

Instruction for Pre-Test

You are to have 12 minutes to evaluate sixteen traffic situations. Your view is from the driver's seat.

You must manage your time to complete each of the situations by recording a spontaneous answer that comes to mind without delay.

After viewing the photo and reading the questions. Make your response on the provided paper. Give the completed test to your next in-car instructor.

You can only navigate forward through this program as there will not be time to go back. To move to the next situation, click on the arrow located in the lower left corner, as the one located on this page.

Begin by clicking on this arrow.

Scene B

Situation 16

Congratulations you have completed the pre-training test.

During the day's activities you will have opportunity to explore, discover, discuss and experience all of the concepts that were presented during this segment.

Go to your next scheduled in-car activity and give your response sheet to the instructor.

Please close this program!
