

Welcome!

Watson Coulee Road Reconstruction Project

Open House

Project Timeline

2021 - 2022:

- Project initiation, control, topographic, and cadastral surveys, environmental analysis, and preliminary design

2023

- Project split and scope development

2023 - 2024

- Design alternative analysis for Watson Coulee Road/Vaughn Road intersection
- Develop preliminary roundabout design

2025

- Develop detailed design, public informational open house

2026 - 2027

- Final design and R/W acquisition

2028

- Anticipated construction start

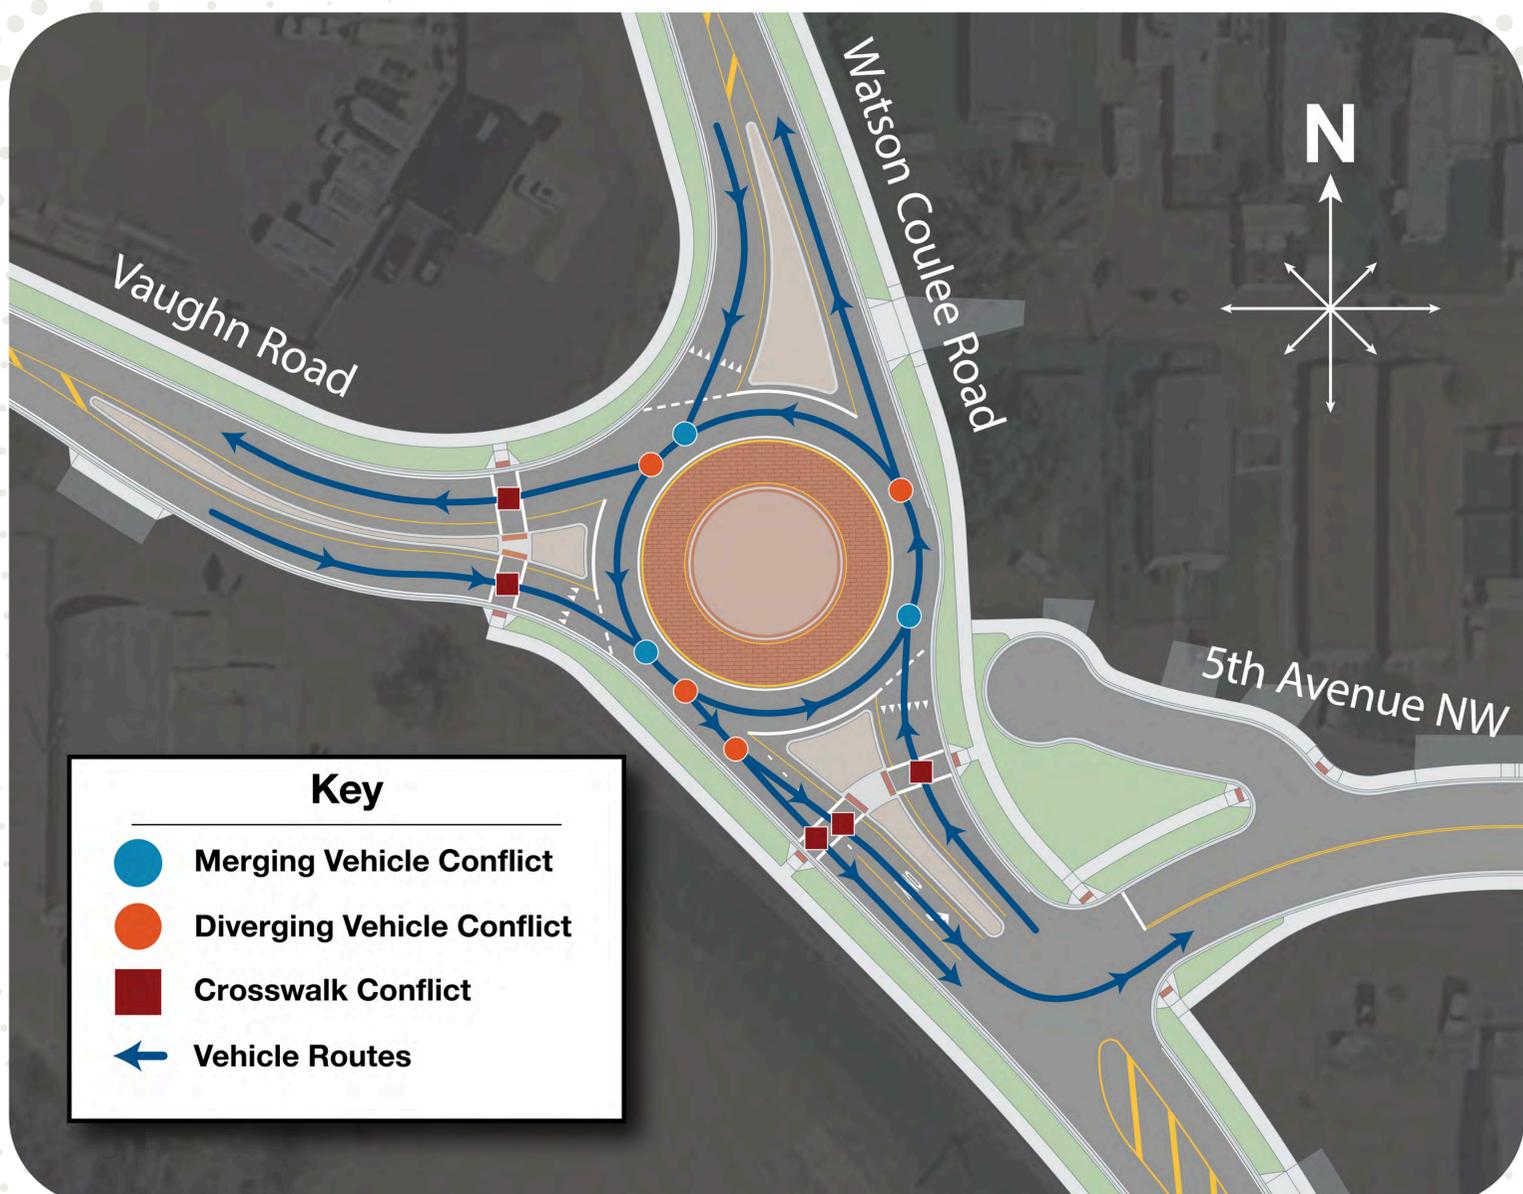

WE ARE
HERE

Design Elements

-  **Replace deteriorated pavement**
-  **Upgrade storm drains**
-  **Installing a roundabout at the intersection of Watson Coulee Road, Vaughn Road, and 5th Avenue NW**
-  **Install new curbs, gutters, and Americans with Disabilities Act (ADA)-compliant curb ramps**
-  **Install or repair sidewalks for better accessibility**
-  **Replace trees affected by construction**

