) of the normal work reporting location.
- Does not exceed 11 hours driving.
- Ten consecutive hours off-duty separate each on duty period.
- Does not drive after the 14th hour of coming on duty 5 days of any period of 7 consecutive days; and
- Carrier maintains for a period of **six months**, true and accurate time records showing: start and ending times, total hours worked, total time for preceding seven days (if driver is used for the first time or intermittently).

A driver may extend the 14-hour rule to 16 hours twice in every 7 consecutive days provided he does not drive after the 16th hour and keeps a log for that day.

Over hours and/or false logs

Drivers found driving in excess of maximum hours or failing to keep a proper record of duty status for current day and 7 prior consecutive days shall be put out of service. A driver that is out of service (OOS) shall not be required or permitted to drive and a driver may not drive a motor vehicle until the driver has hours available.

Rest Period Options The driver may meet the rest requirements using one of the four options described in the table on the following page: Again, a driver must take a 30-minute break before the end of the 8 hours of driving. Drivers can satisfy the 30-minute break with any consecutive 30 total minutes spent in one or more of the following statuses (off-duty, sleeper berth, and/or on-duty not driving).

Title 49 CFR, Part 395 Property Carrying Hours-of-Service

Provisions

	1 .			
Option 1	Off Duty Time	At least 10 consecutive and		
	395.1(g)(1((i)(A)(1)	<u>uninterrupted</u> hours off duty.		
Option 2	Continuous Sleeper	At least 10 consecutive and		
	Berth Provision	uninterrupted hours in the sleeper berth.		
	395.l(g)(l)(i)(A)(l)			
Option 3	Continuous Off	At least 10 consecutive hours sleeper		
	Duty and sleeper	berth and off duty time combined and

DRIVERS TIME RECORD FOR A PROPERTY CARRYING COMMERCIAL DRIVER

Driver's Name (print)	Employee No.	Month	Year

Driver's may prepare this report instead of the "drivers daily log" if the following applies:

- The driver operates within a 150 air-mile radius of the normal work reporting location;
- The driver returns to the work reporting location and is released from work within 12 **consecutive** hours;
- The driver has at least 10 **consecutive** hours off duty separating each 12 hours on duty;
- The driver does not exceed 11 hours maximum driving time following 10 consecutive hours off duty;
- The motor carrier that employs the driver maintains and retains for a period of 6 months accurate and true time records showing:
 - o The time the driver reports for duty each day;
 - o The total number of hours the driver is on duty each day;
 - o The time the driver is released from duty each day; and
 - o The total time for the proceeding 7 days in accordance with Part 395.8(j)(2) for drivers used for the first time or intermittently.

The driver may extend the 14 hour rule to 16 hours 1 day in a 7/8 day period provided he does not drive after the 16th hour of coming on duty and keeps a log for that day. Carriers utilizing this document must not exceed 60/70 hour rule.

Title 49 CFR, Part 395 Passenger Carrying Hours-of-Service

Who is subject to the hours of service rules?

A carrier engaged in commerce within MT if it is using:

- A vehicle or a vehicle combination with a gross vehicle weight rating over 10,000 lbs.(interstate) / over 26,000 lbs.(intrastate).
- A vehicle able to transport 9 or more passengers, including the driver for compensation; (interstate or intrastate);
- A vehicle able to transport 16 or more passengers, including the driver. (interstate or intrastate)

Definitions

"On duty time" is all time a driver spends performing work, or being ready to work, until being relieved by the carrier of all responsibility. "On duty" time also includes any compensated work performed by the driver for a non-motor carrier entity.

"Driving time" is all time spent at the driving controls of a commercial motor vehicle in operation.

"Off duty" means the driver has been relieved of all responsibilities and not being compensated.

"Record of duty status" is the tracking of work hours by means of a graph, grid, log or an Electronic logging device.

"Time record" is a time card or other record showing the time the driver reports for duty each day, total hours the driver is on duty each day, time the driver is released from duty each day, and total time for preceding days if the driver is used for first time or intermittently.

A motor carrier may not permit or require a driver to drive and no driver shall drive after: 10 hours driving time following 8 consecutive hours off-duty; being on duty 15 hours following 8 consecutive hours off duty; being on duty 60 hours in a 7 day period; being on duty 70 hours in any period of 8 consecutive days if the carrier operates every day of the week.

What record keeping is required?

Electronic logging device a device or technology that automatically records a driver's driving time and facilitates the accurate recording of the driver's hours of service.

What your Electronic logging (ELD) device must record/retain

- Date & Time
- Geographic location information which includes Longitude and latitude, Nearby city, compass direction and distance from city.
- Engine hours which includes Engine power up/shut down.
- Vehicle miles
- Driver identification
- Vehicle identification
- Motor Carrier identification

Title 49 CFR, Part 395 Passenger Carrying Hours-of-Service

What your Electronic logging (ELD) device must record/retain (continued)

- Driver login/logout.
- Duty status changes which includes Personal use or yard moves
- Certification of driver's daily record.
- 60-minute intervals when the vehicle is in motion.
- Malfunction of diagnostic events.

Carriers can access FMCSA web site to view self-certified Manufactures of ELDs

https://www.fmcsa.dot.gov/hours-service/elds/equipment-registration

Supporting Documents retention

Regulations state carrier must retain documents associated with driver activity each day. The records must be maintained for at least 6 months. The following is a list of the types of documents you must maintain.

- Trip logs, itineraries, schedules, or equivalent, with origin and destination of each trip.
- Dispatch records, trip records, or equivalent.
- Expense receipts related to on-duty (not driving) periods.
- Electronic mobile communication records.
- Payroll records, settlement sheets, or equivalent

Exceptions to ELD

- 150 air-mile radius drivers may continue to use timecards as allowed by 395.1(e)(1).
- Using paper RODS not more than eight days in any thirty-day period.
- Drive away-tow away operations.
- Driving vehicles manufactured before model year 2000.

Over hours and/or false logs

Drivers found driving in excess of maximum hours or failing to keep a proper record of duty status for the current day and 7 prior consecutive days shall be put out of service. A driver that is out of service (OOS) shall not be required or permitted to drive and a driver may not drive a motor vehicle until the driver has hours available.

Title 49 CFR, Part 396 Vehicle Maintenance Standards

Vehicle inspections, repair and maintenance are critical to the safe operation of commercial motor vehicles. They are designed to reduce accidents, injuries and fatalities resulting from unsafe vehicles operating on the highways. Maintenance standards cover systematic maintenance, pre-trip/post-trip inspection reports and annual inspections.

