Project Overview

The Montana Department of Transportation (MDT), in partnership with engineering consultant Sanbell, is working to enhance safety features and improve accessibility at the Kagy Boulevard and Sourdough Road intersection in Bozeman.

Planned improvements include:

Installing a new traffic signal.

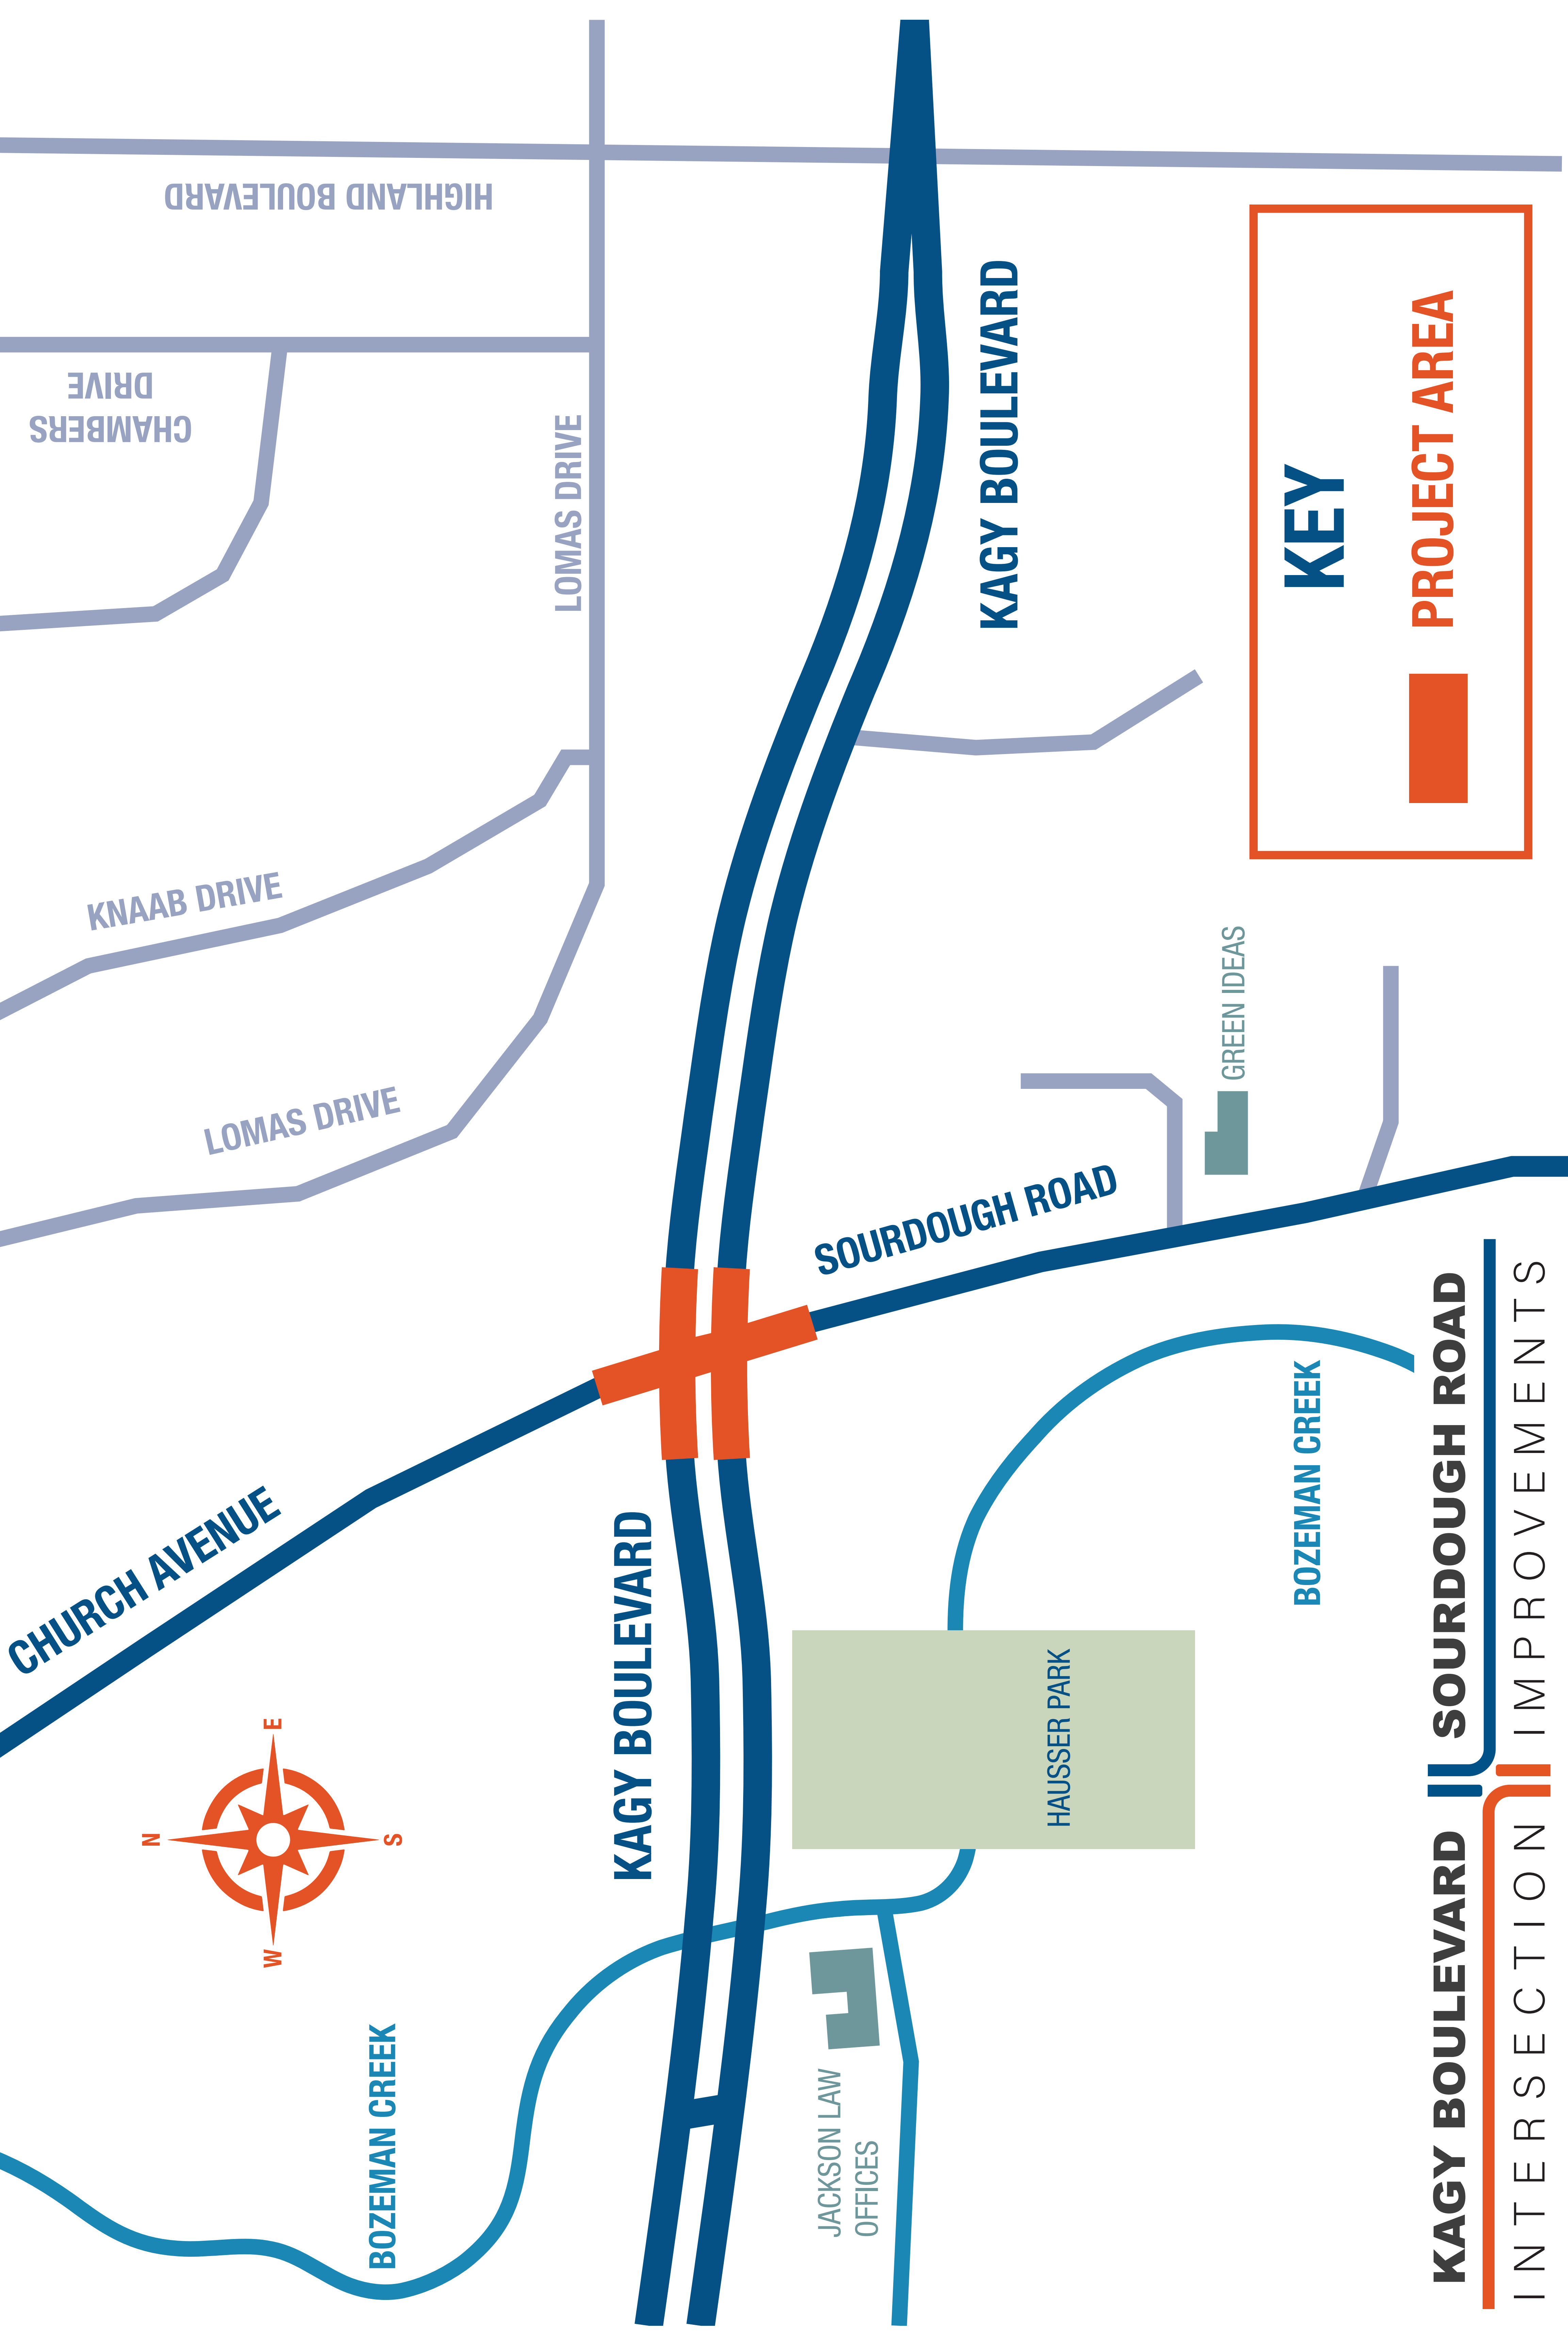

Installing new LED streetlights.

Replacing the existing curb and gutter.

Improving existing sidewalks and Americans with Disabilities Act (ADA) compliant ramps.

Project Timeline

- **January to March 2026 —**
Surveying and Environmental Fieldwork
- **April to August 2026 —**
Project Design Phase
- **August to September 2026 —**
Right-of-Way Phase
- **October to December 2026 —**