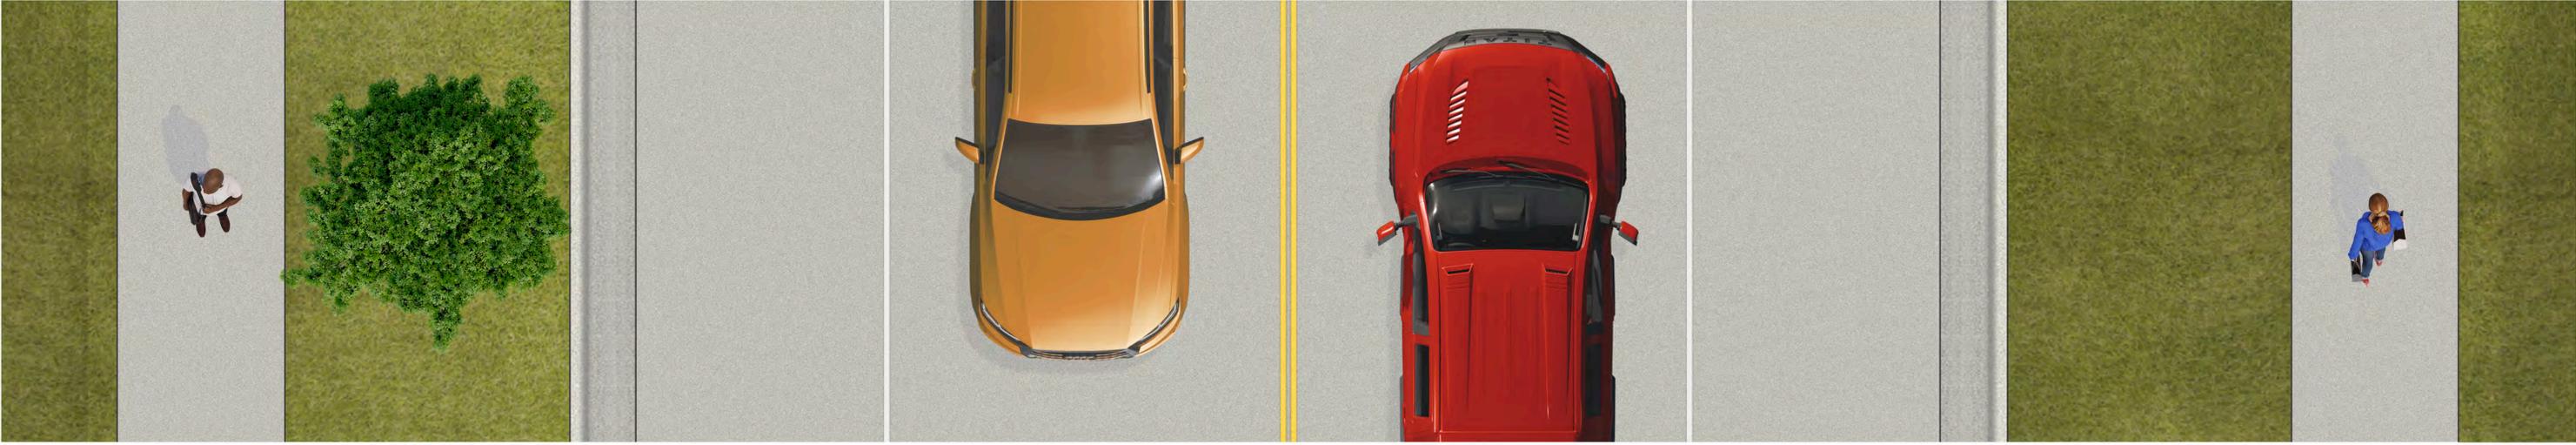

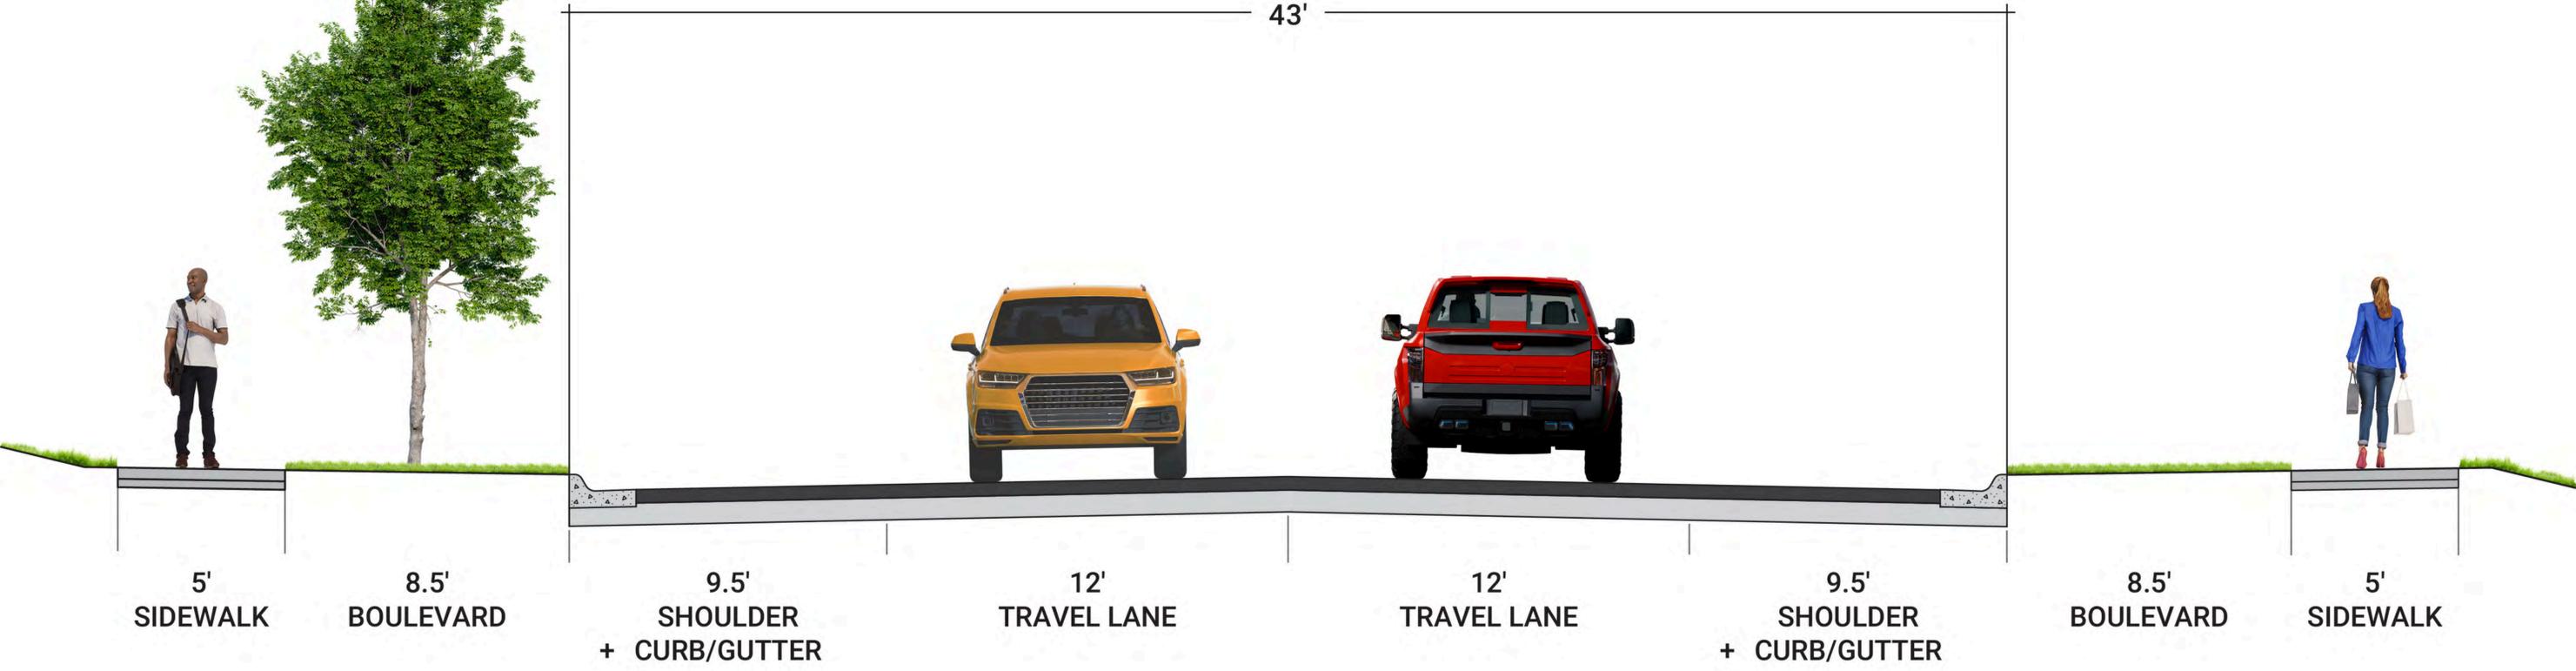

Why a Roundabout?

-  **Reduces congestion and delays during peak travel times**
-  **Designed to handle future traffic growth and capacity to the north of Great Falls**
-  **Improves intersection geometry and enhances safety, correcting the current skew of the intersection**
-  **Eliminates cross-traffic conflicts with two fewer vehicle conflict points**