General Standards

393 (Parts and Accessories) and 396 (Inspection, Repair and Maintenance)

- A carrier is responsible for ensuring that it properly inspects, repairs and maintains vehicles under its control.
- A motor vehicle may not be operated when its mechanical condition is likely to cause an accident or breakdown.
- Parts and accessories must be in safe operating condition at all times.
- A vehicle must be maintained according to the vehicle manufacturer's recommended schedule, or an improved schedule based on actual operating conditions, and
- Push out windows, emergency doors and emergency door markings, and lights in buses must be inspected at least every 90 days.

Motor Carriers who must comply

The following carriers operating in interstate/intrastate commerce must comply with the systematic maintenance standards.

- Vehicles with a gross vehicle weight rating (GVWR) or gross combination weight rating of 10,001 or more pounds (interstate);
- Vehicles with a gross vehicle weight rating (GVWR) or gross combination weight rating of 26,001 or more pounds (intrastate);
- Capable of hauling 8-15 or more passengers, including the driver.
- Vehicle is used in the transportation of hazardous materials in a quantity requiring placarding under the Hazardous Materials Transportation Act (HMTA) Regulations.

Required Records

For each vehicle a carrier controls for 30 consecutive days or more, the carrier must ensure the proper vehicle maintenance records are maintained. Each vehicle record must contain:

- Vehicle identification including company number, make, serial number, year and tire size.
- If the vehicle is leased, the person furnishing the vehicle must be identified.
- Due date and type of inspections and maintenance operations to be performed.
- A record of inspections and maintenance operations to be performed.
- A record of tests conducted on push out windows, emergency doors, and emergency door marking lights on buses.

Where records must be maintained?

Vehicle maintenance records must be retained where the vehicle is maintained for a period of one year and for six months after the vehicle leaves the carrier's control. (Sold)

Title 49 CFR, Part 396 Vehicle Maintenance Standards

Roadside Inspection Reports

Any driver who receives a roadside inspection report must deliver it to the motor carrier. An official of the motor carrier is to examine the roadside inspection report and ensure that all violations or defects noted on the report are corrected before the vehicle is re-dispatched. Within 15 days after the inspection, the carrier must sign the completed roadside inspection report to certify all 49 CFR 396 violations have been corrected and then return it to the indicated address on the report. A copy must be retained for 12 months from the date of inspection.

Driver Vehicle Inspection Report (DVIR)

The motor carrier shall require a driver to complete vehicle inspection before operating a CMV. A post inspection must be completed at the end of each day's work on each vehicle operated. If <u>defects are found</u> a report must be completed. The inspection shall cover the following:

Parking (hand) brake Steering mechanism

Lighting devices and reflectors Hom

Tires Windshield wipers
Rear vision mirrors Coupling devices
Wheels and rims Emergency equipment

Service brakes including trailer brake connections

When defects are noted on the Driver Vehicle Inspection Report

The report shall identify the vehicle, any defect or deficiency discovered by the driver, which would affect the safety of the operation of the vehicle or result in its mechanical breakdown. If no defect is discovered, the report shall so indicate. In all instances, the driver shall sign the report.

Prior to requiring or permitting a driver to operate a vehicle, the motor carrier shall repair any defect or deficiency listed on the driver vehicle inspection report, which would likely affect the safety of operation of the vehicle. Every motor carrier or its agent shall certify on the original driver vehicle inspection report any listed defect that has been repaired or that repair is unnecessary before the vehicle is operated again. **These reports shall be maintained for a period of three months.**

Before driving a motor vehicle, the driver shall: be satisfied that the vehicle is in safe operating condition; review the last driver vehicle inspection report; and sign the report if defects or deficiencies were noted by the driver who prepared the report, to acknowledge that the driver has reviewed it and that there is a certification that the required repairs have been performed.

Periodic Inspection

Every commercial vehicle shall have a periodic inspection that must be performed at least once every 12 months.

Title 49 CFR, Part 396 Vehicle Maintenance Standards

Periodic Inspection (continued)

At a minimum, inspections must include all items enumerated in the Minimum Periodic Inspection Standards, Appendix G, Subchapter B, Part 396. Carriers may perform required annual inspections themselves, with a qualified inspector. The original or copy of the periodic inspection report must be retained by the motor carrier for **14 months** from the report date.

Inspector **Qualifications**

Documentation of the most recent periodic inspection must be kept on the vehicle (report, sticker or decal).

A motor carrier must ensure that the individual(s) performing an annual inspection is qualified. The inspector must:

- Understand the inspection standards of Part 393 and Appendix G.
- Be able to identify defective components.
- Have knowledge and proficiency in methods, procedures and tools.

What experience or training qualifies an inspector?

Inspectors may have gained experience or training by:

- Completing a State/Federal training program or earning a State or Canadian Province qualifying certificate in commercial motor vehicle safety inspections.
- A combination of other training or experience totaling at least a year (See 396.19 for reference). (Sample certificate following).

Evidence of Qualifications

Evidence of the inspector's qualification must be maintained until one year after the inspector ceases to perform inspections for the carrier.

Brake Inspectors

The motor carrier is responsible for ensuring that all inspections, maintenance, repairs and service to brakes of commercial motor vehicles comply with these regulations. Employees responsible for brake inspections, maintenance, service or repairs must meet minimum brake inspector qualifications. (Sample certificate following).

MAINTENANCE FILE

	MAINTENANCE FILE
49CFR Reference	Item
396.3(b)	Maintenance File required for each vehicle under control for 30 days or more.
396.3 (b)(l)	Labeling: Must contain: 1. Identification of the vehicle to include: a. Company number if so marked b. Make c. Serial number (VIN) d. Year e. Tire size f. Leased vehicles-identify the owner/provider
396.3(b)(2)	2. Schedule of maintenance (Written Maintenance Plan).
396.3(b)(3)	3. Record of Inspection, Repairs and Maintenance. (indicating their date and nature of repair/inspection)
396.3(c)	4. Record retention- Keep all of the above on file until 1 year and for 6 months after vehicle leaves company.
396.9(d)	5. Copy of all roadside inspections.
396.9(d)(3)(ii)	Retain copy for 12 months from date of inspection.
396.11	6. Daily Vehicle Inspection Reports (DVIR).
396.11(c)(2)	Maintain on file for 3 months. (certificate of repairs and certification of driver's review)
396.17	7. Documentation of periodic inspection- required every 12 months.(report or other document such as a sticker or decal)
396.21	Retain for 14 months from date of inspection.
396.19	8. Evidence of individual's qualification to conduct annual inspections. (Maintain while perform inspections and 1 year after leaving or no longer performing inspections.)
396.25	9. Evidence of a brake inspector's qualifications. (Retain for while doing inspections and 1 year after leaving or no longer performing inspections.) *However, motor carriers do not have to maintain evidence of qualifications to inspect brake systems by persons who have passed the air brake knowledge and skills tests for the commercial driver's license.