Final Plan Reviews and Revisions
- **To Be Determined —** Construction

The project timeline is dependent on the completion of design, the availability of funding, and unforeseen factors.

Project Funding

The final project cost will be determined as design progresses and details are finalized.

Funding Source	Amount
Carbon Reduction Program	\$1,046,000
Highway Safety Improvement Program (HSIP)	\$812,000
City of Bozeman Local Funds	\$85,000
Estimated Project Cost	\$1,943,000

Carbon Reduction Program

Provides federal funding to support transportation projects that reduce emissions and improve transportation system efficiency.

Highway Safety Improvement Program (HSIP)

Provides federal funding for projects that reduce serious injuries and fatalities at locations with higher-severity crashes.

MDT is committed to Vision Zero – the goal of zero deaths and zero serious injuries on Montana’s roadways.

Our approach to improving safety on our roadways focuses on key elements of traffic safety – also known as the four “Es”:

- 1 EDUCATION**
through public information and traffic safety outreach campaigns.
- 2 ENFORCEMENT**
of Montana’s traffic laws through the presence of law enforcement.
- 3 ENGINEERING**
of Montana’s roadways to ensure best practices are implemented and maintained with safety as the priority.
- 4 EMERGENCY MEDICAL RESPONSE**
to support emergency services so they are adequately funded and equipped to respond to crashes.