INSPECTOR QUALIFICATIONS Certification - 49 CFR - Part 396.19

Motor carriers are responsible for ensuring that individual(s) performing an annual inspection under 396.19 are qualified as follows: Understands the inspection criteria set forth in Part 393 and Appendix G and can identify defective components Is knowledgeable of and has mastered the methods, procedures, tools and equipment used when performing an inspection ☐ Is capable of performing an inspection by reason of experience, training, or both, and qualifies in one of the following categories (check all that apply): I. ☐ Successfully completed a State or Federal training program or has certificate: from a State or Canadian Province which qualifies the person to perform commercial vehicle safety inspections. Specify: II.

Have a combination of training or experience totaling at least one year as follows (check all that apply): A.

Participation in a truck manufacturer-sponsored training program or similar commercial training program designed to train students in truck operation and maintenance. Where and Date: **B.** \square (years) experience as a mechanic or inspector in a motor carrier maintenance program. Name and Date: C. \(\sum_{\text{wears}}\) experience as a mechanic or inspector in truck maintenance at a commercial garage, fleet leasing company, or similar facility. Name of Facility and Dates: ____ (years) experience as a commercial vehicle inspector for a State, Provincial, or Federal Government. Where and Dates: I certify the above information is true and accurate to the best of my knowledge. Employee _ Signature of Mechanic/Inspector Date Motor Carrier/Company _ Signature of Employer/Supervisor Date Evidence of Inspector Qualifications are on file at:

BRAKE INSPECTOR QUALIFICATIONS Certification - 49 CFR - Part 396.25

"Brake Inspector" means any employee of a motor carrier who is responsible for ensuring all brake inspections, maintenance, service, or repairs to any commercial motor vehicle, subject to the motor carrier's control, meet the applicable Federal standards.

No motor carrier shall require or permit any employee who does not meet minimum brake inspector qualifications to be responsible for the inspection, maintenance, service or repairs of any brakes on its commercial motor vehicles.

Minimum Qualifications Understands and can perform brake service and inspection Is knowledgeable of and has mastered the methods, procedures, tools and equipment necessary to perform brake service and inspection Is capable of performing brake service or inspection by reason of experience, training, or both, and qualifies in one of the following categories (check all that apply): I. Has successfully completed an apprenticeship program sponsored or approved by a State, Canadian Province, a Federal agency or labor union, or has a certificate from a State or Canadian Province which qualifies the person to perform brake service or inspections. Specify: Has brake-related training or experience or a combination thereof totaling at least one year as follows II. (check all that apply): A. Participation in brake maintenance or inspection training program sponsored by a brake or vehicle manufacturer or similar commercial training program. Where and Date: B. (years) experience performing brake maintenance or inspection in a motor carrier maintenance program. Name and Date: C. \(\sum_{\text{wears}}\) experience performing brake maintenance or inspection at a commercial garage, fleet leasing company, or similar facility. Name of Facility and Dates: I certify the above information is true and accurate to the best of my knowledge. Signature of Mechanic/Inspector Date Motor Carrier/Company_ Signature of Employer/Supervisor Date Evidence of Inspector Qualifications are on file at:

Title 49 CFR Hazardous Materials Regulations

Applicability

The hazardous materials regulations are applicable to the transportation of hazardous materials in commerce and their offering to:

- Interstate, intrastate, and foreign carriers by rail car, aircraft, motor vehicle and vessel.
- The representation that a hazardous material is present in a package, container, rail car, aircraft, motor vehicle or vessel.
- The manufacture, fabrication, marking, maintenance, reconditioning, repairing or testing of a package or container which is represented, marked, certified or sold for use in the transportation of hazardous materials (49 CFR 171.l(a)).

Who is required to have HM Registration (PHMSA)?

Persons who offer for transportation or transport in foreign, interstate or intrastate commerce: (a) any highway route controlled quantity of a Class 7 (radioactive) material; (b) more than 55lbs of a Division 1.1, 1.2, or 1.3 (explosive) material in a motor vehicle, rail car or freight container; (c) more than 1 L per package of a material extremely poisonous by inhalation; (d) a hazardous material in a bulk packaging having a capacity of 3,500 gallons for liquids or gases, or more than 468 cubic feet for solids; (e) a shipment in other than bulk packaging of 5,000 lbs. gross weight or more of one class of hazardous material for which the transport vehicles requires placarding; (f) any quantity of materials requiring placarding.

Hazardous Materials Safety Permits After January 1, 2005, the Federal Motor Carrier Safety Administration (FMCSA) requires motor carriers to obtain a Hazardous Materials Safety Permit (HMSP) prior to transporting certain highly hazardous materials. A HMSP is required to transport any of the following materials:

- A highway route-controlled quantity of a Class 7 (radioactive material);
- More than 55 lbs. of a Division 1.1, 1.2 or 1.3 (explosive) material or any amount of a Division 1.5 (explosive) material requiring placarding under 49 CFR 172;
- More than one liter per package of a "material poisonous by inhalation", that meets the criteria for "hazard zone A".
- A "material poisonous by inhalation", that meets the criteria for "hazard zone B", in a bulk packaging (greater than 119 gallons);
- A "material poisonous by inhalation", that meets the criteria for "hazard zone C", or "hazard zone D", in a packaging having a capacity equal to or greater than 3,500 gallons.
- A shipment of compressed or refrigerated liquefied methane or liquefied natural gas, or other liquefied gas with a methane content of at least 85 percent, in a bulk packaging having a capacity equal to or great than 3,500 gallons.

If applicable, motor carriers will be required to apply for a HMSP the next time they are scheduled to file the MCS-150 form after January 1, 2005.

Title 49 CFR Hazardous Materials Regulations

Hazardous Materials Shipper/Carrier Responsibilities

Shipper Responsibilities

- Determine whether a material
 meets the definition of a
 "hazardous material"
- Proper Shipping Name
- Class/Division
- Identification Number
- Hazard Warning Label
- Packaging
- Marking
- Employee Training

- Shipping Paper
- Emergency Response Information
- Emergency Response Telephone Number
- Certification
- Compatibility
- Blocking & Bracing
- Security Plan
- Incident Reporting

Listed above are the major responsibilities of HM shippers. General shipper responsibilities are contained in 49 CFR 173. Identification of a hazardous material is the first step, and, frequently the most difficult. Of all the shippers' (offerors) responsibilities, the requirement to properly classify a hazardous material is very important. It is from the proper identification of the hazardous material that the other requirements are based. A list of all material regulated by the DOT is located in section 172.101.

Carrier Responsibilities

- Shipping Paper
- Placard & Mark Vehicle
- Loading and Unloading
- Compatibility
- Blocking & Bracing
- Incident Reporting
- Security Plan
- Employee Training

The list above contains some of the major responsibilities of HM carriers. Carrier and offeror (ship) responsibilities frequently overlap. When a motor carrier performs a shipper function, the carrier is responsible for performing that function in accordance with 49 CFR.

HM Classes

Class 1 = Explosives

Class 2 = Gases

Class 3 = Flammable Liquid

Class 4 = Flammable Solids

Class 5 = Oxidizing Substances; Organic Peroxides

Class 6 = Poisonous (Toxic) and Infectious Substances

Class 7 = Radioactive Material

Class 8 = Corrosives

Class 9 = Misc. Dangerous Goods

Title 49 CFR Hazardous Materials Regulations

Definitions

- "Bulk packaging" means a packaging other than a vessel or barge, including a transport vehicle or freight container, in which hazardous materials are loaded with no intermediate form of containment, and which has:
- A maximum capacity greater than 119 gallons as a receptacle for a liquid:
- A maximum net mass greater than 882 pounds and a maximum capacity greater than 119 gallons as a receptacle for a solid:
- A water capacity greater than 1000 pounds as a receptacle for a gas as defined in 1 73. 115.
- "Consumer commodities" are materials that are packaged and distributed in a form intended for, or suitable for sale, through retail sales. In order to determine if a particular hazardous material may qualify as a consumer commodity, refer to the section number in Part 173 identified in column 8 of the 172.101 Table for that material.
- "Materials of Trade" transportation (see 49 CFR 171.8) by highway may be excepted from many of the requirements of the HM regulations when transported in accordance with the procedures contained in 49 CFR 173.6.
- "ORM-D" materials are materials such as a consumer commodity, which is subject to the regulations, presents a limited hazard during transportation due to its form, quantity, and packaging. Each ORM-D material and category of ORM-D material is listed in the 49 CFR 172.101 Table and 173.144.

Shipping Papers

Each person who offers hazardous materials for transportation shall describe the hazardous materials on a shipping paper that conforms to the requirements of the HMR. No carrier may transport a hazardous material unless it is accompanied by a shipping paper that is prepared in accordance with the HMR. A properly prepared shipping paper must contain at least the following in the proper sequence:

- Identification Number
- Proper Shipping Name
- Hazardous Class
- Packing Group
- Total Quantity (Weight, Volume, Gallons, etc.)
- Emergency Phone Number

The emergency response telephone number may be anywhere on the shipping paper as long as it does not violate other rules and must be monitored at all times while the shipment is in transit.

Labeling

The basic marking requirements consist of the identification number, proper shipping name, class, packing group, quantity of the hazardous materials contained in the package with emergency number. Markings must be durable, in English and not obscured by other markings or labels.

Title 49 CFR Hazardous Materials Regulations

Labeling (continued)

General labeling requirements are contained in 49 CFR Subpart E, Part 172. Each person who offers for transportation or transport a hazardous material shall ensure the package is properly labeled. There are a number of exceptions to the labeling requirements contained in 172.400a.

Placarding

General placarding requirements are contained in 172.504. Each bulk packaging, freight container, unit load device, transport vehicle or rail car containing any quantity of hazardous materials must be placarded on each side and each end with placards specified in tables 1 & 2.

Table 1 (Placard Any Quantity)

Hazard class or division	Placard Name
1.1	. Explosives 1.1
1.2	. Explosives 1.2
1.3	. Explosives 1.3
2.3	. Poison Gas
4.3	. Dangerous When Wet
5.2 (Organic Peroxide, Type B,	
liquid or solid, Temperature Controlled)	Organic Peroxide
6.1 (Inhalation Hazard, Zone A or B)	. Poison Inhalation Hazard
7.0 (Radioactive Yellow III label only)	. Radioactive

Table 2 (Placard 1,001 lbs. or more)

Hazard class or division	Placard Name
1.4	Explosives 1.4
1.5	Explosives 1.5
1.6	Explosives 1.6
2.1	Poison Gas
3.0	Non-Flammable Gas
Combustible Liquid	Combustible
4.1	Flammable Solid
4.2	
5.1	Oxidizer
5.2 (Other than Organic Peroxide, Type	е В,
liquid or solid, Temperature Controlled)Organic Peroxide
6.1 (Other than Inhalation Hazard, Zon	e A or B) Poison
6.2	(None)
8.0	Corrosive
9.0	Class O (172.504 (f) (9))
ORM-D	(None)

Title 49 CFR Hazardous Materials Regulations

HM Training

"General awareness" training is intended to raise the hazmat employees' awareness of the HMR and the purpose and meaning of the hazard communication requirements. All hazmat employees must have this training.

HM Training (Continued)

"Function-specific" training is intended to teach the necessary knowledge, skills and abilities for an individual's job function.

"Safety" training provides information concerning the hazards posed by materials in the workplace and personal protection measures.

"Security" training must include an awareness of security risks associated with hazardous materials transportation and methods designed to enhance transportation security.

Security Plan

It is the hazmat employer's responsibility to determine the adequacy of the training being presented. Training may be in any appropriate format including lecture, conference, self-paced instruction, interactive video, etc. All new hazmat employees must be trained within 90 days of employment and must be supervised until properly trained. Recurrent training must take place every three years.

A record of current training, inclusive of the preceding three years, in accordance with this subpart, shall be created and retained by each hazmat employer for as long as that hazmat employee is employed.

Each hazmat employer subject to the security plan requirements (CFR 172.800) is required to establish and implement a security plan. The purpose of this requirement is to enhance the security of hazardous materials transported in commerce. Employers must also train each employee on the security plan and its implementation.

Your Security Plan should be a complete document and should include: (a) information on your security assessment; (b) how you address any vulnerabilities identified in the assessment; (c) what security measures you have adopted; (d) how, when, and by whom they will be implemented; (e) your organizational structure; and (f) the responsibilities of the various employee positions. In essence, your security plan is the detailed map of how you address the security assessment.

Each motor carrier should evaluate the threats it faces, and its vulnerabilities based on its unique operations and facilities and should recognize that a cookie-cutter approach is not appropriate. The measures adopted by your company to address your vulnerabilities do not need to be complex or expensive to be effective, but the justification and rationale to support them needs to be sound and documented. The key to developing adequate security measures is to think "prevention".

Title 49 CFR Hazardous Materials Regulations

Security Plan (Continued)

Understand that the threat is very real and try to think like a terrorist when assessing your security weaknesses. More information on security plans can be obtained at the following link-

 $\frac{https://www.ecfr.gov/current/title-49/subtitle-Blchapter-I/subchapter-C/part-I/2/subpart-I/section-172.802}{1.72/subpart-I/section-172.802}$

SECTION TWO

Part 382 Alcohol and Drug Testing Requirements

Part 383 Commercial Driver's License Requirements

Most drivers of commercial motor vehicles (CMV) engaged in interstate and intrastate transportation are subject to controlled substances and alcohol testing under the Code of Federal Regulations, Title 49 Parts 40 and 382. Employers are required to have a program and procedures in place to ensure that all drivers who are required to possess a commercial driver's license (CDL), and who operate a commercial vehicle, are tested for drug and alcohol use. The purpose of controlled substance testing is to reduce highway accidents that result from driver use of these substances. Carrier should note: As of this printing, Marijuana use of any kind, including marijuana prescribed by a medical professional, that results in a positive test will disqualify a driver. A Carrier may not knowingly allow a CMV driver to drive a CMV who is in possession of or using any controlled substances

commercial motor vehicle (CMV)

A commercial motor vehicle:

- Has a gross combination weight rating of 26,001 or more pounds inclusive of a towed unit with a gross vehicle weight rating or more than 10,000 pounds; or
- Has a gross vehicle rating of 26, 001 pounds; or
- Is designed to transport 16 or more passengers, including the driver; or
- Is of any size and is used in transportation of hazardous materials which requires a placard on the vehicle.

This law applies

This law applies to:

- For hire and private companies.
- Federal, state and local governments.
- Civic and church organizations.
- Farmers and custom harvesters unless exempted from CDL.
- Apiarian industries (Beekeeping)

Alcohol **Definitions**

to:

"Alcohol" is the intoxication agent in beverage alcohol, ethyl alcohol, or low molecular weight alcohol including methyl and isopropyl alcohol. "Alcohol use" is the consumption of any beverage, mixture or preparation (including medication) that contains alcohol.

Alcohol **Prohibitions**

The alcohol rule prohibits any alcohol use that could affect performance of a safety-sensitive function, including:

- Reporting for duty or remaining on duty to perform safety-sensitive functions with alcohol concentration of 0.04 BAC or greater.
- Use while performing safety-sensitive functions.
- Use during the 4 hours before performing safety-sensitive functions.
- Possession of alcoholic substances, unless transported and manifested as part of a shipment
- Use during 8 hours following an accident, or until driver undergoes a post-accident test, whichever occurs first.
- Refusal to take a required test

Tests Required

Drivers required to have a commercial driver's license (CDL) are subject to:

- Pre-employment testing (a verified negative test result before first trip) Part 382.301.
- Post-accident testing (see chart in Part 382.303)
- Random testing (must include more than one driver, use a scientifically valid method and each driver has an equal chance of being tested each time);
- Reasonable suspicion testing (supervisor receive 60 min. each drug and alcohol training);
- Return to duty (a verified negative test result must be received before performing a safety sensitive function (driving a CDL vehicle))
- Follow up (SAP to determine a substance abuse plan to include a minimum 6 unannounced follow-up tests in the first 12 months)

Controlled Substance Testing

Employers are required to do a five-panel test for the following controlled substances:

- Marijuana
- Cocaine
- Opiates
- Amphetamines
- Phencyclidine(PCP)

Drug Prohibitions

A driver may not report for duty (or remain on duty) to perform safetysensitive functions if:

- The driver uses any of the above-mentioned drugs unless prescribed by a doctor who has told the driver that the use will not adversely affect the driver's ability to operate a CMV safely.
- The driver tests positive for controlled substance use; or
- The driver refuses to take the required test.

Consequences

A driver who violates any of the above provisions *must*:

- Not perform, nor be permitted to perform, a safety-sensitive function
- Be referred to a substance abuse professional (SAP) for evaluation to determine what assistance is needed.
- Undergo a return-to-duty test for alcohol or drugs resulting **in** a verified negative result
- Be subject to unannounced follow-up testing after returning to work

Access to Records

An employer **must obtain**, pursuant to a driver's written consent, the driver's alcohol and drug compliance records from previous (3 yrs.) employers. A previous employer, pursuant to a driver's written consent, **must release** a driver's alcohol and drug compliance records to a prospective employer. Carriers **must make** all records related to the administration of their testing programs and individual test results available to agencies with regulatory jurisdiction. Requests may be placed in drivers' qualification file.

Medical Review Officer

A carrier must use a Medical Review Officer (MRO) to review and verify individual controlled substance test results. It is the MRO who must notify the carrier whether a driver's drug test was positive or negative, and which controlled substance tested positive.

Education Material and Company Policy

Employers must provide educational materials to each driver explaining the requirements and employer policies and procedures with respect to drug and alcohol testing and shall ensure all persons who supervise drivers receive 60 minutes training on alcohol and 60 minutes training on substance abuse as required in Part 382 and maintain evidence of such training.

Carrier Responsibility

Parts 40 and 382 standards allow carriers to contract with outside services and consortiums that assist with administration of the carrier's program. Frequently contracted services include company policy development, random selections, collection site, and testing services. Responsibility for compliance is ultimately the responsibility of the employer.

Drug & Alcohol Clearing house

Employers and drivers must register in the Drug &Alcohol clearing house.

Drivers will utilize the Clearing house to confirm their information is correct and to provide permission to carrier to complete a full query.

Employers must complete a full query on all new CDL drivers. Employers must also complete a limited query on existing CDLs drivers annually. **Note:** any annual queries that result in a finding in the Clearing House will obligate the employer to complete a full query.

Carriers must confirm a driver's history with alcohol & Controlled Substances

As of January 6, 2023, employers may utilize the Drug and Alcohol Clearinghouse in accordance with \$382.701(a) to comply with the requirements of \$391.23(e) with respect to Drug & Alcohol regulated employers.

CONTROLLED SUBSTANCES and ALCOHOL USE AND TESTING

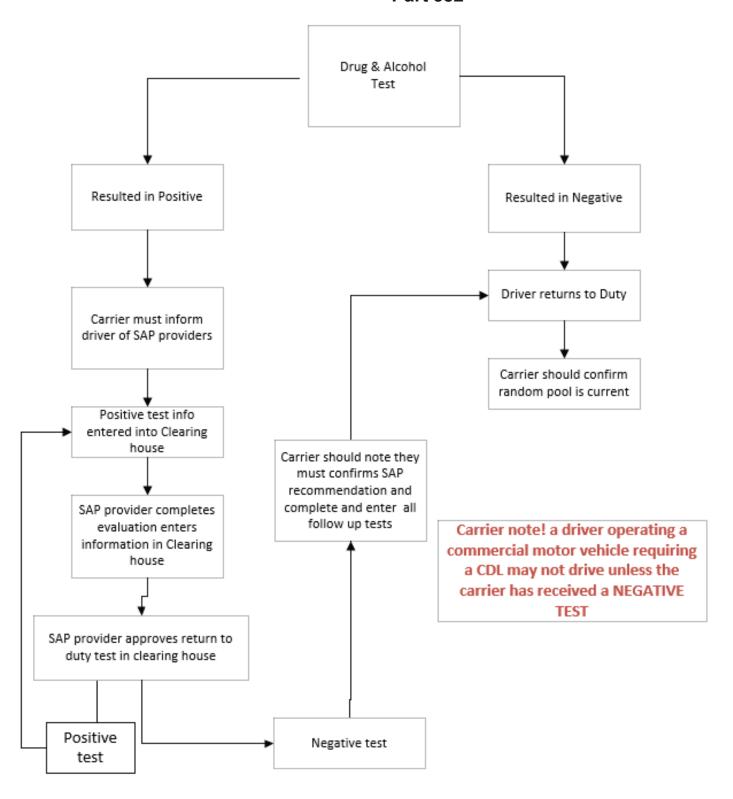

PROGRAM IMPLEMENTATION CHECKLIST

- Do you have at least one person familiar with the controlled substances and alcohol testing requirements?
- Do you have written company policies and procedures describing your company's alcohol and its implementation?
- Have you informed employees in writing of the company's substance use and abuse policy and its implementation?
- Have you provided educational materials relating to the effects of alcohol and controlled substance use and abuse to your affected employees?
- Have you identified which job positions need to be tested?
- Have you selected qualified personnel to implement and monitor your program?
- Do you have a Drug and Alcohol Clearing house Account?
- Does your program include testing for five prohibited substances: marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP)?
- Have you established or contracted for a secure specimen collection site with appropriately trained personnel and clearly written procedures?
- Have you established or contracted with a certified laboratory to analyze specimens?
- Have you designated a qualified alcohol-testing technician to conduct alcohol tests?
- Does your program include pre-employment controlled substance testing?
- Does your pre-employment Drug & Alcohol program include a full query of new driver in Drug & Alcohol Clearing House?
- Does your program include at the very least an annual limited query of all drivers in the Drug & Alcohol Clearing House?
- Does your program include random, reasonable cause, post-accident, return to duty and follow-up testing for alcohol and controlled substances?
- Have you identified substance abuse professionals and rehabilitation resources for referral?
- Have you made arrangements for a minimum 120 minutes of training for supervisors required to make reasonable suspicion determinations?
- Have you made record keeping and reporting provisions? Do they protect the right to privacy and prevent unauthorized release of test results?

CONTROLLED SUBSTANCE FLOW CHART Part 382

Standards

The licensing provisions in Part 383 are intended to help reduce accidents by setting standards that:

- Require commercial drivers to be properly qualified and to hold a single valid driver's license (CDL) and
- Disqualify drivers who do not operate commercial motor vehicles (CMV) safely.

Commercial Driver's License Information System (CDLIS) CDLIS enables the State to exchange information about the driving records and driver's licenses of CMV drivers. This helps assure that only one license is issued to a driver and that drivers currently disqualified are prevented from obtaining a CDL. Employers have access to the CDLIS clearinghouse through their state's vehicle licensing agency

Vehicles requiring commercial driver's license

Drivers must hold a CDL if they operate in interstate, intrastate or foreign commerce and drive a vehicle:

- With a gross vehicle weight rating (GVWR) or gross combination weight (GCVW) of at least 26,001 pounds towing a trailer of at least 10,001 lbs. or
- Designed to transport at least 16 passengers including the driver or
- Transporting a quantity of hazardous material requiring placarding. Because the CDL is a state-issued license, you should check with appropriate State officials regarding particular license classes and specific exemptions.

LCV Certification Requirements CDL Drivers of Longer Combination Vehicles (LCV) must meet minimum requirements for special training through Part 380. LCV Driver-Training Certificate.

Notification to employer and licensing state

Upon conviction for any State or local traffic violations, a driver must notify his/her employer(s) within 30 days. This notification must be in writing and must include the following information:

- Driver's full name
- Driver's license number
- Date of conviction
- Details about the offense, including any resulting suspension, revocation, or cancellation of driving privileges
- Indication of whether the violation happened in a CMV
- Location of offense, and

Driver's signature.

Disqualifying Offenses

No employer shall knowingly allow, require, permit or authorize a disqualified driver to drive a CMV. Disqualifying offenses include:

- Driving a CMV while under the influence of alcohol.
- Driving a CMV while under the influence of a disqualifying drug or other controlled substance.
- Leaving the scene of an accident that involves a CMV.
- Using a CMV to commit a felony.
- Using a CMV to commit serious traffic violations.
- Using a CMV to violate an Out-of-Service Order.

Using a CMV to violate the Railroad-Highway Grade Crossing rule

The following tables have been provided for carriers and drivers to provide information regarding CDL and motor vehicle traffic citations **convictions** and the impact these **convictions** have on a driver's CDL privileges.

Major Offense Table

Ma	jor Offenses	Disqualifications
1. 2. 3. 4. 5. 6. 7.	Driving a motor vehicle while under the influence of alcohol as prescribed by state law (A08, A10, A11[Where BAC ≥.08], A20, A21, A23, A90, A91 [Where BAC ≥.08], and A98) Driving a motor vehicle while under the influence of a controlled substance (A20, A22, A23) Driving a commercial motor vehicle while the person's blood alcohol concentration is 0.04% or more (A04, A11[When BAC >.04 but<.08], A91[When BAC >.04 but<.08], and A94) Refusing to take an alcohol or drug test as required by a State or jurisdiction under its implied consent laws or regulations as defined in § 383.72 (after operating a motor vehicle) (A12) Leaving the scene of an accident (driving a motor vehicle) (B01, B02, B03, B04, B05, B06, B07, and B08) A felony involving the use of a motor vehicle, other than as described in #9 in this table. (U03) Driving a commercial motor vehicle when as a result of prior violations committed operating a CMV, the driver's CDL is revoked, suspended, or canceled, or the driver is disqualified from operating a CMV (B20, B21, B22, B23, B24, B25, and B26 [see section]	For 1st Major Offense: 1 year Disqualification - if the vehicle was not transporting hazardous materials required to be placarded 3 years Disqualification - if the vehicle was transporting hazardous materials required to be placarded 2nd and separate incident of any major offense: Lifetime disqualification, but eligible for 10 year reinstatement (W40) Incident after reinstatement Lifetime disqualification, not eligible for reinstatement (W41) For Conviction Group 9
9.	3.2.96.2] — the CMV Indicator must equal '1') Causing a fatality through the negligent operation of a commercial motor vehicle, including but not limited to the crimes of motor vehicle manslaughter, homicide by motor vehicle, and negligent homicide (U07, U08, U09, and U10 — the CMV Indicator must equal '1') Use of a motor vehicle in the commission of a felony involving manufacturing, distributing, or dispensing a controlled substance (A50)	

Serious Offense Table

Serious	Offenses	Disqualifications
the	eeds excessively, involving any speed of 15 mph or more above posted speed limit (S15, S16, S21, S26, S36, S41, S71, S81, 1, S92 [if detail on S92 shows >15 over limit]	For 1 st Conviction: No disqualification
inc wil	ives recklessly, as defined by State or local law or regulation, luding but not limited to offenses of driving a motor vehicle in llful or wanton disregard for the safety of persons or property 84)	2nd and separate incident of any offense in this table, during a 3 year period: 60 days disqualification (W30)
3. Ma	akes improper or erratic traffic lane changes (M42)	

- 4. Follows the vehicle ahead too closely (M34)
- Violates State or local law relating to motor vehicle traffic control arising in connection with a fatal accident (U31)
- 6. Driving a CMV without obtaining a CDL (B56)
- Driving a CMV without a current CDL in the driver's possession (B51)
- Driving a CMV without the proper class of CDL and/or endorsements for the specific vehicle group being operated or for the passengers or type of cargo being transported (B91)

3rd or subsequent conviction of any incident of any offense in this table, during a 3 year period:

120 days disqualification (W31)

Railroad-Highway Grade Crossing Offenses Table

Railroad-Highway Grade Crossing Offenses	Disqualifications
If the driver operates a commercial motor vehicle in violation of a federal, state or local law and: 1. The driver is not required to always stop, but fails to slow down and check that tracks are clear of an approaching train (M20) 2. The driver is not required to always stop, but fails to stop before reaching the crossing, if the tracks are not clear (M21) 3. The driver is always required to stop, but fails to stop before driving onto the crossing (M22) 4. The driver fails to have sufficient space to drive completely through the crossing without stopping (M23) 5. The driver fails to obey a traffic control device or the directions of an enforcement official at the crossing (M10) 6. The driver fails to negotiate a crossing because of	For 1st Conviction: No less than 60 days For 2nd Conviction of any offense in this table in a separate incident within a 3-year period: No less than 120 days CMV disqualification (W60) 3rd or subsequent conviction of any offense in this table in a separate incident within a 3-year period: No less than 1 year CMV disqualification (W61) Note: An employer who is convicted of a violation of a Federal, State, or local law or regulation, pertaining to railroad-highway grade crossings must be subject to a civil
insufficient under-carriage clearance (M24)	penalty of not more than \$10,000.

Violating Out-Of-Service Order

Other Penalties:

A driver who is convicted of violating an out-of-service order shall be subject to a civil penalty of not less than \$2,500 for a first conviction and not less than \$5,000 for a second or subsequent conviction, in addition to disqualification under §383.51(e).

An employer who is convicted of a violation of an out-ofservice order shall be subject to a civil penalty of not less than \$2,750 nor more than \$25,000. For 2nd Conviction of a separate incident of an offense in this table, during a 10 year period in a HAZMAT CMV and/or a Passenger CMV (B19):

3 year to five disqualification (W51)

For 2nd Conviction of a separate incident of an offense in this table, during a 10 year period in a CMV that was not a Passenger CMV or a HAZMAT CMV (B27)

2 year to five disqualification (W50)

For 3rd Conviction of a separate incident of an offense in this table, during a 10 year period

3 to 5 year disqualification (W52)

Endorsements

In addition to general knowledge and skills tests, drivers who operate specialized commercial motor vehicles must pass additional tests and obtain endorsements on the CDL, as follows:

- T-Double/triple trailers (knowledge test only)
- P-Passenger (knowledge and skills test)
- N-Tank vehicle (knowledge test only)
- H-Hazardous materials (knowledge test only)
- X-Combination of tank vehicle and hazardous materials (knowledge tests)

Air Brake Restrictions

If an applicant fails the air brake section of the knowledge test, or performs the skills test in a vehicle not equipped with air brakes, his/her CDL, if issued, will indicate that the license holder may not operate any CMV equipped with air brakes

Note: For the purposes of the skills test and the license restriction, air brakes include any braking system that operates fully or partially on the air brake principle.

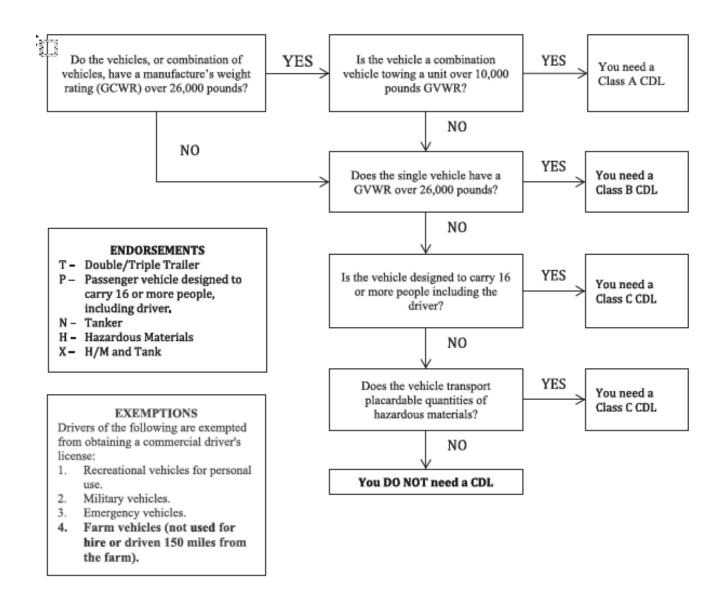

Note: Other Montana CDL information may be obtained from Dept. of Motor Vehicles at the help desk: (406) 444-3244.

FMCSA has established an Entry Level Driving program for new drivers of CDL vehicles and drivers upgrading their CDLs. This means all new CDLs and/or upgrades to existing CDL and additional endorsements to a CLDs. must complete Entry Level Driver Training (ELDT) before a driver can be issued a CDL or upgrade a CDL

There are three types of commercial driver's licenses: **Class A, B, and** C. Drivers of light vehicles-passenger cars and pickup trucks- will be issued an operator's license.

- Class A- Combination of vehicles with a gross combined weight rating (GCWR) over 26,000 pounds, provided the GVWR of the vehicles(s) being towed is greater than 10,000 pounds. A driver with a Class A license will be able to drive Class A, B, and C commercial vehicles with proper endorsements when required.
- Class B Single vehicles with a GVWR over 26,000 pounds, or any such vehicle towing a vehicle under 10,000 GVWR. A driver with a Class B license will be able to drive Class B and C Commercial vehicles with proper endorsement when required.
- Class C Vehicles with a GVWR less than 26,001 pounds. Class C's strictly for vehicles designed to carry 16 or more people or carry hazardous material in quantities large enough to require a placard. A class C license holder will be able to drive Class C commercial vehicles only.

Check the chart below to see what kind of commercial driver's license you will need

Commercial Driver's License (CDL)

COMMERCIAL MOTOR VEHICLE GROUPS

Group A (Combination Vehicle)

Any combination of vehicles with a gross combination weight rating (GCWR) of 26,001 pounds or more, provided the gross vehicle weight rating (GVWR) of the vehicle(s) being towed is in excess of 10,000 pounds.

Group B (Heavy Straight Vehicle) Any single vehicle with a GVWR of 26,001 pounds or more, or any such

26,001 pounds or more, or any such vehicle towing a vehicle not in excess of 10,000 pounds GVWR.

Group C (Small Vehicle)

Any single vehicle, or combination of vehicles, that meets neither the definition of Group A nor Group B, but is designed to transport 16 or more passengers including the driver, or is used in the transportation of materials found to be hazardous which require the motor vehicle to be placarded. This includes any quantity of chemical or biological material or agent posing a threat to national security, including toxins.

SECTION THREE

Safety Fitness Procedures

Resources

Web Sites

Permit & Weight Station Information

Title 49 CFR, Part 385 Safety Fitness Procedures

A motor carrier receives a safety rating when a safety investigator conducts an on-site investigation of the carrier's compliance with the Federal Motor Carrier Safety Regulations and the Hazardous Materials Regulations. The investigator reviews records, evaluates roadside vehicle inspection data and accidents to determine whether a motor carrier demonstrates compliance as described in Section 385.5 Safety Fitness standards.

Safety Ratings

The Safety Ratings are:

- *Satisfactory* A motor carrier has in place and functioning adequate safety management controls to meet the safety fitness standard prescribed **in** Section 385.5. Safety management controls are adequate if they are appropriate for the size and type of operation of the particular motor earner.
- **Conditional-**A motor carrier does not have adequate safety management controls **in** place to ensure compliance with the safety fitness standard that could result in the occurrences listed in Section 385.5 (a) through **(h)**.
- *Unsatisfactory-A* motor carrier does not have adequate safety management controls in place to ensure compliance with the safety fitness standards that has resulted in occurrences listed in Section 385.5 (a) through (h). Motor carriers receiving an "unsatisfactory safety rating" may be subject to the provisions of Section 385.13.

Carrier Investigation

Carrier Investigation:

- Investigations are conducted various ways depending on carrier score. The variations are off-site, on-site focused or on-site comprehensive examination of the motor carrier's records and operation to determine whether the carrier meets the safety fitness standard. The investigation may include an examination of the following aspects of the motor carrier's operations:
 - o Alcohol and controlled substance testing
 - o Driver's hours of service
 - o Driver qualifications
 - o Vehicle inspection and maintenance
 - o Financial responsibility
 - o Accidents
 - o Hazardous materials
 - o Other safety and transportation records
 - o Roadside vehicle out-of-service rate

A carrier investigation is conducted to investigate potential safety violations, to investigate complaints or is in response to a carrier's request for a change in safety rating. The results of the intervention review may result in the initiation of an enforcement action.

For additional information refer to: http://ai.fmcsa.dot.gov/default.aspx

SUPPLIES, FORMS AND SERVICES

Supplies, forms and training required by the FEDERAL MOTOR CARRIER SAFETY REGULATIONS, such as medical exam forms and cards, log books, drivers daily vehicle inspection reports and supervisor training etc, may be purchased from one of the following sources:

This required training can be obtained at a number of sources. A few are: Foley Services, J.J. Keller and LabelMaster. (Telephone numbers are located above).

SUBSTANCE ABUSE and ALCOHOL TESTING

A very basic list of consortiums has been provided. (For a complete list of available services in your area, an on line search "Drug Detection & Testing" or the local yellow pages.) These companies provide various services related to drug and alcohol testing. **The Office of Motor Carriers Safety Assistance Program does not endorse any individual program.** It is the responsibility of the employers to ensure that their program is administered in compliance with the regulations. Many companies offer remote testing and training of both drivers and company officials. Most companies also have out of area contracts for testing of drivers away from a central area.

SUPPLIES, FORMS AND SERVICES

CONSULTING GROUPS (SAPS)

There are a number of government agencies and private companies which specialize in mental health and rehabilitation therapies. For local consortiums in your city, check web or written publication searching "Drug Detection and Testing," All Substance Abuse Provider Services (SAPS) must be certified and Registered with FMCSA.

Consortium List

Websites & Explanation of Services Provided For Carriers

Below is a list of useful websites to help you, the carrier, with many different types of questions. Some of these email addresses may also provide you with training tools and/or help you update vital information required by FMCSA from time to time.

Federal Motor Carriers Safety Administration

www.fmcsa.dot.gov

Information the Web Page Provides:

Apply for DOT Number Questions about CDLs

Update your MCS 150 (Interstate)

Answers to rules & regulations

This link takes you to the Lead agency for motor carriers.

Commercial Vehicle Safety Alliance

www.cvsa.org

Information the Web Page Provides:

Brake training Upcoming National Specials
Copy of the OOS Criteria Contact to Committees

CVSA provides the training and certification for both state and federal inspectors for roadside inspections and intervention reviews.

A&I

ai.fmcsa.dot.gov

Information the Web Page Provides:

SafeStat Online Crash Statistics
Program Measures NAFTA Safety Stats

Passenger Carrier Safety Data Quality

Analysis Results & Reports

A&I was set up for both government and the public to use to gather information about many types of information with regards to crash, inspection, safety program and many other items at the national and state levels.

DataQs

dataqs.fmcsa.dot.gov

Information the Web Page Provides:

The above site is for carriers to electronically dispute roadside inspections. If a carrier files a dispute via DataQs, they receive a confirmation of the dispute and both FMCSA and the state that performed the inspection are notified. Both the carrier and government entities can track and respond to the dispute and all correspondence is tied to a dispute number you, the carrier, can track. DataQs automatically tracks response and reminds both FMCSA and the state if they have not responded within 14 days to the dispute.
